The Rings of Saturn W. G. Sebald, 2016-11-08 The book is like a dream you want to last forever (Roberta Silman, The New York Times Book Review), now with a gorgeous new cover by the famed designer Peter Mendelsund A masterwork of W. G. Sebald, now with a gorgeous new cover by the famed designer Peter Mendelsund The Rings of Saturn—with its curious archive of photographs—records a walking tour of the eastern coast of England. A few of the things which cross the path and mind of its narrator (who both is and is not Sebald) are lonely eccentrics, Sir Thomas Browne's skull, a matchstick model of the Temple of Jerusalem, recession-hit seaside towns, wooded hills, Joseph Conrad, Rembrandt's Anatomy Lesson, the natural history of the herring, the massive bombings of WWII, the dowager Empress Tzu Hsi, and the silk industry in Norwich. W.G. Sebald's *The Emigrants* (New Directions, 1996) was hailed by Susan Sontag as an astonishing masterpiece perfect while being unlike any book one has ever read. It was one of the great books of the last few years, noted Michael Ondaatje, who now acclaims *The Rings of Saturn* an even more inventive work than its predecessor, *The Emigrants*.

Gamer Theory McKenzie Wark, 2009-06-30 Ever get the feeling that life's a game with changing rules and no clear sides? Welcome to gamespace, the world in which we live. Where others argue obsessively over violence in games, Wark contends that digital computer games are our society's emergent cultural form, a utopian version of the world as it is. *Gamer Theory* uncovers the significance of games in the gap between the near-perfection of actual games and the imperfect gamespace of everyday life in the rat race of free-market society.

Borderland Lives in Northern South Asia David N. Gellner, 2013-12-02 *Borderland Lives in Northern South Asia* provides valuable new ethnographic insights into life along some of the most contentious borders in the world. The collected essays portray existence at different points across India's northern frontiers and, in one instance, along borders within India. Whether discussing Shi'i Muslims striving to be patriotic Indians in the Kashmiri district of Kargil or Bangladeshis living uneasily in an enclave surrounded by Indian territory, the contributors show that state borders in Northern South Asia are complex sites of contestation. India's borders with Bangladesh, Bhutan, Burma/Myanmar, China, and Nepal encompass radically different ways of life, a whole spectrum of relationships to the state, and many struggles with urgent identity issues. Taken together, the essays show how, by looking at state-making in diverse, border-related contexts, it is possible to comprehend Northern South Asia's various nation-state projects without relapsing into conventional nationalist accounts. Contributors. Jason Cons, Rosalind Evans, Nicholas Farrelly, David N. Gellner, Radhika Gupta, Sondra L. Hausner, Annu Jalais, Vibha Joshi, Nayanika Mathur, Deepak K. Mishra, Anastasia Piliavsky, Jeevan R. Sharma, Willem van Schendel

Coyote Anthropology Roy Wagner, 2010-07-01 Coyote Anthropology shatters anthropology's vaunted theories of practice and offers a radical and comprehensive alternative for the new century. Building on his seminal contributions to symbolic analysis, Roy Wagner repositions anthropology at the heart of the creation of meaning—in terms of what anthropology perceives, how it goes about representing its subjects, and how it understands and legitimizes itself. Of particular concern is that meaning is comprehended and created through a complex and continually unfolding process predicated on what is not there—the unspoken, the unheard, the unknown—as much as on what is there. Such powerful absences, described by Wagner as “anti-twins,” are crucial for the invention of cultures and any discipline that proposes to study them. As revealed through conversations between Wagner and Coyote, Wagner's anti-twin, a coyote anthropology should be as much concerned with absence as with presence if it is to depict accurately the dynamic and creative worlds of others. Furthermore, Wagner suggests that anthropologists not only be aware of what informs and conditions their discipline but also understand the range of necessary exclusions that permit anthropology to do what it does. Sly and enticing, probing and startling, Coyote Anthropology beckons anthropologists to draw closer to the center of all things, known and unknown.

