**All Joy and No Fun** Jennifer Senior, 2014-01-28

Thousands of books have examined the effects of parents on their children. In *All Joy and No Fun*, award-winning journalist Jennifer Senior now asks: what are the effects of children on their parents? In *All Joy and No Fun*, award-winning journalist Jennifer Senior tries to tackle this question, isolating and analyzing the many ways in which children reshape their parents' lives, whether it's their marriages, their jobs, their habits, their hobbies, their friendships, or their internal senses of self. She argues that changes in the last half century have radically altered the roles of today's mothers and fathers, making their mandates at once more complex and far less clear. Recruiting from a wide variety of sources—in history, sociology, economics, psychology, philosophy, and anthropology—she dissects both the timeless strains of parenting and the ones that are brand new, and then

brings her research to life in the homes of ordinary parents around the country. The result is an unforgettable series of family portraits, starting with parents of young children and progressing to parents of teens. Through lively and accessible storytelling, Senior follows these mothers and fathers as they wrestle with some of parenthood's deepest vexations—and luxuriate in some of its finest rewards. Meticulously researched yet imbued with emotional intelligence, *All Joy and No Fun* makes us reconsider some of our culture's most basic beliefs about parenthood, all while illuminating the profound ways children deepen and add purpose to our lives. By focusing on parenthood, rather than parenting, the book is original and essential reading for mothers and fathers of today—and tomorrow.

**Ignition!** John Drury Clark, 2018-05-23 This newly reissued debut book in the Rutgers University Press Classics Imprint is the story of the search for a rocket propellant which could be trusted to take man into space. This search was a hazardous enterprise carried out by rival labs who worked against the known laws of nature, with no guarantee of success or safety. Acclaimed scientist and sci-fi author John Drury Clark writes with irreverent and eyewitness immediacy about the development of the explosive fuels strong enough to negate the relentless restraints of gravity. The resulting volume is as much a memoir as a work of history, sharing a behind-the-scenes view of an enterprise which eventually took men to the moon, missiles to the planets, and satellites to outer space. A classic work in the history of science, and described as “a good book on rocket stuff...that’s a really fun one” by SpaceX founder Elon Musk, readers will want to get their hands on this influential classic, available for the first time in decades.

*Fundamentals of Modern Manufacturing* Mikell P.

Manifesto Rosa Luxemburg,Karl Marx,Friedrich Engels,Ernesto Che Guevara,2024-04-09 The three texts this book, all written in vastly different eras —The Communist Manifesto (1848) by Marx and Engels, Reform or Revolution (1899) by Rosa Luxemburg and Socialism and Man in Cuba (1965) by Ernesto Che Guevara—illuminate socialist ideas of the 19th and 20th centuries. For a new generation of activists, these are classic revolutionary writings by four famous rebels, including The Communist Manifesto by Karl Marx and Friedrich Engels; Reform or Revolution by Rosa Luxemburg; and Che Guevara’s Socialism and Man in Cuba. Includes an introduction by Cuban Marxist intellectual Armando Hart and a preface by US radical poet Adrienne Rich. The essays in this book, Manifesto, were written by three relatively young people—Karl Marx when he was 30, Rosa Luxemburg at 27, Che Guevara at the age of 37. Born into different historical moments and different generations, they shared an energy of hope, an engagement with history, a belief that critical thinking must inform action, and a passion for the world and its human possibilities. Here are urgent conversations from the past that are still being carried on, among new voices, throughout the world.

**A Game of Thrones** George R. R. Martin, 2003-01-01  
NOW THE ACCLAIMED HBO SERIES GAME OF THRONES—THE MASTERPIECE THAT BECAME A CULTURAL PHENOMENON Winter is coming. Such is the stern motto of House Stark, the northernmost of the fiefdoms that owe allegiance to King Robert Baratheon in far-off King's Landing. There Eddard Stark of Winterfell rules in Robert's name. There his family dwells in peace and comfort: his proud wife, Catelyn; his sons Robb, Brandon, and Rickon; his daughters Sansa and Arya; and his bastard son, Jon Snow. Far to the north, behind the towering Wall, lie savage Wildings and worse—unnatural things relegated to myth during the centuries-long summer, but proving all too real and all too deadly in the turning of the season. Yet a more immediate threat lurks to the south, where Jon Arryn, the Hand of the King, has died under mysterious circumstances. Now Robert is riding north to Winterfell, bringing his queen, the lovely but cold Cersei, his son, the cruel, vainglorious Prince Joffrey, and the queen's brothers Jaime and Tyrion of the powerful and wealthy House Lannister—the first a swordsman without equal, the second a dwarf whose stunted stature belies a brilliant mind. All are heading for Winterfell and a fateful encounter that will change the course of kingdoms. Meanwhile, across the Narrow Sea, Prince Viserys, heir of

the fallen House Targaryen, which once ruled all of Westeros, schemes to reclaim the throne with an army of barbarian Dothraki—whose loyalty he will purchase in the only coin left to him: his beautiful yet innocent sister, Daenerys.

