A Grammar of Abui František Kratochvíl, 2007 This work contains the first comprehensive description of Abui, a language of the Trans New Guinea family spoken approximately by 16,000 speakers in the central part of the Alor Island in Eastern Indonesia. The description focuses on the northern dialect of Abui as spoken in the village Takalelang. This study is based on primary data collected by the author on Alor. With Pantar island, Alor Island is the western-most area where Papuan languages are spoken. Abui syntax is characterized by rigid head-final word order. The language presents a number of typologically interesting features such as semantic alignment. Characteristic for Abui is the extensive use of generic verbs. Generic verbs appear as parts of complex verbs or in serial verb constructions. This grammar covers the phonology, morphology and basic syntax of Abui. The appendix contains several Abui texts and word lists. Not being written against any particular theoretical background, this book is of interest to scholars of both Papuan and Austronesian languages, as well as linguistic typology.

Colloquial Jakartan Indonesian James N. Sneddon, 2006 This book aims to describe aspects of the Indonesian language as spoken by educated Jakartans in everyday interactions. This style of language is in many ways significantly different from the formal language of government and education, to the extent that it deserves separate consideration. While formal Indonesian has been the subject of a considerable amount of description very little attention has been paid to informal styles of the language. The variety described here, Colloquial Jakartan Indonesian, is the prestige variety of colloquial Indonesian and is becoming the standard informal style. The description and texts in following chapters are drawn from recordings of natural speech of educated people living in Jakarta. While the book aims to inform those with a background in linguistics the needs of teachers and learners with little or no knowledge of linguistics is always borne in mind. The work thus does not consider theoretical linguistic issues nor use technical terms which would not be readily understood by most readers.

Historical Atlas of Indonesia Robert Cribb, 2013-02-01 This pioneering volume traces the history of the region which became Indonesia, from early times to the present day, in over three hundred specially drawn full-colour maps with detailed accompanying text. Beginning with the geographical and ecological forces which have shaped the physical form of the archipelago, the Historical Atlas of Indonesia goes on to chart early human migration and the changing distribution of ethnic groups. It traces the kaleidoscopic pattern of states in early Indonesia and their gradual incorporation into the Netherlands Indies and eventually into the Republic of Indonesia.

Changing Marriage Patterns in Southeast Asia Gavin W. Jones, Terence H. Hull, Maznah Mohamad, 2015-08-04 Various forms of partnering – such as officially registered marriages, cohabiting relationships, and other kinds of relatively stable relationships – are crucial in the formation of families throughout the world. Although, today, forms of partnering in the region are not restricted to formal marriage, the norm remains for couples to marry – to establish a new family, and to accept the cultural requirement to have children. This book provides a comprehensive and up-to-date picture of partnerships and marriage in the Southeast Asian region using quantitative data alongside qualitative approaches. Through the research of demographers, sociologists and anthropologists, it examines the way trends in the formation and dissolution of marriages are related to changes in the region's economy and society; illuminating both the broad forces affecting marriage patterns and the way these forces work out at the individual and family level. Presenting the variety of contemporary

marriage patterns in the region, with an emphasis on the ways in which marriage issues impinge on the welfare of those concerned, this book will be essential reading for students and scholars of Southeast Asia and the sociology of the family.
