Black Looks bell hooks, 2014-10-10 In the critical essays collected in *Black Looks*, bell hooks interrogates old narratives and argues for alternative ways to look at blackness, black subjectivity, and whiteness. Her focus is on spectatorship—in particular, the way blackness and black people are experienced in literature, music, television, and especially film—and her aim is to create a radical intervention into the way we talk about race and representation. As she describes: the essays in *Black Looks* are meant to challenge and unsettle, to disrupt and subvert. As students, scholars, activists, intellectuals, and any other readers who have engaged with the book since its original release in 1992 can attest, that's exactly what these pieces do.

Teaching Community bell hooks, 2013-08-21 Ten years ago, bell hooks astonished readers with *Teaching to Transgress: Education as the Practice of Freedom*. Now comes *Teaching Community: A Pedagogy of Hope* - a powerful,

visionary work that will enrich our teaching and our lives. Combining critical thinking about education with autobiographical narratives, hooks invites readers to extend the discourse of race, gender, class and nationality beyond the classroom into everyday situations of learning. bell hooks writes candidly about her own experiences. Teaching, she explains, can happen anywhere, any time - not just in college classrooms but in churches, in bookstores, in homes where people get together to share ideas that affect their daily lives. In Teaching Community bell hooks seeks to theorize from the place of the positive, looking at what works. Writing about struggles to end racism and white supremacy, she makes the useful point that No one is born a racist. Everyone makes a choice. Teaching Community tells us how we can choose to end racism and create a beloved community. hooks looks at many issues-among them, spirituality in the classroom, white people looking to end racism, and erotic relationships between professors and students. Spirit, struggle, service, love, the ideals of shared knowledge and shared learning - these values motivate progressive social change. Teachers of vision know that democratic education can never be confined to a classroom. Teaching - so often undervalued in our society -- can be a joyous and inclusive activity. bell hooks shows the way. When teachers teach with love, combining care, commitment, knowledge, responsibility, respect, and trust, we are often able to enter the classroom and go straight to the heart of the matter, which is knowing what to do on any given day to create the best climate for learning.

Reinventing Organizations Fr?d?ric Laloux,2014 The way we manage organizations seems increasingly out of date. Deep inside, we sense that more is possible. We long for soulful workplaces, for authenticity, community, passion, and purpose. In this groundbreaking book, the author shows that every time, in the past, when humanity has shifted to a new stage of consciousness, it has achieved extraordinary breakthroughs in collaboration. A new shift in consciousness is currently underway. Could it help us invent a more soulful and purposeful way to run our businesses and nonprofits, schools and hospitals? A few pioneers have already cracked the code and they show us, in practical detail, how it can be done. Leaders, founders, coaches, and consultants will find this work a joyful handbook, full of insights, examples, and inspiring stories.--Page [4] of cover.

Undoing Privilege Professor Bob Pease,2013-04-04 For every group that is oppressed, another group is privileged. In *Undoing Privilege*, Bob Pease argues that privilege, as the other side of oppression, has received insufficient attention in both critical theories and in the practices of social change. As a result, dominant groups have been allowed to reinforce their dominance. *Undoing Privilege* explores the main sites of privilege, from Western dominance, class elitism, and white and patriarchal privilege to the less-examined sites of heterosexual and able-bodied privilege. Pease points out that while the vast majority of people may be oppressed on one level, many are also privileged on another. He also demonstrates how members of

privileged groups can engage critically with their own dominant position, and explores the potential and limitations of them becoming allies against oppression and their own unearned privilege. This is an essential book for all who are concerned about developing theories and practices for a socially just world.

The Gate to Women's Country Sheri S. Tepper, 2009-10-21 "Lively, thought-provoking . . . the plot is ingenious, packing a wallop of a surprise . . . Tepper knows how to write a well-made, on-moving story with strong characters. . . . She takes the mental risks that are the lifeblood of science fiction and all imaginative narrative."—Ursula K. LeGuin, Los Angeles Times Since the flames died three hundred years ago, human civilization has evolved into a dual society: Women's Country, where walled towns enclose what's left of past civilization, nurtured by women and a few nonviolent men; and the adjacent garrisons where warrior men live—the lost brothers, sons, and lovers of those in Women's Country. Two societies. Two competing dreams. Two ways of life, kept apart by walls stronger than stone. And yet there is a gate between them. . . . "Tepper not only keeps us reading . . . she provokes a new look at the old issues."—The Washington Post "Tepper's cast of both

ordinary and extraordinary people play out a powerful drama whose significance goes beyond sex to deal with the toughest problem of all, the challenge of surmounting humanity's most dangerous flaws so we can survive—despite ourselves.”—Locus

Not in His Image (15th Anniversary Edition) John Lamb Lash, 2021-09-18 “Lash is capable of explaining the mind-bending concepts of Gnosticism and pagan mystery cults with bracing clarity and startling insight. . . . [His] arguments are often lively and entertaining.”—Los Angeles Times Fully revised and with a new preface by the author, this timely update is perfect for readers of *The Immortality Key*. Since its initial release to wide acclaim in 2006, *Not in His Image* has transformed the lives of readers around the world by presenting the living presence of the Wisdom Goddess as never before revealed, illustrating that the truth of an impactful Gnostic message cannot be hidden or destroyed. With clarity, author John Lamb Lash explains how a little-known messianic sect propelled itself into a dominant world power, systematically wiping out the great Gnostic spiritual teachers, the Druid priests, and the shamanistic healers of Europe and North Africa. Early Christians burned libraries and destroyed temples in an attempt to silence the ancient truth-tellers and keep their own secrets. *Not in His Image* delves deeply into ancient Gnostic writings to reconstruct the story early Christians tried to scrub from the pages of history, exploring the richness of the ancient European Pagan spirituality—the Pagan Mysteries, the Great Goddess, Gnosis, the myths of Sophia and Gaia. In the 15th Anniversary

Edition, Lash doubles down on his original argument against redemptive ideology and authoritarian deceit. He shows how the Gnostics clearly foresaw the current program of salvation by syringe, and places the Sophianic vision of life centrally in the battle to expose and oppose the evil agenda of transhumanism, making this well-timed update more relevant than ever.

