Violence and Serenity Natasha Reichle, 2007-07-26 The mention of Buddhism in Indonesia calls to mind for many people the Central Javanese monument of Borobudur, one of the largest Buddhist monuments in the world and the subject of extensive scholarly scrutiny. The neglect of scholarship on Buddhist art from later periods might lead one to assume that after the tenth century Buddhism had been completely eclipsed by the predominantly Hindu Eastern Javanese dynasties. Yet, as the works discussed here illustrate, extraordinary Buddhist images were still being produced as late as the fourteenth century. *Violence and Serenity* offers a close examination of some of the impressive works from East Java and Sumatra and explores their political and religious roles. The number of clearly identifiable Buddhist works from the Singasari and Majapahit dynasties (1222–ca. 1520) is limited, yet existing examples are impressive. They demonstrate a remarkable level of craftsmanship and are exceptionally expressive, exhibiting a range of emotions from the ferocious to the serene. Following a brief discussion of the early history of Buddhism in Indonesia, Natasha Reichle focuses each chapter on a specific statue or group of statues and considers the larger issues evoked by the images. Through a rarely examined depiction of the last Singasari king, she explores the nature of religion in Java in the late thirteenth century and what we know about tantric practices and the syncretism of Hinduism and Buddhism. She reassesses the question of portraiture in ancient Javanese art while contemplating the famous Prajñāpāramitā from Singasari. Notions of kingship are discussed in light of a number of statues depicting the Buddhist deity Amoghapāśa and his attendants and the meanings of the Amoghapāśa maṇḍala. The final chapter examines the origins and significance of one of Indonesia's most spectacular sculptures, a four-meter-high Buddhist bhairava (demon) discovered in West Sumatra.

Cultural Values and Human Ecology in Southeast Asia Karl L. Hutterer, A. Terry Rambo, George Lovelace, 1985-01-01 Ecologists have long based their conceptual frameworks in the natural sciences. Recently, however, they have acknowledged that ecosystems cannot be understood without taking into account human interventions that may have taken place for thousands of years. And for their part, social scientists have recognized that human behavior must be understood in the environment in which it is acted out. Researchers have thus begun to develop the area of "human ecology." Yet human ecology needs suitable conceptual frameworks to tie the human and natural together. In response, *Cultural Values and Human Ecology* uses the framework of cultural values to collect a set of highly diverse contributions to the field of human ecology. Values represent an important and essential aspect of the intellectual organization of a society, integrated into and ordained by the over-arching cosmological system, and constituting the meaningful basis for action, in terms of concreteness and abstraction of content as well as mutability and permanence. Because of this balance, values lend themselves to the kinds of analyses of ecological relationships conducted here, those that demand a reasonable amount of specificity as well as historical stability. The contributions to *Cultural Values and Human Ecology* are exceedingly diverse. They include abstract theoretical discussions and specific case studies, ranging across the landscape of Southeast Asia from the islands to southern China. They deal with hunting-gathering populations as well as peasants operating within contemporary

nation-states, and they are the work of natural scientists, social scientists, and humanists of Western and Asian origin. Diversity in the backgrounds of the authors contributes most to the varied approaches to the theme of this volume, because differences in cultural background and academic tradition will lead to different research interests and to differences in the empirical approaches chosen to pursue given problems.

The Palace of Illusions Chitra Banerjee Divakaruni, 2009-02-10 Taking us back to a time that is half history, half myth and wholly magical, bestselling author Chitra Banerjee Divakaruni gives voice to Panchaali, the fire-born heroine of the Mahabharata, as she weaves a vibrant retelling of an ancient epic saga. Married to five royal husbands who have been cheated out of their father's kingdom, Panchaali aids their quest to reclaim their birthright, remaining at their side through years of exile and a terrible civil war. But she cannot deny her complicated friendship with the enigmatic Krishna—or her secret attraction to the mysterious man who is her husbands' most dangerous enemy—as she is caught up in the ever-manipulating hands of fate.

Indonesian Political Thinking 1945-1965 Herbert Feith, Lance Castles, 2007 This collection of more than one hundred excerpts from speeches, lectures, articles, and pamphlets, most of the not previously available in English, is regarded as the principal source book on Indonesian politics for the post-revolution period of 1945-1965. Chosen to define and illuminate the country's complex issues, the selections provide a balanced, comprehensive, and well-ordered survey of Indonesian political thinking from just before independence to the fall of Sukarno. After an introduction by Herbert Feith in which he discusses the Indonesian intellectual and his place in politics, the major and minor Indonesian figures of the period express their political views and their responses to the events of the first twenty years of independence. A commentary at the beginning of each chapter supplies background material relating to the selections. Three appendixes offer brief biographies of the Indonesian authors, a glossary of unfamiliar terms, and a chronological chart. Indonesian Political Thinking, now brought back to life in Equinox Publishing's Classic Indonesia series, is a must-have resource for Indonesians and Indonesianists alike. HERBERT FEITH was professor of Politics at Monash University, Victoria, Australia. He first became familiar with Indonesian problems when he was an English Language Assistant with the Ministry of Information of the Republic of Indonesia during the 1950s. He received the MA degree from the University of Melbourne, the PhD from Cornell University, and was a Research Fellow in the Department of Pacific History, Australian National University, 1960-62. Professor Feith is author of *The Decline of Constitutional Democracy in Indonesia*, also a member of Equinox Publishing's Classic Indonesia series. LANCE CASTLES graduated from Melbourne University, Australia, received the MA degree from Monash University, and the PhD degree from Yale University. He is the author of *Religion, Politics, and Economic Behavior in Java: The Kudus Cigarette Industry*.

