The Pipil Language of El Salvador Lyle Campbell, 2011-07-22 The series builds an extensive collection of high quality descriptions of languages around the world. Each volume offers a comprehensive grammatical description of a single language together with fully analyzed sample texts and, if appropriate, a word list and other relevant information which is available on the language in question. There are no restrictions as to language family or area, and although special attention is paid to hitherto undescribed languages, new and valuable treatments of better known languages are also included. No theoretical model is imposed on the authors; the only criterion is a high standard of scientific quality. To discuss your book idea or submit a proposal, please contact Birgit Sievert.

The Taktika of Leo VI Leo VI (Emperor of the East), 2010 Although he probably never set foot on a battlefield, emperor Leo VI (r. 886-912) was supreme commander of the Byzantine armed forces and successor to Caesar Augustus, Constantine, and Justinian; as such he was expected to carry out successfully Byzantium's continual warfare with its neighbors. To this end, Leo (called the Wise for his devotion to learning) applied his education to the thorough study of military science. --

Gender Relations in an Indonesian Society Nurul Ilmi Idrus, 2016 Gender Relations in an Indonesian Society offers a comprehensive ethnography of Bugis marriage through an exploration of gender identity and sexuality in this bilateral, highly competitive, hierarchical society. Nurul Ilmi Idrus considers the fundamental concept of *siriq* (honour; shame) in relation to gender socialization, courtship, sex within marriage, the regulation of sexuality between genders, the importance of kinship and status in marriage, and the dynamics of marriage, divorce, and reconciliation. This analysis considers the practical combination of Islamic tenets with local adat (custom; customary law) and the effect of contemporary Indonesia's national ideology on cultural practices specific to Bugis society--

Three Byzantine Military Treatises George T. Dennis, 1985 Threatened on all sides by relentless enemies for a thousand years, the Byzantines needed ready armies and secure borders. To this end, experienced commanders compiled practical handbooks of military strategy. Three such manuals are presented here. The Anonymous Byzantine Treatise on Strategy was written by a retired combat engineer around the middle of the sixth century, while *Skirmishing and Campaign Organization and Tactics* date from the late tenth century and concern warfare in the mountains along the Syrian frontier and campaigns in the rugged terrain of the Balkans. These treatises provide information not only on tactics and weaponry but also on the motivations of the men who risked their lives to defend the empire.

The Byzantine Wars John Haldon, 2008-07-14 By the middle of the sixth century the Byzantine emperor ruled a mighty empire that straddled Europe, Asia and North Africa. Within 100 years, this powerful empire had been cut in half. Two centuries later the Byzantine empire was once again a power to be reckoned with, and soon recovered its position as the paramount East Mediterranean and Balkan power, whose fabulous wealth attracted Viking mercenaries and central Asian nomad warriors to its armies, whose very appearance on the field of battle was sometimes enough to bring enemies to terms. No book has ever attempted a survey of Byzantine wars, and few accounts of Byzantine battles have ever been translated into a modern language. This book will provide essential support for those interested in Byzantine history in general as well as a useful corrective to the more usual highly romanticised views of Byzantine civilisation.

Tree Shaker Bill Keller, 2008 Without deifying its subject, this biography looks at the life of Nelson Mandela, placing his awe-inspiring political accomplishments into historical context for young readers.

Maurice's Strategikon Maurice (Emperor of the East), 1984 As a veteran campaigner, the Byzantine emperor Maurice (582-602) compiled a unique and influential handbook intended for the field commander. In this first complete English translation, the *Strategikon* is an invaluable source not only for early Byzantine history but for the general history of the art of war. Describing in detail weaponry and armor, daily life on the march or in camp, clothing, food, medical care, military law, and titles of the Byzantine army of the seventh century, the *Strategikon* offers insights into the Byzantine military ethos. In language contemporary, down-to-earth, and practical, the text also provides important data for the historian, and even the ethnologist, including eyewitness accounts of the Persians, Slavs, Lombards, and Avars at the frontier of the Empire.

