Eichmann in My Hands Peter Z. Malkin, Harry Stein, 2018-08-28 The true story behind “one of history’s great manhunts” and the film *Operation Finale* by the Mossad legend who caught the most wanted Nazi in the world (The New York Times). In 1960 Argentina, a covert team of Israeli agents hunted down the most elusive war criminal alive: Adolf Eichmann, chief architect of the Holocaust. The young spy who tackled Eichmann on a Buenos Aires street—and fought every compulsion to strangle the Obersturmführer then and there—was Peter Z. Malkin. For decades Malkin’s identity as Eichmann’s captor was kept secret. Here he reveals the entire breathtaking story—from the genesis of the top-secret surveillance operation to the dramatic public capture and smuggling of Eichmann to Israel to stand trial. The result is a portrait of two men. One, a freedom fighter, intellectually curious and driven to do right. The

other, the dutiful Good German who, through his chillingly intimate conversations with Malkin, reveals himself as the embodiment of what Hannah Arendt called “the banality of evil.” Singular, riveting, troubling, and gratifying, Eichmann in My Hands “remind[s] of what is at stake: not only justice but our own humanity” (New York Newsday). Now Malkin’s story comes to life on the screen with Oscar Isaac playing the heroic Mossad agent and Academy Award winner Ben Kingsley playing Eichmann in Operation Finale.

Profiles in Operations Research Arjang A. Assad, Saul I.

Gass, 2011-06-28 *Profiles in Operations Research: Pioneers and Innovators* recounts the development of the field of Operations Research (OR), the science of decision making. The book traces the development of OR from its military origins to a mature discipline that is recognized worldwide for its contributions to managerial planning and complex global operations. Over the past six decades, OR analyses have impacted our daily lives: when making an airline or hotel reservation, waiting in line at a bank, getting the correctly blended fuel at the gas station, and ensuring that the book you are holding arrived at its destination on time. OR originated in the late 1930s when British scientists from various disciplines joined Royal Air Force officers to determine the most effective way to employ new radar technology for intercepting enemy aircraft. During World War II, similar applied research groups were formed to study, test, and evaluate military operations on both sides of the Atlantic. Their work resulted in great improvements—OR helped the Allies win the war. The scientific field that emerged from these studies was called operational research in the U.K. and operations research in the U.S. Today, OR provides a broad and powerful science to aid decision making. *Profiles* describes the lives and contributions of 43 OR

pioneers and innovators and relates how these individuals, with varying backgrounds and diverse interests, were drawn to the nascent field of OR. The profiles also describe how OR techniques and applications expanded considerably beyond the military context to find new domains in business and industry. In addition to their scientific contributions, these profiles capture the life stories of the individuals—interwoven with personal tales, vivid vignettes, family backgrounds, and views of the mission and future of OR. Collectively, the profiles recount the fascinating story of the growth and development of a field enriched by the convergence of different disciplines. The Editors: Arjang A. Assad is Dean of the School of Management, University at Buffalo, State University of New York. Saul I. Gass is Professor Emeritus, Department of Decision, Operations & Information Technologies, Smith School of Business, University of Maryland, College Park. From the Reviews Profiles In Operations Research: Pioneers and Innovators. Book Review by Nigel Cummings: U.K. OR Society's e-journal, Inside OR., Sept 2011. I can thoroughly recommend this book. I found it both enlightening and undeniably gripping, so much so in fact, you may find it difficult to put it down once you have commenced reading it. Arjang A. Assad and Saul I. Gass have created a masterwork which will serve to immortalise [stet] the pioneers of O.R. for many years to come. *For a list of all known typos, plus further discussion on the book, please visit <http://profilesinoperationsresearch.com>.

Traction Man Meets Turbo Dog Mini Grey, 2011-08-31 THAT

SQUARE-JAWED CAN-DO action toy, Traction Man, is back in another hilarious adventure. The little boy, Traction Man, and his brave pet, Scrubbing Brush, are inseparable—until the boy’s father throws the “unhygienic” Scrubbing Brush in the trash and replaces it with a “real” toy, the battery-operated TurboDog. It bleeps, speaks, and squeaks—but is not very smart. So Traction Man, wearing his airtight Astro-suit and armed with a bottle of SuperStrong Germs, enters the trash bin and rescues Scrubbing Brush from the Evil Bin Things (pizza crusts, spaghetti, and potato peels with eyes and mouths that hiss “Stay with us”). The Battle of the Bin is not to be missed—nor is the ignominious demise of TurboDog! With this satisfying sequel, Mini Grey has scored another smashing victory for imaginative play.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term

POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on *The Simpsons* secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

Foreign Bodies Bronwen Douglas, Chris Ballard, 2008-10-01 From the 18th century, Oceania became the principal laboratory of raciology for scholars, voyagers, and colonizers alike. By juxtaposing encounters and theory, this magisterial book explores the semantics of human difference in all its emotional, intellectual, religious, and practical dimensions. The argument developed is subtle, engrossing, and gives the paradigm of 'race' its full use value. *Foreign Bodies* is a model of analysis and erudition from which historians of science and everyone interested in intercultural relations will greatly profit.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book

argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

A House is Not a Home Bruce Weber,1996 This is an insight into the idiosyncratic flourishes which make a house into a home. Photographer Bruce Weber takes the reader around the world, looking at how creative individuals' homes reflect their own particular personalities. Here are interiors and exteriors, panoramas and details: Siegfried and Roy's tiger-striped (and tiger-filled) Las Vegas suite; Georgia O'Keefe's ghost ranch in New Mexico; Chris Isaak's childhood home in suburban California; the Duchess of Devonshire's stately home in England; Andrew Wyeth's Maine lighthouse retreat; and Weber's own Montana ranch, among others.
