The Adventures of the 19xx - Rise of the Black Faun Paul Roman Martinez, 2013 Another war looms on the horizon. Not long after the end of the Great War, those who were capable of hearing it received a revelation -- another Great War was coming. This looming war would push the limits of technology, split the atom to harness the power of a small star, and bring together forces more evil than the world has ever known. A weak League of Nations banded together to form a group of adventurers, explorers, and scientists from every allied country assigned to search the globe and fight a battle far from the public eye. This group is The 19XX. All the public has been told is that they are fighting to help the Good in humanity survive the nineteen hundreds and beyond. Their mission is to track down every powerful relic, every modern or undiscovered weapon, and every magic incantation ever uttered on the Earth's crust, because the forces of Evil responsible for the next Great War would be searching for the very same things. Nothing in the realm of the tangible or intangible is off limits when the fate of the entire world is at stake.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on *The Simpsons* secured his position as America's premier pop iconoclast. This book is the first

complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

String Divers Chris Ryall, 2016-03-22 Originally published as String Divers issues #1-5--Colophon.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