Law and Politics of Constitutional Courts Stefanus Hendrianto, 2018-04-17 This book critically evaluates different models of judicial leadership in Indonesia to examine the impact that individual chief justices can have on the development of constitutional courts. It explores the importance of this leadership as a factor explaining the dynamic of judicial power. Drawing on an Aristotelean model of heroism and the established idea of judicial heroes to explore the types of leadership that judges can exercise, it illustrates how Indonesia's recent experience offers a stark contrast between the different models. First, a prudential-minimalist heroic chief justice who knows how to enhance the Court's authority while fortifying the Court's status by playing a minimalist role in policy areas. Second, a bold and aggressive heroic chief justice, employing an ambitious constitutional interpretation. The third model is a soldier-type chief justice, who portrays himself as a subordinate of the Executive and Legislature. Contrary perhaps to expectations, the book's findings show a more cautious initial approach to be the most effective. The experience of Indonesia clearly illustrates the importance of heroic judicial leadership and how the approach chosen by a court can have serious consequences for its success. This book will be a valuable resource for those interested in the law and politics of Indonesia, comparative constitutional law, and comparative judicial politics.

House of Many Gods Kiana Davenport, 2008-09-30 From Kiana Davenport, the bestselling author of *Song of the Exile* and *Shark Dialogues*, comes another mesmerizing novel about her people and her islands. Told in spellbinding and mythic prose, *House of Many Gods* is a deeply complex and provocative love story set against the background of Hawaii and Russia. Interwoven throughout with the indelible portrait of a native Hawaiian family struggling against poverty, drug wars, and the increasing military occupation of their sacred lands. Progressing from the 1960s to the turbulent present, the novel begins on the island of O'ahu and centers on Ana, abandoned by her mother as a child. Raised by her extended family on the "lawless" Wai'anae coast, west of Honolulu, Ana, against all odds, becomes a physician. While tending victims of Hurricane 'Iniki on the neighboring island of Kaua'i, she meets Nikolai, a Russian filmmaker with a violent and tragic past, who can confront reality only through his unique prism of lies. Yet he is dedicated to recording the ecological horrors in his motherland and across the Pacific. As their lives slowly and inextricably intertwine, Ana and Nikolai's story becomes an odyssey that spans decades and sweeps the reader from rural Hawaii to the forbidding Arctic wastes of Russia; from the poverty-stricken Wai'anae coast to the glittering harshness of "new Moscow" and the haunting, faded beauty of St. Petersburg. With stunning narrative inventiveness, Davenport has created a timeless epic of loss and remembrance, of the search for family and identity, and, ultimately, of the redemptive power of love.

Culture and Politics in Indonesia Claire Holt, 2007 In these studies, scholars from the United States and Indonesia identify some of the cultural roots of Indonesian political behavior. The authors, representing the fields of anthropology, history, and political science, explore the ways in which traditional institutions, beliefs, values, and ethnic origins affect notions of power and rebellion, influence political party affiliations, and create new modes of cultural expression. Using two different but contemporary approaches, the authors show what can be learned about Indonesia through use of the Western concepts of culture and politics. Professors Lev, Liddle, and Sartono illustrate how much can be gained from presenting Indonesian life in Western terms, while Professors Abdullah and Anderson contrast Indonesian and Western ideas. In an Afterword, Clifford Geertz reflects on the questions raised in these essays by discussing the tense relationships between Indonesian political institutions and the cultural framework in which they exist. CLAIRE HOLT was, until her death in 1970, Senior Research Associate of the Modern Indonesia Project, Cornell University. In Indonesia she served as assistant to the late Dr. W.F. Stutterheim, the noted archaeologist and cultural historian. She lectured extensively in Europe, the Far East, and the United States on Indonesian culture, and worked as a researcher and training specialist for the US Department of State.

Political Corruption Michael Johnston, 2017-07-12 Corruption is once again high on the international policy agenda as a result of globalization, the spread of democracy, and major scandals and reform initiatives. But the concept itself has been a focus for social scientists for many years, and new findings and data take on richer meanings when viewed in the context of long-term developments and enduring conceptual debates. This compendium, a much-enriched version of a work that has been a standard reference in the field since 1970, offers concepts, cases, and fresh evidence for comparative analysis. Building on a nucleus of classic studies laying out the nature and development of the concept of corruption, the book also incorporates recent work on economic, cultural, and linguistic dimensions of the problem, as well as critical analyses of several approaches to reform. While many authors are political scientists, work by historians, economists, and sociologists are strongly represented. Two-thirds of the nearly fifty articles are based either on studies especially written or translated for this volume, or on selected journal literature published in the 1990s. The tendency to treat corruption as merely a synonym for bribery is illuminated by analyses of the diverse terminology and linguistic techniques that help distinguish corruption problems in the major languages. Recent attempts to measure corruption, and to analyze its causes and

effects quantitatively are also critically examined. New contributions emphasize especially: corruption phenomena in Asia and Africa; contrasts among region and regime types; comparing U.S. state corruption incidence; European Party finance and corruption; assessments of international corruption rating project; analyses of international corruption control treaties; unintended consequences of anti-corruption efforts. Cumulatively, the book combines description richness, analytical thrust, conceptual awareness, and contextual articulation.

Wounds and Words Christa Schönfelder, 2014-04-30 Trauma has become a hotly contested topic in literary studies. But interest in trauma is not new; its roots extend to the Romantic period, when novelists and the first psychiatrists influenced each others' investigations of the »wounded mind«. This book looks back to these early attempts to understand trauma, reading a selection of Romantic novels in dialogue with Romantic and contemporary psychiatry. It then carries that dialogue forward to postmodern fiction, examining further how empirical approaches can deepen our theorizations of trauma. Within an interdisciplinary framework, this study reveals fresh insights into the poetics, politics, and ethics of trauma fiction.
