Priests and Programmers J. Stephen Lansing, 2009-01-10 For the Balinese, the whole of nature is a perpetual resource: through centuries of carefully directed labor, the engineered landscape of the island's rice terraces has taken shape. According to Stephen Lansing, the need for effective cooperation in water management links thousands of farmers together in hierarchies of productive relationships that span entire watersheds. Lansing describes the network of water temples that once managed the flow of irrigation water in the name of the Goddess of the Crater Lake. Using the techniques of ecological simulation modeling as well as cultural and historical analysis, Lansing argues that the symbolic system of temple rituals is not merely a reflection of utilitarian constraints but also a basic ingredient in the organization of production.

The Balinese John Stephen Lansing, 1995 This study of the complex Balinese culture examines Balinese concepts of personhood and society; the integration of art into every aspect of Balinese life; the effects of the Green Revolution on Balinese agriculture; the ecological role of their water temples in an age-old system of irrigated rice terraces; and the ethnohistory of Bali, including both colonial and Balinese views. The book is organized around four different periods of fieldwork and includes an appendix of available films and videos on the Balinese.

Perfect Order J. Stephen Lansing, 2012-09-16 Along rivers in Bali, small groups of farmers meet regularly in water temples to manage their irrigation systems. They have done so for a thousand years. Over the centuries, water temple networks have expanded to manage the ecology of rice terraces at the scale of whole watersheds. Although each group focuses on its own problems, a global solution nonetheless emerges that optimizes irrigation flows for everyone. Did someone have to design Bali's water temple networks, or could they have emerged from a self-organizing process? Perfect Order--a groundbreaking work at the nexus of conservation, complexity theory, and anthropology--describes a series of fieldwork projects triggered by this question, ranging from the archaeology of the water temples to their ecological functions and their place in Balinese cosmology. Stephen Lansing shows that the temple networks are fragile, vulnerable to the cross-currents produced by competition among male descent groups. But the feminine rites of water temples mirror the farmers' awareness that when they act in unison, small miracles of order occur regularly, as the jewel-like perfection of the rice terraces produces general prosperity. Much of this is barely visible from within the horizons of Western social theory. The fruit of a decade of multidisciplinary research, this absorbing book shows that even as researchers probe the foundations of cooperation in the water temple networks, the very existence of the traditional farming techniques they represent is threatened by large-scale development projects.

Archaeological Investigation Martin Carver, 2013-10-18 Drawing its numerous examples from Britain and beyond, *Archaeological Investigation* explores the procedures used in field archaeology travelling over the whole process from discovery to publication. Divided into four parts, it argues for a set of principles in part one, describes work in the field in part two and how to write up in part three. Part four describes the modern world in which all types of archaeologist operate, academic and professional. The central chapter 'Projects Galore' takes the reader on a whirlwind tour through different kinds of investigation including in caves, gravel quarries, towns, historic buildings and underwater. *Archaeological Investigation* intends to be a companion for a newcomer to professional archaeology – from a student introduction (part one), to first practical work (part two) to the first responsibilities for producing reports (part three) and, in part four, to the tasks of project design and heritage curation that provide the meat and drink of the fully fledged professional. The book also proposes new ways of doing things, tried out over the author's thirty years in the field and brought together here for the first time. This is no plodding manual but an inspiring, provocative, informative and entertaining book, urging that archaeological investigation is one of the most important things society does.

Pachinko (National Book Award Finalist) Min Jin Lee, 2017-02-07 A New York Times Top Ten Book of the Year and National Book Award finalist, *Pachinko* is an extraordinary epic of four generations of a poor Korean immigrant family as they fight to control their destiny in 20th-century Japan (San Francisco Chronicle). NEW YORK TIMES NOTABLE BOOK OF 2017 * A USA TODAY TOP TEN OF 2017 * JULY PICK FOR THE PBS NEWSHOUR-NEW YORK TIMES BOOK CLUB NOW READ THIS * FINALIST FOR THE 2018 DAYTON LITERARY PEACE PRIZE * WINNER OF THE MEDICI BOOK CLUB PRIZE Roxane Gay's Favorite Book of 2017, Washington Post NEW YORK TIMES BESTSELLER * #1 BOSTON GLOBE BESTSELLER * USA TODAY BESTSELLER * WALL STREET JOURNAL BESTSELLER * WASHINGTON POST BESTSELLER There could only be a few winners, and a lot of losers. And yet we played on, because we had hope that we might be the lucky ones. In the early 1900s, teenaged Sunja, the adored daughter of a crippled fisherman, falls for a wealthy stranger at the seashore near her home in Korea. He promises her the world, but when she discovers she is pregnant--and that her lover is married--she refuses to be bought. Instead, she accepts an offer of marriage from a gentle, sickly minister passing through on his way to Japan. But her decision to abandon her home, and to reject her son's powerful father, sets off a dramatic saga that will echo down through the generations. Richly told and profoundly moving, *Pachinko* is a story of love, sacrifice, ambition, and loyalty. From bustling street markets to the halls of Japan's finest universities to the pachinko parlors of the criminal underworld, Lee's complex and passionate characters--strong, stubborn women, devoted sisters and sons, fathers shaken by moral crisis--survive and thrive against the indifferent arc of history. *Includes reading group guide*

