The Language of Food: A Linguist Reads the Menu Dan Jurafsky, 2014-09-15 A 2015 James Beard Award Finalist: Eye-opening, insightful, and huge fun to read. —Bee Wilson, author of Consider the Fork Why do we eat toast for breakfast, and then toast to good health at dinner? What does the turkey we eat on Thanksgiving have to do with the country on the eastern Mediterranean? Can you figure out how much your dinner will cost by counting the words on the menu? In The Language of Food, Stanford University professor and MacArthur Fellow Dan Jurafsky peels away the mysteries from the foods we think we know. Thirteen chapters evoke the joy and discovery of reading a menu dotted with the sharp-eyed annotations of a linguist. Jurafsky points out the subtle meanings hidden in filler words like rich and crispy, zeroes in on the metaphors and storytelling tropes we rely on in restaurant reviews, and charts a microuniverse of marketing language on the back of a bag of potato chips. The fascinating journey through The Language of Food uncovers a global atlas of culinary influences. With Jurafsky's insight, words like ketchup, macaron, and even salad become living fossils that contain the patterns of early global exploration that predate our modern fusion-filled world. From ancient recipes preserved in Sumerian song lyrics to colonial shipping routes that first connected East and West, Jurafsky paints a vibrant portrait of how our foods developed. A surprising history of culinary exchange—a sharing of ideas and culture as much as ingredients and flavors—lies just beneath the surface of our daily snacks, soups, and suppers. Engaging and informed, Jurafsky's unique study illuminates an extraordinary network of language, history, and food. The menu is yours to enjoy.

Drawing Ideas Mark Baskinger, William Bardel, 2013-11-19 A primer for design professionals across all disciplines that helps them create compelling and original concept designs by hand—as opposed to on the computer—in order to foster collaboration and win clients. In today's design world, technology for expressing ideas is pervasive; CAD models and renderings created with computer software provide an easy option for creating highly rendered pieces. However, the accessibility of this technology means that fewer designers know how to draw by hand, express their ideas spontaneously, and brainstorm effectively. In a unique board binding that mimics a sketchbook, Drawing Ideas provides a complete foundation in the

techniques and methods for effectively communicating to an audience through clear and persuasive drawings.

After Uniqueness Erika Balsom, 2017-03-21 Images have never been as freely circulated as they are today. They have also never been so tightly controlled. As with the birth of photography, digital reproduction has created new possibilities for the duplication and consumption of images, offering greater dissemination and access. But digital reproduction has also stoked new anxieties concerning authenticity and ownership. From this contemporary vantage point, *After Uniqueness* traces the ambivalence of reproducibility through the intersecting histories of experimental cinema and the moving image in art, examining how artists, filmmakers, and theorists have found in the copy a utopian promise or a dangerous inauthenticity—or both at once. From the sale of film in limited editions on the art market to the downloading of bootlegs, from the singularity of live cinema to video art broadcast on television, Erika Balsom investigates how the reproducibility of the moving image has been embraced, rejected, and negotiated by major figures including Stan Brakhage, Leo Castelli, and Gregory Markopoulos. Through a comparative analysis of selected distribution models and key case studies, she demonstrates how the question of image circulation is central to the history of film and video art. *After Uniqueness* shows that distribution channels are more than neutral pathways; they determine how we encounter, interpret, and write the history of the moving image as an art form.

Differences Emily Parker, Anne Van Leeuwen, 2018 Simone de Beauvoir and Luce Irigaray famously insisted on their philosophical differences, and this mutual insistence has largely guided the reception of their thought. What does it mean to return to Simone de Beauvoir and Luce Irigaray in light of questions and problems of contemporary feminism, including intersectional and queer criticisms of their projects? How should we now take up, amplify, and surpass the horizons opened by their projects? Seeking answers to these questions, the essays in this volume return to Beauvoir and Irigaray to find what the two philosophers share. And as the authors make clear, the richness of Beauvoir and Irigaray's thought far exceeds the reductive parameters of the Eurocentric, bourgeois second-wave debates that have constrained interpretation of their work. The first section of this volume places Beauvoir and Irigaray in critical dialogue, exploring the place of the material and the corporeal in Beauvoir's thought and, in doing so, reading Beauvoir in a framework that goes beyond a theory of gender and the humanism of phenomenology. The essays in the second section of the volume take up the challenge of articulating points of dialogue between the two focal philosophers in logic, ethics, and politics. Combined, these essays resituate Beauvoir and Irigaray's work both historically and in light of contemporary demands, breaking new ground in feminist philosophy.

