Papertoy Monsters Brian Castleforte,2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Playing with Forms Eduardo Duran,2019-09-24 With a backpack, a young engineer travels the world seeking to enhance his education and gain insight into the world at large and the human condition. His quest for knowledge takes him beyond the visible world and into a world of quantum connections, non-physical beings, and a story of history that isn't teachable in the classroom. Working with spiritual leaders and channelers as a source of knowledge, he weaves the story of his travels into the story of the source and nature of humanity, of Earth, and the cosmos. Eduardo left everything he had and started to travel the world alone, using only a backpack, and staying with local people. In some parts of the world, he traveled without using any money at all. After visiting almost every country of the world and talking to many people, he discovered the nature of humanity and a hidden, ancient history of the

world. He met people who shared this knowledge. After several spiritual experiences, he met higher dimensional beings who helped him to deepen his understanding. He describes what he found in simple, straightforward language, making it easy to understand. You will find interesting stories from all over the world, impressive information from ancient civilizations, religions, history, psychology, physics, medicine, politics, and how it's all related to our modern world. But most importantly, how to use it in your daily life. He explains how powerful our thoughts are, and how we experience our reality through mental images that he calls forms.
