Instant Christopher Bonanos,2012-08-10 Pictures in a minute! In the 1950s, '60s, and '70s, Polaroid was the hottest technology company on Earth. They were an innovation machine that cranked out one irresistible product after another. It was even the company after which Steve Jobs is said to have modeled Apple, and the comparison is true. Jobs's hero, Edwin Land, Polaroid's visionary founder, turned his 1937 garage startup into a billion-dollar pop-culture phenomenon. *Instant: The Story of Polaroid*, a richly illustrated, behind-the-scenes look at the company, tells the tale of Land's extraordinary and beloved invention. From the introduction of Polaroid's first instant camera in 1948 to its meteoric rise and dramatic collapse into bankruptcy in the 2000s, *Instant* is both a cautionary tale about tech companies that lose their edge and a remarkable story of American ingenuity. Written in a breezy, accessible tone by New York magazine senior editor Chris Bonanos, this first book-length history of Polaroid also features colorful illustrations from Polaroid's history, including the company's iconic branding and marketing efforts.

Superperformance Stocks Richard S. Love, 2022-05-27 The Author writes about the superperformance stocks of the time, and the common denominators of those stocks. What traits do they have in common, how to find them? Definition of a superperformance stock: One that at least tripled in price and increased at a minimum rate of three times during a two-year period. A move was considered ended if the price failed to reach a new high in less than six months, or if there was a price reaction of 25 percent or more. Stocks that have a chance to become superperformance stocks share some of these characteristics: * Large increases of earnings, especially if the large increase comes as a surprise. * Mergers and acquisitions. * New management. * New products. The best results come after the market has experienced a severe correction or a bear market, because that is the time when there would be many bargain opportunities in that environment. History often repeats itself in the stock market. The names of the stocks change, but the overall situation is always similar. Acceleration of earning power is the most important thing to look for when examining the potential of a stock to become a superperformance stock. And the superperformance move will most often coincide with the bull market cycle of the general market.

Paper Chess Kell Black, 2009-10-13 Chess is more than just a game; it is the ultimate test of strategy. Its chessboard is iconic, and its evocative pieces have appeared in everything from Alice in Wonderland to Harry Potter. Paper Chess celebrates all of these elements, while adding a brilliant move of its own. It contains everything chess fans need to create their own collectible paper chess sets—64 pages of punch-out illustrated templates, and a back cover that converts into a chessboard. Elegantly designed to appeal to the most discerning chess player, Paper Chess is also the perfect way to introduce the next generation to a magnificent game.

Music Scenes Andy Bennett, Richard A. Peterson, 2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hip-hop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which

involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

Expired Paper, 2017 Divided into sections that represent the breadth of Alison Rossiter's (born 1953) process and vision, 'Expired Paper' offers a comprehensive look at the artist's body of cameraless photo-art?Latent, Landscapes, Pools, Pours, Dips, Blurs, Fours and Collages. Art critic Leah Ollman has been contemplating Rossiter's work for years, and her accompanying text serves as an ideal complement to the images: 'All of the works pay homage to the rich idiosyncrasies of photographic papers across history, and restore a sanctity to the photograph as object. Made without cameras, lenses or film, the works are nothing but process and materiality.' The book also includes a selection of early 20th-century photographic paper packages (which the artist has collected for over 10 years) in a separate booklet.
