**Ripe Figs: Recipes and Stories from Turkey, Greece, and Cyprus** Yasmin Khan, 2021-05-04 A Finalist for the 2022 James Beard Foundation Cookbook Award and the 2022 IACP Award (International) Longlisted for the 2022 Art of Eating Prize A New York Times Best Cookbook of 2021 • A Guardian Best Food Book of 2021 • A Simply Recipes Favorite Cookbook of 2021 • A WBUR Here & Now Favorite Cookbook of 2021 The acclaimed author of *Zaitoun* returns with vibrant recipes and powerful stories from the islands that bridge the Mediterranean and the Middle East. For thousands of years, the eastern Mediterranean has stood as a meeting point between East and West, bringing cultures and cuisines through trade, commerce, and migration. Traveling by boat and land, Yasmin Khan traces the ingredients that have spread through the region from the time of Ottoman rule to the influence of recent refugee communities. At the kitchen table, she explores what borders, identity, and migration mean in an interconnected world, and her recipes unite around thickets of dill and bunches of oregano, zesty citrus and sweet dates, thick tahini and soothing cardamom. Khan includes healthy, seasonal, vegetable-focused recipes, such as hot yogurt soups, zucchini and feta fritters, pomegranate and sumac chicken, and candied pumpkin with tahini and date syrup. Fully accessible for the home cook, with stunning food and location photography, *Ripe Figs* is a dazzling collection of recipes and stories that celebrate an ever-diversifying region and imagine a world without borders.

**Papertoy Monsters** Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), *Papertoy Monsters* offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

**Power Ambition Glory** Steve Forbes, John Prevas, 2010-06-01 Based on an extraordinary collaboration between Steve Forbes, chairman, CEO, and editor in chief of Forbes Media, and classics professor John Prevas, *Power Ambition Glory* provides intriguing comparisons between six great leaders of the ancient world and contemporary business leaders. • Great leaders not only have vision but know how to build structures to effect it. Cyrus the Great did so in creating an empire based on tolerance and inclusion, an approach highly unusual for his or any age. Jack Welch and John Chambers built

their business empires using a similar approach, and like Cyrus, they remain the exceptions rather than the rule. • Great leaders know how to build consensus and motivate by doing what is right rather than what is in their self-interest. Xenophon put personal gain aside to lead his fellow Greeks out of a perilous situation in Persia—something very similar to what Lou Gerstner and Anne Mulcahy did in rescuing IBM and Xerox. • Character matters in leadership. Alexander the Great had exceptional leadership skills that enabled him to conquer the eastern half of the ancient world, but he was ultimately destroyed by his inability to manage his phenomenal success. The corporate world is full of similar examples, such as the now incarcerated Dennis Kozlowski, who, flush with success at the head of his empire, was driven down the highway of self-destruction by an out-of-control ego. • A great leader is one who challenges the conventional wisdom of the day and is able to think out of the box to pull off amazing feats. Hannibal did something no one in the ancient world thought possible; he crossed the Alps in winter to challenge Rome for control of the ancient world. That same innovative way of thinking enabled Serge Brin and Larry Page of Google to challenge and best two formidable competitors, Microsoft and Yahoo! • A leader must have ambition to succeed, and Julius Caesar had plenty of it. He set Rome on the path to empire, but his success made him believe he was a living god and blinded him to the dangers that eventually did him in. The parallels with corporate leaders and Wall Street master-of-the-universe types are numerous, but none more salient than Hank Greenberg, who built the AIG insurance empire only to be struck down at the height of his success by the corporate daggers of his directors. • And finally, leadership is about keeping a sane and modest perspective in the face of success and remaining focused on the fundamentals—the nuts and bolts of making an organization work day in and day out. Augustus saved Rome from dissolution after the assassination of Julius Caesar and ruled it for more than forty years, bringing the empire to the height of its power. What made him successful were personal humility, attention to the mundane details of building and maintaining an infrastructure, and the understanding of limits. Augustus set Rome on a course of prosperity and stability that lasted for centuries, just as Alfred Sloan, using many of the same approaches, built GM into the leviathan that until recently dominated the automotive business.

**Young People Re-Generating Politics in Times of Crises** Sarah Pickard, Judith Bessant, 2017-07-31 This book provides insight into the diverse ways young people from around the world are regenerating politics in innovative and multifaceted ways. The authors, who include academics and activists, challenge claims that young people are apolitical, apathetic and living up to the 'me generation' stereotype. Contributions cover a rich body of case examples of traditional and new forms of youth politics in response to situated injustices and political and socio-economic crises. Significant and optimistic, the collection presents strong evidence from across the globe that these developments are not isolated incidences, but are in fact part of a systemic, large-scale transformation leading to a regeneration of the political landscape by young people. The book is aimed at students and scholars in the fields of politics, sociology, policy studies and youth and childhood studies.

**Safe Is Not Enough** Michael Sadowski, 2020-01-15 Safe Is Not Enough illustrates how educators can support the positive development of LGBTQ students in a comprehensive way so as to create truly inclusive school communities. Using examples from classrooms, schools, and districts across the country, Michael Sadowski identifies emerging practices such as creating an LGBTQ-inclusive curriculum; fostering a whole-school climate that is supportive of LGBTQ students; providing adults who can act as mentors and role models; and initiating effective family and community outreach programs. While progress on LGBTQ issues in schools remains slow, in many parts of the country schools have begun making strides toward becoming safer, more welcoming places for LGBTQ students. Schools typically achieve this by revising antibullying policies and establishing GSAs (gay-straight student alliances). But it takes more than a deficit-based approach for schools to become places where LGBTQ students can fulfill their potential. In Safe Is Not Enough, Michael Sadowski highlights how educators can make their schools more supportive of LGBTQ students' positive development and academic success.

**The Revisioners** Margaret Wilkerson Sexton, 2020-08-18 This New York Times Book Review Notable Book of the Year from the author of the Reese Witherspoon Book Club pick, *On the Rooftop*, is a powerful tale of racial tensions across generations (People) that explores the depths of women's relationships—influential women and marginalized women, healers, and survivors. In 1924, Josephine is the proud owner of a thriving farm. As a child, she channeled otherworldly power to free herself from slavery. Now her new neighbor, a white woman named Charlotte, seeks her company, and an uneasy friendship grows between them. But Charlotte has also sought solace in the Ku Klux Klan, a relationship that jeopardizes Josephine's family. Nearly one hundred years later, Josephine's descendant, Ava, is a single mother who has just lost her job. She moves in with her white grandmother, Martha, a wealthy but lonely woman who pays Ava to be her companion. But Martha's behavior soon becomes erratic, then threatening, and Ava must escape before her story and Josephine's converge. *The Revisioners* explores the depths of women's relationships—powerful women and marginalized women, healers and survivors. It is a novel about the bonds between mothers and their children, the dangers that upend those bonds. At its core, *The Revisioners* ponders generational legacies, the endurance of hope, and the undying promise of freedom. [A] stunning new novel . . . Sexton's writing is clear and uncluttered, the dialogue authentic, with all the cadences of real speech . . . This is a novel about the women, the mothers. —The New York Times Book Review

**Achtung-Panzer!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
