**Café Lehmitz**, 2023-03-07 This classic work of analog photojournalism—focusing on the idiosyncratic denizens of an iconic bar in the red-light district of Hamburg, Germany—is now available in a gorgeous new edition that features a tribute by musician and actor Tom Waits. Photographer Anders Petersen was hanging out at a dive bar on the Reeperbahn in Hamburg in 1968 when someone grabbed his camera from the table where he was sitting and started taking pictures. Petersen used the opportunity to photograph the culprit—and the rest of the bar's motley crew of patrons. The resulting project is one of the most revered photobooks of all time, a celebration of a gritty city at the tail end of the sixties, and the cornerstone of Petersen's storied career. The images have become classics of their genre; Tom Waits used one for the cover of his legendary album *Rain Dogs*. Their candidness and authenticity remain as eloquent today as when they were first published in 1978. This sumptuously produced reissue features a new foreword by Waits, and is certain to find a new audience, who will appreciate the stunning analog photography and its elegiac collective portrait of the fringes of society.

*Kanako Sasaki* Kanako Sasaki, 2005

*Dealing with Korea* Craig R. Firth, 1998 A combination of crises and hardships currently threatens the North Korean regime with collapse. Accompanying this threat, however, is the opportunity to gently draw North Korea into wider engagement with the international community. Halting progress toward peaceful reunification has been achieved, but more effort from external sources is necessary to accelerate the process. Among official U.S. agencies, only the military currently possesses the ability to subtly enhance the engagement process on the peninsula without any major concessions on its part. The author summarizes the geopolitical history of the peninsula, and addresses the issues confronting North Korea. He then proposes a model with which the U.S. military could bolster North Korean confidence in the possibility of reduced tensions on the peninsula without compromising its own security or readiness in any way. He bases the model on the precedent set by NATO during the decline of the Soviet Union. Aware that discussions of troop reductions, arms reductions, and the like are beyond the exclusive purview of the military, the author recommends modification to the schedule and scope of joint/combined exercises as the appropriate tool to influence the security environment in

a subtle, yet, to North Korea, highly symbolic and significant manner.

A chapter on nationalism and its ideological heritage has been added. Printed in Hong Kong on acidic paper. Annotation copyrighted by Book News, Inc., Portland, OR

*The Future Balance of Power in East Asia* Paul Dibb,2008 An historic shift is occurring in the global balance. This century will see the assertion of Asia as the locus of world power and the relative decline of Europe. The United States will remain the dominant power for a long time, perhaps until the middle of the century. But the world will progressively become a multipolar world with three Asian great powers (China, Japan and India) and one Eurasian power (Russia) competing with the United States. The central question of the next 20 years will be whether this new correlation of forces in Asia is a peaceful one or one of competition and conflict. Asia's future will be determined by whether there is a cooperative and largely peaceful interaction between China, Japan, India, Russia and the United

States or whether there will be a much more unstable struggle for influence and power in the years ahead. New pressures are emerging that could change all this: climate change; the struggle for scarce resources (particularly energy); ageing populations; and the fact that economic growth is inevitably leading to greater expenditure on arms and nuclear weapons. There are other serious problems looming in Asia: outstanding territorial claims, deep-seated historical antipathies combined with rising nationalisms, ethnic and religious clashes, and the fact that globalisation is not benefiting all countries (or all regions or people within a country) equally--Publisher.

**The American Empire** John C. Davenport, 2007 Presents a collection of essays that look at the origins of American imperialism, the influence the United States has overseas, and the future of imperialism.

Covers the post 1996 period.

**Ties Without Strings? [microform] : the Colombo Plan and the Geopolitics of International Aid, 1950-1980** Ademola Adeleke, 1996