"Sometimes a book changes the world. Not in His Image is such a book. It is clear, stimulating, well-researched, and sure to outrage the experts. . . . Get it. Improve not just your own life, but civilization's chances for survival."—Roger Payne, author of *Among Whales*

International Community Psychology Stephanie Reich,Manuel Riemer,Isaac Prilleltensky,Maritza Montero,2007-07-03 This is the first in-depth guide to global community psychology research and practice, history and development, theories and innovations, presented in one field-defining volume. Normed Children Erik Schneider,Christel Baltes-Löhr,2018-11-30 Gender- and sex-related norms have an impact on us from the first to the last day of our lives. What are the effects of such norms on the education of children and adolescents? Conveyed via parents/family, school, and peers, they seem to be an inseparable part of human relations. After its favorable reception in

German-speaking countries from 2014 onwards, this title is now available in English. The texts show that the traditional assumption of a dualistic, bipolar normativity of sex and gender leads to children being taught gender-typical behavior. The contributions in this volume explore the reasons for these practices and open the debate on the divergence between the prevailing norms and the plurality of different life plans. In addition, the book helps to disengage the topic of sex and gender from a hitherto narrowly circumscribed context of sexual orientation. The contributions point the way towards a culture of respect and mutual acceptance and show new methodological as well as theoretical approaches, e.g. by introducing the figure of the continuum, so that, in future research projects, more than just the two sexes and genders of female and male might be considered as a new normality.

Pedagogics of Liberation Enrique D. Dussel, 2019 Enrique Dussel is considered one of the founding philosophers of liberation in the Latin American tradition, an influential arm of what is now called decoloniality. While he is astoundingly prolific, relatively few of his works can be found in English translation - and none of these focus specifically on education. Founding members of the Latin American Philosophy of Education Society David I. Backer and Cecilia Diego bring to us Dussel's *THE PEDAGOGICS OF LIBERATION: A Latin American Philosophy of Education*, the first English translation of Dussel's thinking on education, and also the first translation of any part of his landmark multi-volume work *Towards an Ethics of Latin*

American Liberation. Dussel's oeuvre is an impressive intellectual mosaic that uses Europeans to disrupt European thinking. This mosaic has at its center French philosopher Emmanuel Levinas, but also includes Ancient Greek philosophy, Thomist theology, modern Enlightenment philosophy, analytic philosophy of language, Marxism, psychoanalysis (Freud, Klein, evolutionary psychology, neuroscience), phenomenology (Sartre, Heidegger, Husserl, Hegel), critical theory (Frankfurt School, Habermas), and linguistics. Dussel joins these traditions to Latin American history, literature, and philosophy, specifically the work of Octavio Paz, Ivan Illich, and the philosophers of liberation whom Dussel studied with in Argentina before his exile to Mexico in the late 1970s. Drawing heavily from the ethical philosophy of Emmanuel Levinas, Dussel examines the dominating and liberating features of intimate, concrete, and observable interactions between different kinds of people who might sit down and have face-to-face encounters, specifically where there may be an inequality of knowledge and a responsibility to guide, teach, learn, care, or study: teacher-student, politician-citizen, doctor-patient, philosopher-nonphilosopher, and so on. Those occupying the superior position of these face-to-face encounters (teachers, politicians, doctors, philosophers) have a clear choice for Dussel when it comes to their pedagogics. They are either open to hearing the voice of the Other, disrupting their sense of what is and should be by a newness beyond what they know; or, following the dominant pedagogics, they can try to communicate and

instruct their sense of what is and should be to the (supposed) tabula rasas in their charge. Dussel calls that sense of what is and should be lo Mismo. This groundbreaking translation makes possible a face-to-face encounter between an Anglo Philosophy of Education and Latin American Pedagogics. Pedagogics should be considered as a type of philosophical inquiry alongside ethics, economics, and politics. Dussel's pedagogics is a decolonizing pedagogics, one rooted in the philosophy of liberation he has spent his epic career articulating. With an Introduction by renowned philosopher Linda Martin Alcoff, this book adds an essential voice to our conversations about teaching, learning, and studying, as well as critical theory in general. ENRIQUE DUSSEL was born in 1934 in the town of La Paz, in the region of Mendoza, Argentina. He first came to Mexico in 1975 as a political exile and is currently a Mexican citizen, Professor in the Department of Philosophy at the Iztapalapa campus of the Universidad Aut noma Metropolitana (Autonomous Metropolitan University, UAM), and also teaches courses at the Universidad Nacional Aut noma de M xico (National Autonomous University of Mexico, UNAM). He has an undergraduate degree in Philosophy (from the Universidad Nacional de Cuyo/National University of Cuyo in Mendoza, Argentina), a Doctorate from the Complutense University of Madrid, a Doctorate in History from the Sorbonne in Paris, and an undergraduate degree in Theology obtained through studies in Paris and M nster.
