The Pixar Theory Jon Negroni, 2015-06-04 Every Pixar movie is connected. I explain how and possibly why. These are the words that began the detailed essay now known as The Pixar Theory, which came out way back in 2013. It collected over 10 million views on Jon's blog alone, and was syndicated on BuzzFeed, Mashable, HuffPost, Entertainment Weekly, and more - generating over 100 million impressions and now translated into a dozen languages. Now, these thoughts and ideas first written by Jon Negroni have been fully realized inside this book, aptly named The Pixar Theory. In this book, you'll find an analysis of every single Pixar movie to date and how it tells a hidden story lurking behind these classic movies. You'll learn about how the toys of Toy Story secretly owe their existence to the events of The Incredibles. You'll learn about what truly happened to the civilization of cars from Cars before the events of WALL-E. And of course, you'll find out the possible truth for why Boo of Monsters Inc. is the most important Pixar character yet. Welcome to the Pixar Theory. Don't forget to fasten your imagination.

If Anything Happens I Love You Will McCormack, Michael Govier, 2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from “above” as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose’s soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

The Longest Trail Alvin M. Josephy, Jr., 2015-10-27 Alvin Josephy Jr.'s groundbreaking, popular books and essays advocated for a fair and true historical assessment of Native Americans, and set the course for modern Native American studies. This collection, which includes magazine articles, speeches, a white paper, and introductions and chapters of books, gives a generous and reasoned view of five hundred years of Indian history in North America from first settlements in the East to the long trek of the Nez Perce Indians in the Northwest. The essays deal with the origins of still unresolved troubles with treaties and territories to fishing and land rights, and who should own archeological finds, as well as the ideologies that underpin our Indian policy. Taken together the pieces give a revelatory introduction to American Indian history, a history that continues both to fascinate and inform.

A Spectacular Leap Jennifer H. Lansbury, 2014-04-01 When high jumper Alice Coachman won the high jump title at the 1941 national championships with a spectacular leap, African American women had been participating in competitive sport for close to twenty-five years. Yet it would be another twenty years before they would experience something akin to the national fame and

recognition that African American men had known since the 1930s, the days of Joe Louis and Jesse Owens. From the 1920s, when black women athletes were confined to competing within the black community, through the heady days of the late twentieth century when they ruled the world of women's track and field, African American women found sport opened the door to a better life. However, they also discovered that success meant challenging perceptions that many Americans--both black and white--held of them. Through the stories of six athletes--Coachman, Ora Washington, Althea Gibson, Wilma Rudolph, Wyomia Tyus, and Jackie Joyner-Kersey--Jennifer H. Lansbury deftly follows the emergence of black women athletes from the African American community; their confrontations with contemporary attitudes of race, class, and gender; and their encounters with the civil rights movement. Uncovering the various strategies the athletes use to beat back stereotypes, Lansbury explores the fullness of African American women's relationship with sport in the twentieth century.

How To Write A Horror Movie Neal Bell, 2020-03-20 How to Write a Horror Movie is a close look at an always-popular (but often disrespected) genre. It focuses on the screenplay and acts as a guide to bringing scary ideas to cinematic life using examples

from great (and some not-so-great) horror movies. Author Neal Bell examines how the basic tools of the scriptwriter's trade - including structure, dialogue, humor, mood, characters, and pace - can work together to embody personal fears that will resonate strongly on screen. Screenplay examples include classic works such as 1943's *I Walked With A Zombie* and recent terrifying films that have given the genre renewed attention like writer/director Jordan Peele's critically acclaimed and financially successful *Get Out*. Since fear is universal, the book considers films from around the world including the 'found-footage' *[REC]* from Spain (2007), the Swedish vampire movie, *Let The Right One In* (2008) and the Persian-language film *Under The Shadow* (2016). The book provides insights into the economics of horror-movie making, and the possible future of this versatile genre. It is the ideal text for screenwriting students exploring genre and horror, and aspiring scriptwriters who have an interest in horror screenplays.

Kicking Off Sarah Shephard, 2016-03-10 There's a battle being fought. It's raging on the sports fields, in the newsrooms and behind the scenes at every major broadcaster. Women in sport are fighting for equality with more vigour than ever, but are they breaking down the barriers that stand in their way? Sarah

Shephard looks behind the headlines to see whether progress is really being made and tells the stories that can no longer be ignored. It's time for women to switch their focus from the battlefield to the sports field, once and for all. This candid and revealing book asks the questions at the forefront of the debate about women in sport: · Why do the most successful female athletes earn less than their male counterparts? · Why do so few elite sportswomen have the profile their talent deserves? · Why are girls still growing up believing that sport is 'for boys'? With contributions from women involved in sport at the highest level, including Chrissie Wellington, Maggie Alphonsi, Kelly Smith and Nicole Cooke, who reveal their personal experiences of being at the top of their game.

