**Papertoy Monsters** Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), *Papertoy Monsters* offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own backstory. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

The History of al-Ṭabarī Vol. 10 ,2015-06-15 Volume X of al-Ṭabarī's massive chronicle is devoted to two main subjects. The first is the selection of Abū Bakr as the first caliph or successor to the Prophet Muh'ammad following the Prophet's death in 632 C.E. This section of the History reveals some of the inner divisions that existed within the early Muslim community, and sheds light on the

interests and motivations of various parties in the debates that led up to Abū Bakr's acclamation as caliph. The second main subject of Volume X is the riddah or apostasy--actually a series of rebellions against Muslim domination by various tribes in Arabia that wished to break their ties with Medina following the Prophet's death. The History offers one of the more extensive collections of accounts about this early sequence of events to be found in the Arabic historical literature. It provides richly detailed information on the rebellions themselves and on the efforts made by Abū Bakr and his Muslim supporters to quell them. It also tells us much about relationships among the tribes of Arabia, local topography, military practice, and the key personnel, organization, and structure of the early Islamic state. The successful suppression of the riddah marked the transformation of the Muslim state from a small faith community of importance only in West Arabia to a much more powerful political entity, embracing all of the Arabian peninsula and poised to unleash a wave of conquests that would shortly engulf the entire Near East and North Africa. The riddah era is, thus, crucial to understanding the eventual appearance of Islam as a major actor on the stage of world history.

The Tale-tellers Nancy Huston, 2009 To be human is to have a story and to tell stories – an ‘I’ only comes into being thanks to the ‘we’s’ which, through stories, we are taught to identify with and relate to. Each and every detail of our precious identities, from our names to our birthdates to our family histories to our national identities to our religions, is part of a story that was invented at a particular place and time, constructed in the same way as all stories are constructed. As opposed to the simplistic, involuntary fictions, which we absorb unwittingly from the day we are born until the day we die, novels are rich and voluntary fictions. Because they encourage us to identify and empathize with people unlike ourselves and give us access to their inner lives, novels can play an important ethical role in the world of today.
