Flower Does Not Talk Zenkei Shibayama, Abbot,2012-07-17 These essays by a prominent Zen master are a classic introduction to Zen Buddhism, specifically written for Westerners. The former abbot of Nanzenji Monastery in Kyoto, the Reverend Zenkei Shibayama, understood Western ways, and, in the early 1970s, prepared these introductory essays for English speakers. In *A Flower Does Not Talk*, the author describes the basic characteristics of Zen, the training it calls for, and the Zen Personality, before presenting three typical Zen writings accompanied by informative notes. This book is beautifully illustrated with drawings, photographs of Zen inspired flower arrangements, and paintings by Zen Master Hakuin, is a classic introduction to the core of Buddhist teachings, which provide the basis for the happiness of mankind.

String-Rewriting Systems Ronald V. Book,Friedrich Otto,2012-12-06 The subject of this book is string-rewriting systems. It is generally accepted that string-rewriting was first introduced by Axel Thue in the early part of this century. In the 1960's and early 1970's, it received renewed attention due to interest in formal language theory. In the 1980's and 1990's, it has received more interest since it can be viewed as a special case of term rewriting, a subject that has become important in the study of automated deduction. Today, string-rewriting is studied by researchers in theoretical computer science and also by researchers interested in the foundations of artificial intelligence. A sketch of the way that the subject has developed is contained in Chapter 0, and the reader is advised to begin with that chapter. Both authors have been active in the field and have lectured on the subject in several universities. Lecture notes have been produced and distributed. This monograph is a result of revising and rewriting those notes. It represents an attempt by the authors to present the concepts that the authors consider to be most fundamental and to gather together the most useful results in such a way that they can be understood and used in studies relating to more general rewriting, to automated deduction, and to algorithmic problems of algebraic structures. This monograph is written for independent study by researchers in the theoretical computer science or in the foundations of artificial intelligence.

Becca Hill longs to serve the Lord in a deeper capacity. She's felt unfulfilled in her ministry since the death of her husband, the pastor of the small Pleasant Springs Community Church. Despite a desire to return to ministry, Becca rejects a marriage proposal she receives in the mail from a pastor friend she's long admired but hasn't seen in twelve years. Ben Peterson needs a wife. He's convinced the megachurch in Orlando where he serves as the mission's pastor will terminate him if he doesn't remarry soon. He's battling grief over the loss of his wife two years earlier and believes Becca is the woman God has called him to marry. But he doesn't want to date, and time is against him. He must persuade her that they must marry soon, and more importantly, this arrangement could benefit them both. Will Becca leave the warmth and love of her small, close-knit community to marry Ben, a man she hasn't seen in twelve years and someone who may never love her? Find out now in this wholesome Christian romance.

Shifting Gravity Ute Meta Bauer,Hanru Hou,2013 The rise in biennials worldwide over the past three decades--and most notably in Asia--provokes a shift away from the traditional centers of contemporary art and signifies a new cultural phenomenon that changes the way we understand the relationship between artistic creation, institutions, localities, and social relations. Biennials provide a platform for presenting contemporary art from the world over to a traveling group of art professionals, but more importantly to a wide public. Initiated by the Biennial Foundation and hosted by the Gwangju Biennale Foundation in South Korea, the inaugural World Biennial Forum investigated this multiplicity of new centers and gravities along with the heterogeneous practices in large-scale art shows today. This publication collects the presentations and discussions developed during the forum. Keynotes by eminent intellectuals on democracy, aesthetic representation, and cosmopolitanism help us conceive of biennials as an alternative space of political imagination. Case studies with a focus on Asia examine innovative and contextually relevant models of presentations of this kind in the Asia Pacific region. The contributions look back to the history of biennials, or investigate contemporary art's relationship with other disciplines. Biennials featured (selection):Anyang Public Art Project, Biennale of Sydney, Chobi Mela, Emergency Biennale, Istanbul Biennial, Mediacity Seoul, Shanghai Biennale, Taipei Biennial, Tbilisi Triennial, Yokohama Triennial
