Attacking Manual Jacob Aagaard,2009-11 Attacking Manuals 1 & 2 comprise the first thorough examination of the nature of dynamics in chess, and the principles explained in this book are relevant to every chess game played. In lively no-nonsense language, Aagaard explains how the best players in the world attack. The rules of attack (the exploitation of a dynamic advantage) are explained in an accessible and entertaining style. This groundbreaking work is well balanced between easily understandable examples, exercises and deep analysis. Volume 2 covers what to do once the attack is up and running, and deals with weak kings, intuitive sacrifices, opposite castling, king hunts, and enduring initiative. Attacking Manuals 1 & 2 were chosen as the English Chess Federation's Book of the Year 2010.

Circle Under Berry Carter Higgins, 2021-09-14 Part Sandra Boynton, part Each Peach Pear Plum; part Chicka Chicka Boom Boom, part Hippopposites—a treat for the brain and the tongue. With an elegant and simple approach, this thought-provoking concept book shows young readers that everything in the world can be seen from infinite perspectives. Each page compares colors, shapes, and objects in relation to each other. A triangle that is over a square is also under a circle. A circle that is pink also might be a flower. The artful, playful combinations of simple concepts and Higgins's rhythmic writing and expert arrangement of objects on the page make this book a perfect read-aloud, capable of entertaining, educating, and challenging readers in equal measure. There are multiple ways to read the book, allowing it to work for several ages and reading levels at once. The educational value and sheer fun packed into this book's language and visual design will make it a huge hit with educators and librarians, new parents, and creative kids who are visual learners. This striking, delightfully different exploration of shape, color, and patterns redefines what a picture book can be. Read it once, read it ten times. See something new every time. A GREAT INTRODUCTION TO MANY DIFFERENT CONCEPTS: This book's focus on color, shapes, objects, and relative words like over, under, and next to make this the perfect introduction to basic concepts of all kinds. Rather than traditional concept books that focus on only one idea, this book combines its teaching approach, helping young readers learn more than one concept at once by showing how they relate to each other. A DYNAMIC LEARNING EXPERIENCE: The unusual combination of colors, shapes, and animals intelligently introduces young readers to patterns, classification, and problem-solving. The imaginative language of this book, rich with rhythmic phrasing and a tongue twister-like playfulness, creates a soothing read-aloud text that engages young children with questions and encourages audience participation. PERFECT FOR ANY KIND OF EDUCATION: With a variety of concepts, clear read-aloud qualities, and the many different ways this book engages different styles of learning, this book is ideal for librarians, educators, and anyone creating reading events in their communities. BELOVED AUTHOR: Carter Higgins is not only the author of many acclaimed books for children such as Everything You Need to Build a Treehouse, This Is Not a Valentine, and Bikes for Sale, she's also a seasoned school librarian who's spent many years working with children. Her love of kids—and her passion for teaching—shines throughout this book. EASY ART PROJECT INSPIRATION: Having honed her art skills as an elementary librarian, Carter Higgins makes her own debut as an illustrator for this book with simple, appealing collages. Kids will love making their own art projects inspired by the illustrations in this book. BRIGHT, EYE-CATCHING ART: The simple shapes and lively colors are designed to appeal to young children. Read this if your children enjoy Hervé Tullet's Press Here or Bill Martin Jr.'s Brown Bear, Brown Bear What Do You See? Perfect for: • Parents • Grandparents • Educators • Gift-givers

The Bear Who Stared Duncan Beedie, 2017-06-01 A funny and charming picture book with heart from rising star Duncan Beedie – now shortlisted for the Waterstones Children's Book Prize 2017. There once was a bear who liked to stare... and stare... and STARE. Bear doesn't mean to be rude, he's just curious but too shy to say anything. But nobody likes being stared at and it soon gets Bear into trouble. Luckily a goggly-eyed frog helps Bear realise that sometimes a smile is all you need to turn a stare into a friendly hello.

The Last Chip Duncan Beedie, 2018-02-22 Percy is a little pigeon, and he's very hungry. Every time he tries to get hold of a scrap of food, bigger, beefier birds bat him away. He's about to give up when someone offers him her very last chip. A moving and uplifting story. A percentage of royalties of the UK edition will go to a homeless charity.

Deeper Heaven Christiana Hale,2020-11 C.S. Lewis's Ransom Trilogy, better known as the Space Trilogy, is a much-neglected and yet critically important part of Lewis' works. It has captivated and bewildered readers since its publication, and though hundreds of books about Lewis have been written, few seek to navigate the maze that is Lewis's space-travel story. These books are a distillation in novel form of one of Lewis' favorite subjects, a subject whose melody is woven into almost everything that Lewis ever wrote: the medieval model of the cosmos. Deeper Heaven is a guide and companion through the magical web of medieval cosmology, ancient myth, and critique of modern philosophies that makes up the oft-maligned Space Trilogy. A student and teacher of literature and history herself, Christiana Hale will walk you through the Trilogy one step at a time, with eyes fixed where Lewis himself fixed his: on Deep Heaven and beyond. In the process, many questions will be answered: What does Christ have to do with Jupiter? Why does Lewis care so much about the medieval conception of the heavens? Why should we? And, perhaps the most puzzling question of all: why is Merlin in That Hideous Strength?

Original Grin Ron English,2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.