Colloquial Jakartan Indonesian James N. Sneddon, 2006 This book aims to describe aspects of the Indonesian language as spoken by educated Jakartans in everyday interactions. This style of language is in many ways significantly different from the formal language of government and education, to the extent that it deserves separate consideration. While formal Indonesian has been the subject of a considerable amount of description very little attention has been paid to informal styles of the language. The variety described here, Colloquial Jakartan Indonesian, is the prestige variety of colloquial Indonesian and is becoming the standard informal style. The description and texts in following chapters are drawn from recordings of natural speech of educated people living in Jakarta. While the book aims to inform those with a background in linguistics the needs of teachers and learners with little or no knowledge of linguistics is always borne in mind. The work thus does not consider theoretical linguistic issues nor use technical terms which would not be readily understood by most readers.

Gender and Islam in Southeast Asia Susanne Schroeter, 2013-06-13 The volume is the first comprehensive compilation of texts on gender constructions, normative gender orders and their religious legitimizations, as well as current gender policies in Islamic Southeast Asia and contributes on current debates on gender and Islam.

A Missionary in Tibet Ippolito Desideri, 1998 This rare work is a compilation of letters and other papers belonging to Fr. Desideri, who lived in Tibet as a missionary from 1712-21. It is perhaps the earliest known account about life in Tibet, and gives a valuable documentation of his journey and experiences in 18th century Tibet, at a time when few westerners had even heard about this exotic land.

A Dictionary of Cebuano Visayan John Wolff, 2016-01-27 This is a dictionary of Cebuano Visayan, the language of the central part of the Philippines and much of Mindanao. Although the explanations are given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano

language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. The work was edited by John Wolff but the sources are entirely native, and all illustrations are composed by native speakers. To date, this work probably represents the most authoritative dictionary of the Cebuano Visayan language.

Byzantium at War John Haldon,2014-06-06 Byzantium survived for 800 years, yet its dominions and power fluctuated dramatically during that time. John Haldon tells the story from the days when the Empire was barely clinging on to survival, to the age when its fabulous wealth attracted Viking mercenaries and Asian nomad warriors to its armies, their very appearance on the field enough to bring enemies to terms. In 1453 the last emperor of Byzantium, Constantine XII, died fighting on the ramparts, bringing to a romantic end the glorious history of this legendary empire.

Changing Marriage Patterns in Southeast Asia Gavin W. Jones, Terence H.

Hull, Maznah Mohamad,2015-08-04 Various forms of partnering – such as officially registered marriages, cohabiting relationships, and other kinds of relatively stable relationships - are crucial in the formation of families throughout the world. Although, today, forms of partnering in the region are not restricted to formal marriage, the norm remains for couples to marry – to establish a new family, and to accept the cultural requirement to have children. This book provides a comprehensive and up-to-date picture of partnerships and marriage in the Southeast Asian region using quantitative data alongside qualitative approaches. Through the research of demographers, sociologists and anthropologists, it examines the way trends in the formation and dissolution of marriages are related to changes in the region's economy and society; illuminating both the broad forces affecting marriage patterns and the way these forces work out at the individual and family level. Presenting the variety of contemporary marriage patterns in the region, with an emphasis on the ways in which marriage issues impinge on the welfare of those concerned, this book will be essential reading for students and scholars of Southeast Asia and the sociology of the family.

El Conservador George H. Rodriguez,2018-09-12 George H. Rodriguez has dedicated his life to sharing conservative values with fellow Hispanics and all Americans. As a Ronald Reagan and George H. Bush appointee, he worked with the Department of Justice in community relations and immigration outreach, going on to work with the White House and on President Bush's 1988 presidential campaign. In recent years, Rodriguez has served with the GOP and was one of the first Hispanics to be president of a major Tea Party group. Now in *El Conservador: Conservative Opinions*, George H. Rodriguez shares a hard-hitting collection of his political essays and commentaries. As a nationally known blogger and political commenter, George Rodriguez is a constitutional conservative Texan of Mexican descent, also known as a Tejano. His essays reflect his belief in personal freedom, and they support the idea that all Texans and Americans should live life as they wish, as long as it does not harm others or infringe on another person's rights. With a commitment to conservative values--and in some cases with a little bit of a chile picoso attitude--Rodriguez focuses on critical political topics that all Americans should be informed about: from the basics of constitutional government, personal property ownership, and states' rights to contemporary issues like the debt, immigration, and so-

called diversity. Because liberal misinformation and a growing government can be dangerous to the freedom and liberty of citizens, Rodriguez believes it is important to remember why America is the greatest nation on earth and protect its God-given destiny.