Colloquial Jakartan Indonesian James N. Sneddon, 2006 This book aims to describe aspects of the Indonesian language as spoken by educated Jakartans in everyday interactions. This style of language is in many ways

significantly different from the formal language of government and education, to the extent that it deserves separate consideration. While formal Indonesian has been the subject of a considerable amount of description very little attention has been paid to informal styles of the language. The variety described here, Colloquial Jakartan Indonesian, is the prestige variety of colloquial Indonesian and is becoming the standard informal style. The description and texts in following chapters are drawn from recordings of natural speech of educated people living in Jakarta . While the book aims to inform those with a background in linguistics the needs of teachers and learners with little or no knowledge of linguistics is always borne in mind. The work thus does not consider theoretical linguistic issues nor use technical terms which would not be readily understood by most readers.

Historical Atlas of Indonesia Robert Cribb,2013-02-01 This pioneering volume traces the history of the region which became Indonesia, from early times to the present day, in over three hundred specially drawn full-colour maps with detailed accompanying text. In doing so, the Atlas brings fresh life to the fascinating and tangled history of this immense archipelago. Beginning with the geographical and ecological forces which have shaped the physical form of the archipelago, the Historical Atlas of Indonesia goes on to chart early human migration and the changing distribution of ethnic groups. It traces the kaleidoscopic pattern of states in early Indonesia and their gradual incorporation into the Netherlands Indies and eventually into the Republic of Indonesia.

Negara Clifford Geertz,2021-05-11 Combining great learning, interpretative originality, analytical sensitivity, and a charismatic prose style, Clifford Geertz has produced a lasting body of work with influence throughout the humanities and social sciences, and remains the foremost anthropologist in America. His 1980 book Negara analyzed the social organization of Bali before it was colonized by the Dutch in 1906. Here Geertz applied his widely influential method of cultural interpretation to the myths, ceremonies, rituals, and symbols of a precolonial state. He found that the nineteenth-century Balinese state defied easy conceptualization by the familiar models of political theory and the standard Western approaches to understanding politics. Negara means country or seat of political authority in Indonesian. In Bali Geertz found negara to be a theatre state, governed by rituals and symbols rather than by force. The Balinese state did not specialize in tyranny, conquest, or effective administration. Instead, it emphasized spectacle. The elaborate ceremonies and productions the state created were not means to political ends: they were the ends themselves, they were what the state was for.... Power served

pomp, not pomp power. Geertz argued more forcefully in *Negara* than in any of his other books for the fundamental importance of the culture of politics to a society. Much of Geertz's previous work--including his world-famous essay on the Balinese cockfight--can be seen as leading up to the full portrait of the poetics of power that *Negara* so vividly depicts.

Crimes in the Past: Archaeological and Anthropological Evidence Tatiana Shvedchikova, Negahnaz Moghaddam, Pier Matteo Barone, 2021-05-06 *Crimes in the Past: Archaeological and Anthropological Evidence* aims to discuss the possible examples of crimes in the archaeological past, their detection and interpretation with the help of modern scientific methods, and how interdisciplinary approaches can be conducted in further research concerning 'crimes of the past.' The idea to create this publication was born after organizing Session #169 Past Crimes during the 25th Annual Meeting of the European Association of Archaeologists (EAA 2019) in Bern. In this book, readers will find cases of historic and prehistoric 'crimes scenes' known from various contexts, including the findings of (pre)historic (mass) graves and lethal violent acts related to warfare, ritual killings, or possible murder cases. In order to get to the bottom of the possible archaeological crime scenes, contemporary interdisciplinary approaches will be used, which allow us to extend the frames of classical archaeological study.