My Remarkable Uncle Stephen Leacock, 2010-08-03 This celebrated collection of sketches sparkles with Stephen Leacock's humour and shines with the warmth of his wit. The comical E.P., star of the title essay, “My Remarkable Uncle,” is a classic Leacock character. He is president of a railway with a letterhead but no rails, and he heads a bank that boasts credit but no cash whatsoever – all of which trouble E.P. not in the least. My Remarkable Uncle, a wonderful smorgasbord of mirth served up by a master of comedy, includes several essays, a short story, a political parable, and personal reflections on a dizzying array of subjects. Here, in rich abundance, are the inspired nonsense and the unerring eye for human folly that have made Stephen Leacock Canada's most celebrated humorist.

Funeral Games in Honor of Arthur Vincent Lourié Klara Moricz,Simon Morrison,2014-05-08 Funeral Games in Honor of Arthur Vincent Lourié explores the varied aesthetic impulses and ever-evolving personal motivations of Russian composer Arthur Lourié. A St. Petersburg native allied with the Futurist movement and profoundly sympathetic to Silver Age decadence, Lourié was swept away by the Revolution; he surfaced as a Communist commissar of music before landing in Europe and America, where his career foundered. Making his way by serving others, he became Stravinsky's right-hand man, Serge Koussevitsky's ghostwriter, and philosopher Jacques Maritain's muse. Lourié left his mark on the poems of Anna Akhmatova, on the neoclassical aesthetics of Stravinsky, on Eurasianism, and on Maritain's NeoThomist musings about music. Lourié serves as a flawless lens through which aspects of Silver Age Russia, early Bolshevik rule, and the cultural space of exile come into sharper focus. But this interdisciplinary collection of essays, edited by musicologists Klára Móricz and Simon Morrison, also looks at Lourié himself as an artist and intellectual in his own right. Much of the aesthetic and technical discussion concerns his grandly eulogistic opera The Blackamoor of Peter the Great, understood as both a belated Symbolist work and as a NeoThomist exercise. Despite the importance Lourié attached to the opera as his masterwork, Blackamoor has never been performed, its fate thus serving as an emblem of Lourié's own. Yet even if Lourié seems to have been destined to be but a footnote in the pages of music history, he looms large in studies of emigration and cultural memory. Here Lourié's life, like his last opera, is presented as a meditation on the circumstances and psychology of exile. Ultimately, these essays recover a lost realm of musical and aesthetic possibilities-a Russia that Lourié, and the world, saw disappear.

Martin Waldseemüller's 'Carta Marina' of 1516 Chet Van Duzer,2020-10-09 This open access book presents the first detailed study of one of the most important masterpieces of Renaissance cartography, Martin Waldseemüller's Carta marina of 1516. By transcribing, translating into English, and detailing the sources of all of the descriptive texts on the map, as well as the sources of many of the images, the book makes the map available to scholars in a wholly unprecedented way. In addition, the book provides revealing insights into how Waldseemüller went about making the map -- information that can't be found in any other source. The Carta marina is the result of Waldseemüller's radical re-evaluation of what a world map should be; he essentially started from scratch when he created it, rejecting the Ptolemaic model and other sources he had used in creating his 1507 map, and added more descriptive texts and a wealth of illustrations. Given its content, the book offers an essential reference work not only on this map, but also for anyone working in sixteenth-century European cartography. This work was published by Saint Philip Street Press pursuant to a Creative Commons license permitting commercial use. Lilith Asenath Mason,2017-11-27 This anthology brings together essays, rituals, and unique artwork dedicated to the Queen of the Night and the Dark

