Religious Separation and Political Intolerance in Bosnia-Herzegovina Mitja Velikonja, 2003 Mitja Velikonja has written a comprehensive survey that examines how religion has interacted with other aspects of Bosnia-Herzegovina's history. Velikonja sees the former Ottoman borderland as a distinct cultural and religious entity where three major faiths -- Islam, Catholicism, and Orthodoxy -- managed to coexist in relative peace. It is only during the past century that competing nationalisms have led to persecution, ethnic cleansing, and mass murder. Emphasizing the importance of religion to nationalism as a symbol of collective identity that strengthens national identity, Velikonja notes that religious groups have a tendency to become isolated from one another. He believes Bosnia-Herzegovina was unique in its *sarlikost*, or diversity, because while religion defined ethnic communities there and kept them separate, it did not create a culture of intolerance. Rather than suppressing one another, the region's ethno-religious groups learned to cooperate and mediate their differences -- useful behavior in an area that served as buffer between East and West for most of its history. Velikonja believes that Bosnians went beyond tolerance to embrace synthetic, eclectic religious norms, with each religious group often borrowing customs and rituals from its rivals. Rather than the extreme orthodoxy evident elsewhere in Europe, Bosnia became the home of heterodoxy. Sadly, nationalism changed all that, and the area became the scene of systematic persecution, forced conversion, and mass slaughter. Velikonja considers the misfortunes suffered by the Bosnians during the 1990s as largely the result of actions by their neighbors and local militants and inaction by the international community. But he also sees the tragedy that unfolded as the result of the exploitation of ethno-religious differences and myths by Serbian chauvinists and Croatian nationalists. Despite the tragedy that overwhelmed Bosnia-Herzegovina

*Getting to Dayton* Ivo H. Daalder, 2014-02-01 For over four years, Washington responded to war in Bosnia by handing the problem to the Europeans to resolve and substituting high-minded rhetoric for concerted action. Then, in the summer of 1995, the Clinton administration suddenly shifted course, deciding to assert the leadership that would prove necessary to end the war in Bosnia. This book—based on numerous interviews with key participants in the decisionmaking process and written by a former National Security Council aide—examines how the policy to end the war took shape. Getting to Dayton is a powerful case study of how determined individuals can exploit their positions to change U.S. government policy on crucial issues. In so doing, Daalder not only explains how Washington launched the diplomacy that culminated at Dayton, but also why the subsequent peace proved to be difficult to establish. Ivo H. Daalder is a senior fellow at the Brookings Institution. From 1995 to 1996 he served on the National Security Council staff as Director for European Affairs, where he was responsible for coordinating U.S. policy for Bosnia. His most recent publications include *The United States and Europe in the Global Arena* (1998) and *Bosnia After SFOR: Options for Continued U.S. Engagement* (1997). He is co-author of *Winning Ugly: NATO's War to Save Kosovo*, which will be published in 2000.

*The Road to the Dayton Accords* D. Chollet, 2007-06-08 The intricate diplomacy that led to the peace agreement in Bosnia, known as the Dayton Accords, is here revealed in unprecedented detail. Based on thousands of still-classified government documents and dozens of interviews with key participants, this is a comprehensive story of high-level diplomacy, told from the inside.

**The Unrest-Cure** Saki, 2021-01-08 Hector Hugh Munro (18 December 1870 – 14 November 1916), better known by the pen name Saki and also frequently as H. H. Munro, was a British writer whose witty, mischievous and sometimes macabre stories satirize Edwardian society and culture. He is considered a master of the short story, and often compared to O. Henry and Dorothy Parker. Influenced by Oscar Wilde, Lewis Carroll and Rudyard Kipling, he himself influenced A. A. Milne, Noël Coward and P. G. Wodehouse. Besides his short stories (which were first published in newspapers, as was customary at the time, and then collected into several volumes), he wrote a full-length play, *The Watched Pot*, in collaboration with Charles Maude; two one-act plays; a historical study, *The Rise of the Russian Empire* (the only book published under his own name); a short novel, *The Unbearable Bassington*; the episodic *The Westminster Alice* (a parliamentary parody of *Alice in Wonderland*); and *When William Came*, subtitled *A Story of London Under the Hohenzollerns*, a fantasy about a future German invasion and occupation of Britain. The *Unrest-Cure* - Saki's recurring hero Clovis Sangrail, a clever, mischievous young man, overhears the complacent middle-aged Huddle complaining of his own addiction to routine and aversion to change. Huddle's friend makes the wry suggestion that he needs an unrest-cure (the opposite of a rest cure), to be performed, if possible, in the home. Clovis takes it upon himself to help the man and his sister by involving them in an invented outrage that will be a blot on the twentieth century. Famous works of the author Saki: *The Interlopers*, *Gabriel-Ernest*, *The Schartz-Metterklume Method*, *The Toys of Peace*, *The Storyteller*, *The Open Window*, *The Unrest-Cure*, *Esmé*, *Sredni Vashtar*, *Tobermory*, *The Bull*, *The East Wing*.

