📖 *CAPE* Courtney N. Plante, Stephen Reysen, Thomas R. Brooks, Daniel Chadborn, 2021-10-19 Researchers across disciplines have been studying the psychology of fans for decades. Seeking to better understand fan behavior and the various factors motivating fans, researchers have studied dozens of variables in hundreds of studies of different fan groups. To date, however, there have been relatively few attempts to integrate this sizable body of work, pulling together findings across from the field to with a broader, more holistic perspective. This book does exactly that, identifying and concisely summarizing research on 28 separate lines of inquiry on the psychology of fans and integrating it all into an empirically-validated model known as the CAPE model. Useful as a textbook for a fandom studies course and as a handbook for fan researchers, this book is essential reading for anyone looking to better understand the state of fan psychology and wanting to conduct their own research exploring the ins and outs of fans of all sorts!

📖 *The Metamorphosis of Prime Intellect* Roger Williams, 2003-10-14 In a time not far from our own, Lawrence sets out simply to build an artificial intelligence that can pass as human, and finds himself instead with one that can pass as a god. Taking the Three Laws of Robotics literally, Prime Intellect makes every human immortal and provides instantly for every stated human desire. Caroline finds no meaning in this life of purposeless ease, and forgets her emptiness only in moments of violent and profane exhibitionism. At turns shocking and humorous, Prime Intellect looks unflinchingly at extremes of human behavior that might emerge when all limits are removed. An international internet phenomenon, Prime Intellect has been downloaded more than 10,000 times since its free release in January 2003. It has been read and discussed in Australia, Canada, Denmark, Germany, Japan, Mexico, the Netherlands, Slovenia, South Africa, and other countries. This Lulu edition is your chance to own Prime Intellect in conventional book form.
