From Hobbits to Hollywood ,2006-01-01 Peter Jackson's film version of *The Lord of the Rings* (2001-2003) is the grandest achievement of 21st century cinema so far. But it is also linked to topical and social concerns including war, terrorism, and cultural imperialism. Its style, symbols, narrative, and structure seem always already linked to politics, cultural definition, problems of cinematic style, and the elemental mythologies that most profoundly capture our imaginations. *From Hobbits to Hollywood: Essays on Peter Jackson's Lord of the Rings* treats Jackson's trilogy as having two conditions of existence: an aesthetic and a political. Like other cultural artefacts, it leads a double life as objet d'art and public statement about the world, so that nothing in it is ever just cinematically beautiful or tasteful, and nothing is ever just a message or an opinion. Written by leading scholars in the study of cinema and culture *From Hobbits to Hollywood* gives Jackson's trilogy the fullest scholarly interrogation to date. Ranging from interpretations of *The Lord of the Rings'* ideological and philosophical implications, through discussions of its changing fandoms and its incorporation into the Hollywood industry of stars, technology, genre, and merchandising, to considerations of CGI effects, acting, architecture and style, the essays contained here open a new vista of criticism and light, for ardent fans of J.R.R. Tolkien, followers of Jackson, and all those who yearn for a deeper appreciation of cinema and its relation to culture.

The Journal of Modern Craft Glenn Adamson,Tanya Harrod,Edward S. Cooke, Jr.,2012-07-01 The Journal of Modern Craft is the first peer-reviewed academic journal to provide an interdisciplinary and international forum in its subject area. It addresses all forms of making that self-consciously set themselves apart from mass production-whether in the making of designed objects, artworks, buildings, or other artefacts. The journal covers craft in all its historical and contemporary manifestations, from the mid-nineteenth century, when handwork was first consciously framed in opposition to industrialization, through to the present day, when ideas once confined to the 'applied arts' have come to seem vital across a huge range of cultural activities. Special emphasis is placed on studio practice, and on the transformations of indigenous forms of craft activity throughout the world. The journal also reviews and analyses the relevance of craft within new media, folk art, architecture, design, contemporary art, and other fields. The Journal of Modern Craft is the main scholarly voice on the subject of craft, conceived both as an idea and as a field of practice in its own right.
