Joy Christian Wiman, 2017-11-07 One hundred of the most evocative modern poems on joy, selected by an award-winning contemporary poet Bursting with energy and surprising locutions. . . . Even the most familiar poets seem somehow new within the context of Joy.--David Skeel, Wall Street Journal Wiman takes readers through the ostensible ordinariness of life and reveals the extraordinary.--Adrianna Smith, The Atlantic Christian Wiman, a poet known for his meditations on mortality, has long been fascinated by joy and by its relative absence in modern literature. Why is joy so resistant to language? How has it become so suspect in our times? Manipulated by advertisers, religious leaders, and politicians, joy can seem disquieting, even offensive. How does one speak of joy amid such ubiquitous injustice and suffering in the world? In this revelatory anthology, Wiman takes readers on a profound and surprising journey through some of the most underexplored

terrain in contemporary life. Rather than define joy for readers, he wants them to experience it. Ranging from Emily Dickinson to Mahmoud Darwish and from Sylvia Plath to Wendell Berry, he brings together diverse and provocative works as a kind of counter to the old, modernist maxim light writes white--no agony, no art. His rich selections awaken us to the essential role joy plays in human life.

Asteroid Mining 101 John S. Lewis, 2014-07-23 The emerging asteroid mining industry has extremely ambitious intentions. It is within the realm of possibility that their work may usher in a change in global economics as profound as the Industrial Revolution. As may be expected, press reports dealing with asteroid mining have been numerous, ranging in scope from short and breezy to broad and serious, and in quality from accurate to impressionistic to simply uninformed. There is good reason to be curious about what may be the biggest game-changer in human economic history. And there is good reason to look closely at the underlying science and

engineering that form the foundation of this work.