Artistic Impressions Mary Louise Adams, 2011-01-01 In contemporary North America, figure skating ranks among the most 'feminine' of sports and few boys take it up for fear of being labelled effeminate or gay. Yet figure skating was once an exclusively male pastime - women did not skate in significant numbers until the late 1800s, at least a century after the founding of the first skating club. Only in the 1930s did figure skating begin to acquire its feminine image. *Artistic Impressions* is the first history

to trace figure skating's striking transformation from gentlemen's art to 'girls' sport.' With a focus on masculinity, Mary Louise Adams examines how skating's evolving gender identity has been reflected on the ice and in the media, looking at rules, technique, and style and at ongoing debates about the place of 'art' in sport. Uncovering the little known history of skating, *Artistic Impressions* shows how ideas about sport, gender, and sexuality have combined to limit the forms of physical expression available to men.

Two Planks and a Passion Roland Huntford, 2013-01-31 Roland Huntford's brilliant history begins 20,000 years ago in the last ice age on the icy tundra of an unformed earth. Man is a travelling animal, and on these icy slopes skiing began as a means of survival. That it has developed into the leisure and sporting pursuit of choice by so much of the globe bears testament to its elemental appeal. In polar exploration, it has changed the course of history. Elsewhere, in war and peace, it has done so too. The origins of skiing are bound up in with the emergence of modern man and the world we live in today.

The Prince of Los Cocuyos Richard Blanco,2014-09-30 “In this vibrant memoir, Obama-inaugural poet Richard Blanco tenderly, exhilaratingly chronicles his Miami childhood amid a colorful, if suffocating, family of Cuban exiles, as well as his quest to find his artistic voice and the courage to accept himself as a gay man.” — O, The Oprah Magazine A poignant, hilarious, and inspiring memoir from the first Latino and openly gay inaugural poet, which explores his coming-of-age as the child of Cuban immigrants and his attempts to understand his place in America while grappling with his burgeoning artistic and sexual identities. Richard Blanco’s childhood and adolescence were experienced between two imaginary worlds: his parents’ nostalgic world of 1950s Cuba and his imagined America, the country he saw on reruns of *The Brady Bunch* and *Leave it to Beaver*—an “exotic” life he yearned for as much as he yearned to see “la patria.” A prismatic and lyrical narrative rich with the colors, sounds, smells, and textures of Miami, Richard Blanco’s personal narrative is a resonant account of how he discovered his authentic self and ultimately, a deeper

understanding of what it means to be American. His is a singular yet universal story that beautifully illuminates the experience of “becoming;” how we are shaped by experiences, memories, and our complex stories: the humor, love, yearning, and tenderness that define a life.

Future Home of the Living God Louise Erdrich, 2017-11-14 A New York Times Notable Book Louise Erdrich, the New York

Times bestselling, National Book Award-winning author of *LaRose* and *The Round House*, paints a startling portrait of a young woman fighting for her life and her unborn child against oppressive forces that manifest in the wake of a cataclysmic event. The world as we know it is ending. Evolution has reversed itself, affecting every living creature on earth. Science cannot stop the world from running backwards, as woman after woman gives birth to infants that appear to be primitive species of humans. Twenty-six-year-old Cedar Hawk Songmaker, adopted daughter of a pair of big-hearted, open-minded Minneapolis liberals, is as disturbed and uncertain as the rest of America around her. But for Cedar, this change is profound and deeply personal. She is four months pregnant. Though she wants to tell the adoptive parents who raised her from infancy, Cedar first feels compelled to find her birth mother, Mary Potts, an Ojibwe living on the reservation, to understand both her and her baby's origins. As Cedar goes back to her own biological beginnings, society around her begins to disintegrate, fueled by a swelling panic about the end of humanity. There are rumors of martial law, of Congress confining pregnant women. Of a registry, and rewards for those who turn these wanted women in. Flickering through the chaos are signs of

increasing repression: a shaken Cedar witnesses a family wrenched apart when police violently drag a mother from her husband and child in a parking lot. The streets of her neighborhood have been renamed with Bible verses. A stranger answers the phone when she calls her adoptive parents, who have vanished without a trace. It will take all Cedar has to avoid the prying eyes of potential informants and keep her baby safe. A chilling dystopian novel both provocative and prescient, *Future Home of the Living God* is a startlingly original work from one of our most acclaimed writers: a moving meditation on female agency, self-determination, biology, and natural rights that speaks to the troubling changes of our time.

Traditional Japanese Crest Designs Clarence

Hornung, 1986-01-01 Family crests (mon) have been a Japanese tradition since the eleventh century, when they decorated the costumes and carriages of courtiers. Later, they were used to identify warriors on the battlefield, as heraldic decorations on formal costumes, and as ornament on the kimonos of the common people. Small, compact, and graceful, with a strong sense of style, crest designs are ideal for spot illustrations, as logos, or for any graphic purpose requiring the classic simplicity, purity, and strength of Japanese design. This volume presents a total of 540 permission-free motifs, carefully selected for graphic impact and usefulness from several thousand crests known to exist. Featured are a wide variety of stylized designs depicting plants, animals, natural phenomena, geometric shapes, and manufactured

objects. Among the subjects included in this selection are such traditional Japanese motifs as bamboo, crane, lightning, cherry blossom, peony, plum blossom, wave, rice, circle, and hollyhock. Immensely useful, this volume of permission-free designs is not only an invaluable source of graphic material for artists, designers, and craftspeople, but a fascinating picture book of Japanese culture.
