Sticker Nation 2 Srinu Kumar, 2009-02-01 Advertising is Pollution!, or so says a popular bumper sticker. So what does that make stickers? SMASH PROCRASTINATIONMUTE THE COMMERCIALSUNCLICKABLEMIX BUSINESS WITH PLEASURENOBODY OWNS YOU COLLABORATEI REFUSE TO BE A VICTIMWE LEARN BY TEACHINGDON'T BELIEVE EVERYTHING YOU READDEBUG THE VOTE Srinu Kumar, the unstoppable force behind StickerNation.com and Unamerican.com, returns with a second blockbuster collection of over four hundred all-new stickers. In 1994, while working the swing shift at the Kinko's in Menlo Park, California, Srinu Kumar made a name for himself as one of the most popular sticker artists in the world. People everywhere have cracked up hysterically at the witty wonder of his one-man rebellion. His first "Big Book of Subversive Stickers" was an immediate hit and has sold out after a third and final printing, making it an in-demand collector's item. This all-new second volume of stickers once again makes these cult favorite slogans available to the general public in a collectible format. Use them, save them, give them away—they're so cheap you can buy multiple copies of the book and still be spending less than buying just a few stickers on their own.

*Street Art NYC* Lord K2, Lois Stavsky, 2022-04-15 The birthplace of graffiti, New York City, has evolved into a global center for street art. Its public surfaces host a range of media from handmade stickers and wheatpastes to huge installations and murals. Artists from across the globe routinely travel to New York City to grace its walls as they refashion the city into one huge never-ending unofficial street art

festival. Among these are such contemporary urban legends as D'Face, Banksy, Os Gemeos, Case, MaClaim, Invader, Stik and Faith 47. Street Art NYC showcases both sanctioned and unsanctioned works captured in the course of a transformative decade that saw the emergence of over a dozen distinctly engaging projects. The hugely popular Bushwick Collective, L.I.S.A Project NYC and Welling Court Mural Project are highlighted with introductory essays. Local community-based projects and festivals, as well as those responding to specific environmental and social issues, are also represented. Banksy's one month 2013 residency, *Better Out than In* is documented with words and images. And homage is paid to the legendary 5 Pointz graffiti and street art mecca. Street Art NYC is a beautifully designed hardcover book. The full color photographs by Lord K2 captures the art in the city, printed on thick coated paper, and Lois Stavsky's text provides the context. This is the only book to spotlight the transformational decade that marked the shift from largely unsanctioned to widely curated street art throughout New York City's five boroughs. This book is a collaboration between Lord K2, an award-winning photographer and curator of the online Museum of Urban Art and Lois Stavsky, a noted street art documentarian and editor of the popular blog, Street Art NYC.

**Evaluation of Cellulose Ethers for Conservation** Robert L. Feller,Myron H. Wilt,1991-03-21 This report is the result of a three-year research program. It describes the chemical character of cellulose ethers as a general class of polymers and establishes an approximate ranking of the relative stability of each generic chemical subclass. Ranking the thermal stability of the polymers with respect to color change and loss in degree of polymerization led to the conclusion that as generic chemical classes, methylcellulose and carboxymethylcellulose appear to be the most stable of the cellulose ethers. Water-soluble

ethylhydroxyethylcellulose apparently also possesses good stability. Of questionable long-term stability are hydroxyethylcellulose and hydroxy- propylcellulose. Ethylcellulose and organic-soluble ethylhydroxyethylcellulose proved to be of poor stability, potentially undergoing marked changes in twenty years or less under normal museum conditions. An important additional conclusion reached here, as well as in an earlier investigation, is that considerable variations in stability can occur within a generic chemical class from differences in the basic raw material, a natural product from plants, which is not a uniform, manufactured, chemical substance. Further variations can exist due to different manufacturing processes or commercial sources. Hence, commercial products must be evaluated individually to determine the most stable of a given generic type. Nonetheless, the authors believe the conclusions expressed here to be valid with regard to the relative stability of the generic chemical classes of cellulose ethers.

*Ending Discrimination Against People with Mental and Substance Use Disorders* National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on the Science of Changing Behavioral Health Social Norms, 2016-09-03 Estimates indicate that as many as 1 in 4 Americans will experience a mental health problem or will misuse alcohol or drugs in their lifetimes. These disorders are among the most highly stigmatized health conditions in the United States, and they remain barriers to full participation in society in areas as basic as education, housing, and employment. Improving the lives of people with mental

health and substance abuse disorders has been a priority in the United States for more than 50 years. The Community Mental Health Act of 1963 is considered a major turning point in America's efforts to improve behavioral healthcare. It ushered in an era of optimism and hope and laid the groundwork for the consumer movement and new models of recovery. The consumer movement gave voice to people with mental and substance use disorders and brought their perspectives and experience into national discussions about mental health. However over the same 50-year period, positive change in American public attitudes and beliefs about mental and substance use disorders has lagged behind these advances. Stigma is a complex social phenomenon based on a relationship between an attribute and a stereotype that assigns undesirable labels, qualities, and behaviors to a person with that attribute. Labeled individuals are then socially devalued, which leads to inequality and discrimination. This report contributes to national efforts to understand and change attitudes, beliefs and behaviors that can lead to stigma and discrimination. Changing stigma in a lasting way will require coordinated efforts, which are based on the best possible evidence, supported at the national level with multiyear funding, and planned and implemented by an effective coalition of representative stakeholders. *Ending Discrimination Against People with Mental and Substance Use Disorders: The Evidence for Stigma Change* explores stigma and discrimination faced by individuals with mental or substance use disorders and recommends effective strategies for reducing stigma and encouraging people to seek treatment and other supportive services. It offers a set of conclusions and recommendations about successful stigma change strategies and the research needed to inform and evaluate these efforts in the United States.

*Inside the White Cube* Brian O'Doherty, 1999 These essays explicitly confront a particular crisis in postwar art, seeking to examine the assumptions on which the modern commercial and museum gallery was based.

*The Frankfurt Book Fair and Bestseller Business* Beth Driscoll, Claire Squires, 2020-10-22 The Frankfurt Book Fair is the leading global industry venue for rights sales, facilitating business-to-buzzness deals and international networks. In this Element, we pursue an Ullapoolist approach to excavate beneath the production of bestsellers at the Fair. Our investigation involved three consecutive years of fieldwork (2017–2019) including interviews and autoethnographic, arts-informed interventions. The Element argues that buzz at the Fair exists in two states: as market-ready media reports and partial, lived experiences linked to mood. The physical structures and absences of the Fair enact its power relations and direct the flow of books and buzz. Further, the Fair is not only a site for commercial exchange but a carnival of sorts, marked by disruptive historical events and problematic socio-political dynamics. Key themes emerging from the Element are the presence of excess, the pseudo(neo)liberal self-satisfaction of book culture, and the interplay of optimism and pessimism in contemporary publishing.
