HANS CHRISTIAN ANDERSEN

- A****CHTUNG-PANZER!** Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian’s book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian’s classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
- I****R****VING HARPER** Michael Maharam,2013-02-12 An intimate monograph of the professional and personal creations of a midcentury design legend. Irving Harper is the most famous designer you have never heard of. Working as an associate at the office of George Nelson in the 1950s and ’60s, Harper was responsible for such icons of midcentury design as the Marshmallow sofa, the Ball clock, and numerous Herman Miller textile designs. Harper’s unrecognized contribution to this seminal era of design, and his incredible paper sculptures (made in his spare time to relieve stress), are presented for the first time in this book. An essay by design critic Julie Lasky introduces Harper’s commercial design work, recognizable designs from graphics to domestic goods to furniture that are still coveted and appreciated today, designed for the offices of Raymond Loewy, George Nelson, and then his own studio Harper + George. The second part of the book documents Harper’s extensive paper sculptures, which have never been exhibited. More than three hundred works fill Harper’s house and barn in Rye, New York, where this array of fantastical people and animal sculptures was created from modest and inexpensive materials as diverse as spaghetti and toothpicks in addition to paper. Images of Harper’s home, filled with furniture and objects of his own design as well as his paper sculptures, offer a rare glimpse into a modern design enthusiast’s paradise.Offering insight into an important era of American design as well as the prolific output of a creative mind, this book promises to be the first to recognize Irving Harper’s contribution to the field and will appeal to fans of modern design.
- F****LOVE BODONI** TwoPoints.NET,2011 Designed in 1798 by Giambattista Bodoni, the serif font Bodoni drew inspiration from elements of the English typeface Baskerville and the French typeface Didot, with the result widely-regarded as one of the most influential and easily-recognized typefaces in history. This graceful illustrated volume comprehensively explores the broad scope of experimental and creative design ideas that have been realized using Bodoni.

Interweaving lives and secrets Treehouses is a magical tale of refuge, treachery and of love lost and found.
- M****EDIA VIRUS!** Douglas Rushkoff,2010-12-01 The most virulent viruses today are composed of information. In this information-driven age, the easiest way to manipulate the culture is through the media. A hip and caustically humorous McLuhan for the ’90s, culture watcher Douglas Rushkoff now offers a fascinating expose of media manipulation in today’s age of instant information.
- L****ITTLE BOOK OF LETTERING** Emily Gregory,2012-11-21 Typography is always one of the designer’s first considerations when it comes to making a statement, and in recent years the world of lettering and type has exploded in an unprecedented wave of creative discovery. - P****ICASSO’S LADIES** Wendy Ramshaw,Anna Beatriz Chadour-Sampson,1998 Wendy Ramshaw who lives in London is one of the leading artist-jewellers of the late 20th century whose distinctive style is internationally admired and widely influential. Picasso, one of the most prolific artists of the 20th century, and his painted records of his wives, mistresses and friends have been the focus of Ramshaw’s study since the mid-eighties. The sheer beauty of the women and the full range of emotions expressed in these paintings provided the impetus to design one or more jewels for each of the 66 portraits of ‘Picasso’s Ladies’ illustrated in this book. In this publication the collection is for the first time being presented in its entirety alongside Picasso’s paintings, the source of stimulus. In an unusual approach the artist gives in her notes an insight into her working process. She reveals to us the personal messages of each painting which led to a number of amazing designs and how her choice of stones either reflect or go against the colours on the paintings. Four authors have illuminated various aspects of what are undoubtedly some of the most intellectually complex and aesthetically accomplished jewels.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
