Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Oudry's Painted Menagerie Mary Morton,2007-06-25 In the 1720s and 1730s, Jean-Baptiste Oudry established himself as the preeminent painter in France of hunts, animals, still lifes, and landscapes. Oudry's Painted Menagerie focuses on a suite of eleven life-size portraits of exotic animals from the royal menagerie at Versailles, painted by Oudry between 1739 and 1752. These paintings eventually found their way into the ducal collection in Schwerin, Germany. Among them is the magnificent portrait of Clara, an Indian rhinoceros who became a celebrity in mid-eighteenth-century Europe. Her portrait has been out of public view for more than a century, and it is presented here in its newly conserved state.