Medieval Saints and Modern Screens Alicia Spencer-Hall, 2018-01-23 This ground-breaking book brings theoretical perspectives from twenty-first century media, film, and cultural studies to medieval hagiography. *Medieval Saints and Modern Screens* stakes the claim for a provocative new methodological intervention: consideration of hagiography as media. More precisely, hagiography is most productively understood as cinematic media. Medieval mystical episodes are made intelligible to modern audiences through reference to the filmic - the language, form, and lived experience of cinema. Similarly, reference to the realm of the mystical affords a means to express the disconcerting physical and emotional effects of watching cinema. Moreover, cinematic spectatorship affords, at times, a (more or less) secular experience of visionary transcendence: an 'agape-ic encounter'. The medieval saint's visions of God are but one pole of a spectrum of visual experience which extends into our present multi-media moment. We too conjure godly visions: on our smartphones, on the silver screen, and on our TVs and laptops. This book places contemporary pop-culture media - such as blockbuster movie *The Dark Knight*, Kim Kardashian West's social media feeds, and the outputs of online role-players in *Second Life* - in dialogue with a corpus of thirteenth-century Latin biographies, 'Holy Women of Liège'. In these texts, holy women see God, and see God often. Their experiences fundamentally orient their life, and offer the women new routes to knowledge, agency, and belonging. For the holy visionaries of Liège, as

with us modern 'seers', visions are physically intimate, ideologically overloaded spaces. Through theoretically informed close readings, *Medieval Saints and Modern Screens* reveals the interconnection of decidedly 'old' media - medieval textualities - and artefacts of our 'new media' ecology, which all serve as spaces in which altogether human concerns are brought before the contemporary culture's eyes.

The Places Where Community Is Practiced Anna

Steigemann, 2019-02-25 In this open access publication, the social cohesion of urban neighborhoods and their residents is examined, which is often viewed as vulnerable since increased mobility, individualization, wider socio-economic and demographic changes have fundamentally altered the basis for everyday social interaction in urban neighborhoods. Anna Steigemann gives scholarly attention to the concrete places where neighborly interactions still take place and to how these interactions affect local community building. She illuminates and explores the ordinary everyday interactions and social practices in and around shops and gastronomic facilities on a shopping street in Berlin-Neukölln, revealing how these businesses are important places where community is practiced, but also why they are increasingly threatened by commercial and residential gentrification.

The Craft of Scientific Presentations Michael

Alley, 2006-05-17 This timely and hugely practical work provides a score of examples from contemporary and historical scientific presentations to show clearly what makes an oral presentation effective. It considers presentations made to persuade an audience to adopt some

course of action (such as funding a proposal) as well as presentations made to communicate information, and it considers these from four perspectives: speech, structure, visual aids, and delivery. It also discusses computer-based projections and slide shows as well as overhead projections. In particular, it looks at ways of organizing graphics and text in projected images and of using layout and design to present the information efficiently and effectively.

New Rules for the New Economy Kevin Kelly, 1999 The

classic book on business strategy in the new networked economy— from the author of the New York Times bestseller *The Inevitable* Forget supply and demand. Forget computers. The old rules are broken. Today, communication, not computation, drives change. We are rushing into a world where connectivity is everything, and where old business know-how means nothing. In this new economic order, success flows primarily from understanding networks, and networks have their own rules. In *New Rules for the New Economy*, Kelly presents ten fundamental principles of the connected economy that invert the traditional wisdom of the industrial world. Succinct and memorable, *New Rules* explains why these powerful laws are already hardwired into the new economy, and how they play out in all kinds of business—both low and high tech— all over the world. More than an overview of new economic principles, it prescribes clear and specific strategies for success in the network economy. For any worker, CEO, or middle manager, *New Rules* is the survival kit for the new economy.