DIY Citizenship Matt Ratto, Megan Boler, 2014-02-07 How social media and DIY communities have enabled new forms of political participation that emphasize doing and making rather than passive consumption. Today, DIY—do-it-yourself—describes more than self-taught carpentry. Social media enables DIY citizens to organize and protest in new ways (as in Egypt's “Twitter revolution” of 2011) and to repurpose corporate content (or create new user-generated content) in order to offer political counternarratives. This book examines the usefulness and limits of DIY citizenship, exploring the diverse forms of political participation and “critical making” that have emerged in recent years. The authors and artists in this collection describe DIY citizens whose activities range from activist fan blogging and video production to knitting and the creation of community gardens. Contributors examine DIY activism, describing new modes of civic engagement that include Harry Potter fan activism and the activities of the Yes Men. They consider DIY making in learning, culture, hacking, and the arts, including do-it-yourself media production and collaborative documentary making. They discuss DIY and design and how citizens can unlock the black box of technological infrastructures to engage and innovate open and participatory critical making. And they explore DIY and media, describing activists' efforts to remake and reimagine media and the public sphere. As these chapters make clear, DIY is characterized by its emphasis on “doing” and making rather than passive consumption. DIY citizens assume active roles as interventionists, makers, hackers, modders, and tinkerers, in pursuit of new forms of engaged and participatory democracy. Contributors Mike Ananny, Chris Atton, Alexandra

Jumptown Robert Dietsche,2005 A fascinating blend of music, politics, and social history, Jumptown sheds light on a time and place overlooked by histories of Portland and jazz. For a golden decade following World War II, jazz talent and musical activity flourished in Portland. A thriving African American neighborhood--that would soon be bulldozed for urban renewal--spawned a jazz heyday rarely rivaled on the West Coast. Such luminaries as Duke Ellington, Charlie Parker, Oscar Peterson, Dave Brubeck, and Wardell Gray headlined Portland clubs and traded chops with the up-and-coming local talent. The Dude Ranch. Lil' Sandy's McClendon's Rhythm Room. The Frat Hall. The Chicken Coop. The Uptown Ballroom. Jazz historian Bob Dietsche leads a guided tour of the main jazz spots--from supper club to dance hall--capturing the emotion, excitement, and energy of an evening on the town. His book for the first time collects hundreds of pieces of local jazz history--photographs, personal recollections, reviews, maps, handbills--to create an anatomy of a jazz village. Dietsche's compendium of stories and moments brings to life the citizens of the jazz village--the musicians and dancers, the disc jockeys and promoters, the critics and music teachers, the club owners and patrons. Jumptown celebrates and preserves this rich cultural past and showcases its continuing influence. In an afterword, Lynn Darroch recaps the highlights in Portland jazz since 1968 and shows how Portland's twenty-first-century jazz scene reflects the city's original golden age, and the spirit of the Avenue remains in the sounds of today.

Drone and Apocalypse Joanna Demers,2015-12-11 Drone and Apocalypse is an exhibit catalog for a retrospective of twenty-first-century art. Its narrator, Cynthia Wey, is a failed artist convinced that apocalypse is imminent. She writes critical essays delineating apocalyptic tendencies in drone music and contemporary art. Interspersed amid these essays are “speculative artworks”, Wey’s term for descriptions of artworks she never constructs that center around the extinction of humanity. Wey’s favorite musicians are drone artists like William Basinski, Celer, Thomas Köner, Les Rallizes Dénudés, and Éliane Radigue, and her essays relate their works to moments of ineffability in Herodotus, Aristotle, Plato, Pliny the Elder, Isidore of Seville, Robert Burton, Hegel, and Dostoyevsky. Well after Wey’s demise, the apocalypse never arrives, but Wey’s journal is discovered. Curators fascinated with twenty-first-century culture use her writings as the basis for their exhibit “Commentaries on the Apocalypse”, which realizes Wey’s speculative artworks as photographs, collages, and sound/video installations.