Goddess of the Qliphoth. Denied and rejected, worshipped and venerated, Lilith has been a part of the Western culture for ages. Viewed both as a beautiful seductress and a ruthless demon, she is the Serpent in the Garden of Eden, the first woman, and the primary initiatrix into the mysteries of the dark side of the Qabalistic Tree of Life. Her rites are the works of love and pain, sex and transgression, transcendence and immanence, for she exists at the roots of all desire of all humans past, present, and future. This archetype has never been fully grasped in its profundity and is constantly unfolding, challenging us to recognize our fears and passions and to transform them into tools of power. In this book you will find personal accounts of practitioners who ventured into the sacred and unholy garden of the Dark Queen of Sitra Ahra and returned transformed and empowered by her gnosis. Spells and invocations, dream magic and guided meditations, visions and stories of intimate encounters with Lilith - all this is contained in this unique anthology, written from the perspective of the Left Hand Path and the Draconian Tradition. Compiled and edited by Asenath Mason, the book contains articles and contributions from Ahohlan Castart, Alisa Jones, Bill Duvendack, Edgar Kerval, Kai'Nathera, Katie Anderson, Leonard Dewar, Lucien von Wolfe, Mike King, Martha Gray, Nemo.V, and Selene-Lilith.

Bioprospecting of Indigenous Bioresources of North-East India Jubilee Purkayastha, 2016-08-16 This work is a comprehensive information on the indigenous bioresources of North Eastern India with the scope of bioprospecting for discovery and commercialization of new sources and products and long-term ecological balance. The exploration, conservation and sustainable utilization of bioresources of world's Megabiodiversity Hotspots are undeniable. North Eastern India is a recognised biodiversity hot spot where the evolutionary forces are at its optimum, making this region as centre of origin for many species. Although little bit exploratory studies have been conducted in this part of the globe but a scientific exploitation of the bioresources is almost lacking. Unscientific exploitation and overexploitation without proper knowledge of the bioresources may lead to imbalanced ecosystem of this mega diversity region. At the same time, very less exploration and exploitation will hamper biodiversity based development. Today, unscientific dramatic changes are underway in this region. Human activities are changing, degrading and destroying the bioresources in an unplanned manner. Scientific bioprospecting of the bioresources will boost the economy while ensuring conservation. This book offers comprehensive information about various levels of bioprospecting of the gene pool of this Indo-Burma Mega Biodiversity Hot Spot, the North East India, which is endowed with huge biodiversity potential for exploration and exploitation for the benefit of humankind. Also, this book highlights the less and merely explored part of the indigenous biodiversity of North East India with explanation towards their better sustainable exploitation for benefit of the people, economy and environment. The novelty of the book lies in expert coverage of the bioresources of this mega-diverse region including plants, microbes, insects etc. with provisions for their sustainable scientific utilization. This book portrays North East India as a melting pot of bioresources which are little explored and also those resources which are still to be explored. The book mainly highlights the bioprospecting approaches for North East Indian bioresources, and thus, it make itself a unique one in filling the knowledge gap that is there regarding the bioprospecting of the biodiversity

of this special region on the earth. The book concludes by the ecotourism potential of this region. The target audiences for this book include biodiversity economists who are working on technology and bioresource management issues, and especially on biotechnology and biodiversity, development economists addressing the issues of bioresources in developing countries. These people may be in academia, in government, in non-governmental organizations and in private companies. The other target audiences group is policy scholars in government/public sectors who are interested in issues of biotechnology, IPRs, and biodiversity. In addition, scholars/experts in both development studies and resource management studies form another group of target audiences. Also, the book will be useful for the interaction between developed and developing nations regarding the issues of biodiversity and bioprospecting, as North Eastern India is the hub of Biodiversity.

The Loom of Language Frederick Bodmer,1985 Here is an informative introduction to language: its origins in the past, its growth through history, and its present use for communication between peoples. It is at the same time a history of language, a guide to foreign tongues, and a method for learning them. It shows, through basic vocabularies, family resemblances of languages -- Teutonic, Romance, Greek -- helpful tricks of translation, key combinations of roots and phonetic patterns. It presents by common-sense methods the most helpful approach to the mastery of many languages; it condenses vocabulary to a minimum of essential words; it simplifies grammar in an entirely new way; and it teaches a language as it is actually used in everyday life.

The Troubadours Robert Briffault,1965 Assays the role of the roving entertainers of twelfth century France, their poems and songs, and their effect on subsequent literature.
