Popular Music, Stars and Stardom Stephen Loy,Julie Rickwood,Samantha Bennett,2018-06-15 A popular fascination with fame and stardom has existed in Western culture since the late eighteenth century; a fascination that, in the twenty-first century, reaches into almost every facet of public life. The pervasive nature of stardom in modern society demands study from the perspectives of a range of distinct but thematically connected disciplines. The exploration of intersections between broader considerations of stardom and the discourses of popular music studies is the genesis for this volume. The chapters collected here demonstrate the variety of work currently being undertaken in stardom studies by scholars in Australia. The contributions range from biographical considerations of the stars of popular music, contributions to critical discourses of stardom in the industry more broadly, and the various ways in which the use of astronomical metaphors, in both cultural commentary and academic discourse, demonstrate notions of stardom firmly embedded in popular music thought. Not only do these chapters represent a range of perspectives on popular music, stars and stardom, they provide eloquent and innovative contributions to the developing discourse on stardom in popular music.

This groundbreaking work provides readers with tools they can use to maximize potential in themselves and others. Whether you're coaching soccer or teaching a child to play the piano, writing a novel or trying to improve your golf swing, this revolutionary book shows you how to grow talent by tapping into a newly discovered brain mechanism. Drawing on cutting-edge neurology and firsthand research gathered on journeys to nine of the world's talent hotbeds—from the baseball fields of the Caribbean to a classical-music academy in upstate New York—Coyle identifies the three key elements that will allow you to develop your gifts and optimize your performance in sports, art, music, math, or just about anything. • Deep Practice Everyone knows that practice is a key to success. What everyone doesn't know is that specific kinds of practice can increase skill up to ten times faster than conventional practice. • Ignition We all need a little motivation to get started. But what separates truly high achievers from the rest of the pack? A higher level of commitment—call it passion—born out of our deepest unconscious desires and triggered by certain primal cues. Understanding how these signals work can help you ignite passion and catalyze skill development. • Master Coaching What are the secrets of the world's most effective teachers, trainers, and coaches? Discover the four virtues that enable these “talent whisperers” to fuel passion, inspire deep practice, and bring out the best in their students. These three elements work together within your brain to form myelin, a microscopic neural substance that adds vast amounts of speed and accuracy to your movements and thoughts. Scientists have discovered that myelin might just be the holy grail: the foundation of all forms of greatness, from Michelangelo's to Michael Jordan's. The good news about myelin is that it isn't fixed at birth; to the contrary, it grows, and like anything that grows, it can be cultivated and nourished. Combining revelatory analysis with illuminating examples of regular people who have achieved greatness, this book will not only change the way you think about talent, but equip you to reach your own highest potential.

There Are More Beautiful Things Than Beyonce Morgan Parker, 2017-02-14 A TIME Magazine Best Paperback of 2017 A Publishers Weekly Best Poetry Collection of Spring A Paris Review Staff Pick A Most Anticipated Book of 2017 at NPR.org, BuzzFeed, VICE, NYLON, and more This is a marvelous book. See for yourself. Morgan Parker is a fearlessly forward and forward-thinking literary star. —Terrance Hayes The only thing more beautiful than Beyoncé is God, and God is a black woman sipping rosé and drawing a lavender bath, texting her mom, belly-laughing in the therapist's office, feeling unloved, being on display, daring to survive. Morgan Parker stands at the intersections of vulnerability and performance, of desire and disgust, of tragedy and excellence. Unrelentingly feminist, tender, ruthless, and sequined, these poems are an altar to the complexities of black American womanhood in an age of non-indictments and déjà vu, and a time of wars over bodies and power. These poems celebrate and mourn. They are a chorus chanting: You're gonna give us the love we need.

A Theory of Adaptation is the ideal guide to this ever evolving field of study and is essential reading for anyone interested in adaptation in the context of literary and media studies.

Playing the Race Card Linda Williams, 2020-10-06 The black man suffering at the hands of whites, the white woman sexually threatened by the black man. Both images have long been burned into the American conscience through popular entertainment, and today they exert a powerful and disturbing influence on Americans' understanding of race. So argues Linda Williams in this boldly inquisitive book, where she probes the bitterly divisive racial sentiments aroused by such recent events as O. J. Simpson's criminal trial. Williams, the author of Hard Core, explores how these images took root, beginning with melodramatic theater, where suffering characters acquire virtue through victimization. The racial sympathies and hostilities that surfaced during the trial of the police

in the beating of Rodney King and in the O. J. Simpson murder trial are grounded in the melodramatic forms of Uncle Tom's Cabin and The Birth of a Nation. Williams finds that Stowe's beaten black man and Griffith's endangered white woman appear repeatedly throughout popular entertainment, promoting interracial understanding at one moment, interracial hate at another. The black and white racial melodrama has galvanized emotions and fueled the importance of new media forms, such as serious, integrated musicals of stage and film, including The Jazz Singer and Show Boat. It also helped create a major event out of the movie Gone With the Wind, while enabling television to assume new moral purpose with the broadcast of Roots. Williams demonstrates how such developments converged to make the televised race trial a form of national entertainment. When prosecutor Christopher Darden accused Simpson's defense team of playing the race card, which ultimately trumped his own team's gender card, he feared that the jury's sympathy for a targeted black man would be at the expense of the abused white wife. The jury's verdict, Williams concludes, was determined not so much by facts as by the cultural forces of racial melodrama long in the making. Revealing melodrama to be a key element in American culture, Williams argues that the race images it has promoted are deeply ingrained in our minds and that there can be no honest discussion about race until Americans recognize this predicament.

Progressive Dystopia Savannah Shange,2019-11-15 San Francisco is the endgame of gentrification, where racialized displacement means that the Black population of the city hovers at just over 3 percent. The Robeson Justice Academy opened to serve the few remaining low-income neighborhoods of the city, with the mission of offering liberatory, social justice--themed education to youth of color. While it features a progressive curriculum including Frantz Fanon and Audre Lorde, the majority Latinx school also has the district's highest suspension rates for Black students. In Progressive Dystopia Savannah Shange explores the potential for reconciling the school's marginalization of Black students with its sincere pursuit of multiracial uplift and solidarity. Drawing on ethnographic fieldwork and six years of experience teaching at the school, Shange outlines how the school fails its students and the community because it operates within a space predicated on antiblackness. Seeing San Francisco as a social laboratory for how Black communities survive the end of their worlds, Shange argues for abolition over revolution or progressive reform as the needed path toward Black freedom.