*Postal Services Bill* Great Britain. Parliament. House of Commons, Great Britain. Parliament. House of Lords, 2000 The Bill provides for the Post Office to be converted from a statutory corporation to a public limited company, with ownership remaining with the Crown. It introduces a new system of licensing and regulation for postal services operators and providers, and gives the independent regulator, the new Postal Services Commission, new powers and duties to protect and promote the interests of users. The Post Office Users' National Council is replaced by the Consumer Council for Postal Services, to bring postal services into line with consumer representation in the other utilities.

**The Book of Job** Gilbert Keith Chesterton, *The Book of Job* is among the other Old Testament Books both a philosophical riddle and a historical riddle. Controversy has long raged about which parts of this epic belong to its original scheme and which are interpolations of considerably later date. The doctors disagree, as it is the business of doctors to do; but upon the whole the trend of investigation has always been in the direction of maintaining that the parts interpolated, if any, were the prose prologue and epilogue and possibly the speech of the young man who comes in with an apology at the end. This work contains Chesterton's assumptions and thoughts on this mysterious scripture.

*War in a Time of Peace* David Halberstam, 2015-11-17 Pulitzer Prize-winning journalist David Halberstam chronicles Washington politics and foreign policy in post Cold War America. Evoking the internal conflicts, unchecked egos, and power struggles within the White House, the State Department, and the military, Halberstam shows how the decisions of men who served in the Vietnam War, and those who did not, have shaped America's role in global events. He provides fascinating portraits of those in power—Clinton, Bush, Reagan, Kissinger, James Baker, Dick Cheney, Madeleine Albright, and others—to reveal a stunning view of modern political America.

The Return of the Mother Andrew Harvey, 2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, *The Return of the Mother* is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey

presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. The Return of the Mother offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. The Return of the Mother is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

**Inescapable Questions** Alija Ali Izetbegovic,2003  
**My Darkest Years** James Bachner,2010-06-25 Born in Berlin in 1922, James Bachner was a German Jew during the darkest days of the Third Reich. Once a happy child in a well-to-do German family, as the years passed Bachner faced first ridicule and persecution, then imprisonment and deprivation. Attributing his survival to a combination of strength and being in the right place at the right time, Bachner's memoir is a poignant and often horrific account of Jewish struggles during the days of World War II. Beginning with his idyllic childhood, Bachner expresses the range of emotions he experienced as the Nazis transformed his homeland into a nation where he and his fellow Jews were no longer welcome. He describes the volatile political atmosphere and the fears inspired in all Germans by tales of the concentration camps. In addition, he tells of the belief many Jews held that the West would step in and put an end to Hitler's reign. The work then details the realities of life in a concentration camp. The end of the war, Bachner's reunion with his remaining family members and his eventual relocation to America are also discussed.

*Lucretius and the Transformation of Greek Wisdom* D. N. Sedley,2003-09-18 This book studies the structure and origins of De Rerum Natura (On the nature of things), the great first-century BC poem by Lucretius. By showing how he worked from the literary model set by the Greek poet Empedocles but under the philosophical inspiration of the Greek philosopher Epicurus, the book seeks to characterise Lucretius' unique poetic achievement. It is addressed to those interested both in Latin poetry and in ancient Greek and Roman philosophy.

**Making Simple Model Steam Engines** Stan Bray,2005 This well-illustrated book will be popular with all would-be and beginner model engineers, as well as those already engaged in the hobby, looking for quick and easy projects to build. The projects are also ideal for those withing to pass on to the younger generation a knowledge of metalworking and a grounding in how engines work.

**How to Make Good Decisions and Be Right All the Time** Iain King,2008-10-16 A compelling guide to ethical thinking for everyday life In How to Make Good Decisions and Be Right All the Time Iain King presents an introduction to moral philosophy from the ancient Greeks to the Enlightenment and beyond. He argues that right and wrong need a Newtonian revolution so that they are no longer a matter of judgment or guesswork and presents a system of simple formulas for solving difficult moral quandaries. Clearly argued, the book combines new ideas with old and rips apart traditional tenets of morality, dismantling even the golden rule that you should do unto others as you would have done unto you. In their place, the author constructs a new, comprehensive system of ethics, identifying the basic DNA of right and wrong and offering clear advice on how to be good in today's complicated and challenging world. Sometimes controversial and thoroughly engaging throughout, How to Make Good Decisions and Be Right All the Time is required reading for anyone with a difficult decision to make.

**Yugoslavia from a Historical Perspective** Latinka Perović,Drago Rokсандić,Mitja Velikonja,Wolfgang Höpken,Florian Bieber,2017

Remotely Controlled Aric Sigman,2007 A startling expos of Britain's growing addiction to television and why and what should be done to stop it, the author looks at the statistics that show television has become an obsession even more influential than parents inside the household. In this insightful and shockingly perceptive assessment of the relationship with the small screen, the author reveals the alarming reality of what television is actually doing physically, emotionally, intellectually, and socially. He provides evidence as to how television contributes to the rising global obesity rate by actually slowing our metabolic rate, stunts children's brain development, and is responsible for over half of all rapes and murders in the industrialized world.
