Together Apart Jolanda Jetten,Stephen D. Reicher,S. Alexander Haslam,Tegan Cruwys,2020-07-13 Written by leading social psychologists with expertise in leadership, health and emergency behaviour – who have also played an important role in advising governments on COVID-19 – this book provides a broad but integrated analysis of the psychology of COVID-19 It explores the response to COVID-19 through the lens of social identity theory, drawing from insights provided by four decades of research. Starting from the premise that an effective response to the pandemic depends upon people coming together and supporting each other as members of a common community, the book helps us to understand emerging processes related to social (dis)connectedness, collective behaviour and the societal effects of COVID-19. In this it shows how psychological theory can help us better understand, and respond to, the events shaping the world in 2020. Considering key topics such as: LeadershipCommunicationRisk perceptionSocial isolationMental healthInequalityMisinformationPrejudice and racismBehaviour changeSocial Disorder This book offers the foundation on which future analysis, intervention and policy can be built. We are proud to support the research into Covid-19 and are delighted to offer the finalised eBook for free. All Royalties from this book will be donated to charity.

Grays the Mountain Sends Kevin Messina,2014 Grays the Mountain Sends by Bryan Schutmaat documents the rugged landscapes and people of the great American West. The images describe a series of mining sites and small mountain towns and the people who have worked in them, built them, and a few younger people who might, or might not, be looking for a way out of them.

Skin in the Game Nassim Nicholas Taleb,2018-02-27 #1 NEW YORK TIMES BESTSELLER • A bold work from the author of The Black Swan that challenges many of our long-held beliefs about risk and reward, politics and religion, finance and personal responsibility In his most provocative and practical book yet, one of the foremost thinkers of our time redefines what it means to understand the world, succeed in a profession, contribute to a fair and just society, detect nonsense, and influence others. Citing examples ranging from Hammurabi to Seneca, Antaeus the Giant to Donald Trump, Nassim Nicholas Taleb shows how the willingness to accept one’s own risks is an essential attribute of heroes, saints, and flourishing people in all walks of life. As always both accessible and iconoclastic, Taleb challenges long-held beliefs about the values of those who spearhead military interventions, make financial investments, and propagate religious faiths. Among his insights: • For social justice, focus on symmetry and risk sharing. You cannot make profits and transfer the risks to others, as bankers and large corporations do. You cannot get rich without owning your own risk and paying for your own losses. Forcing skin in the game corrects this asymmetry better than thousands of laws and regulations. • Ethical rules aren’t universal. You’re part of a group larger than you, but it’s still smaller than humanity in general. • Minorities, not majorities, run the world. The world is not run by consensus but by stubborn minorities imposing their tastes and ethics on others. • You can be an intellectual yet still be an idiot. “Educated philistines” have been wrong on everything from Stalinism to Iraq to low-carb diets. • Beware of complicated solutions (that someone was paid to find). A simple barbell can build muscle better than expensive new machines. • True religion is commitment, not just faith. How much you believe in something is manifested only by what you’re willing to risk for it. The phrase “skin in the game” is one we have often heard but rarely stopped to truly dissect. It is the backbone of risk management, but it’s also an astonishingly rich worldview that, as Taleb shows in this book, applies to all aspects of our lives. As Taleb says, “The symmetry of skin in the game is a simple rule that’s necessary for fairness and justice, and the ultimate BS-buster,” and “Never trust anyone who doesn’t have skin in the game. Without it, fools and crooks will benefit, and their mistakes will never come back to haunt them.”

Anonymous Sources Mary Louise Kelly,2013-06-18 A fast-paced international thriller in the vein of Janet Evanovich by former NPR anchor and correspondent Mary Louise Kelly, about a Pakistani terrorist’s nuclear threat to blow up the White House. When Boston reporter Alexandra James is assigned to cover the death of Thom Carlyle, the son of a powerful Washington insider, she soon discovers the story is not as simple as it seems. The young man fell from the top of a Harvard bell tower, but did he jump...or was he pushed? Intent on escaping the demons of her past, Alex knows how to outwork, outdrink, and outshop anyone else around. Now she is focused on what could be “the story of a lifetime”—chasing leads from Harvard Yard to the courtyards of Cambridge, England, from a clandestine rendezvous in London to the inside of a nuclear terrorist network. But when she goes to Washington, DC, for a key interview that promises to tie everything together, Alex the hunter becomes Alex the hunted. An assassin is dispatched...her laptop disappears...her phone is tapped...and she begins to grasp that Thom Carlyle may have been killed to hide a terrifying conspiracy within the White House itself. Former NPR Intelligence correspondent Mary Louise Kelly has turned her own real-life reporting adventures into fiction with this stylish spy thriller.

The Man Who Tried to Save the World Scott Anderson, 2000-05-16 A swashbuckling Texan, a teller of tall tales, a womanizer, and a renegade, Fred Cuny spent his life in countries rent by war, famine, and natural disasters, saving many thousands of lives through his innovative and sometimes controversial methods of relief work. Cuny earned his nickname Master of Disaster for his exploits in Kurdistan, Somalia, and Bosnia. But when he arrived in the rogue Russian republic of Chechnya in the spring of 1995, raring to go and eager to put his ample funds from George Soros to good use, he found himself in the midst of an unimaginably savage war of independence, unlike any he had ever before encountered. Shortly thereafter, he disappeared in the war-rocked highlands, never to be seen again. Who was Cuny really working for? Was he a CIA spy? Who killed him, and why? In search of the answers, Scott Anderson traveled to Chechnya on a hazardous journey that started as a magazine assignment and ended as a personal mission. The result is a galvanizing adventure story, a chilling picture of the new world order, and a tour de force of literary journalism.

The View from Somewhere Lewis Raven Wallace, 2023-03-22 A look at the history of the idea of the objective journalist and how this very ideal can often be used to undercut itself. In *The View from Somewhere*, Lewis Raven Wallace dives deep into the history of “objectivity” in journalism and how it's been used to gatekeep and silence marginalized writers as far back as Ida B. Wells. At its core, this is a book about fierce journalists who have pursued truth and transparency and sometimes been punished for it—not just by tyrannical governments but by journalistic institutions themselves. He highlights the stories of journalists who question “objectivity” with sensitivity and passion: Desmond Cole of the *Toronto Star*; *New York Times* reporter Linda Greenhouse; Pulitzer Prize-winner Rachel Kaadzi Ghansah; Peabody-winning podcaster John Biewen; *Guardian* correspondent Gary Younge; former *Buzzfeed* reporter Meredith Talusan; and many others. Wallace also shares his own experiences as a midwestern transgender journalist and activist who was fired from his job as a national reporter for public radio for speaking out against “objectivity” in coverage of Trump and white supremacy. With insightful steps through history, Wallace stresses that journalists have never been mere passive observers. Using historical and contemporary examples—from lynching in the nineteenth century to transgender issues in the twenty-first—Wallace offers a definitive critique of “objectivity” as a catchall for accurate journalism. He calls for the dismissal of this damaging mythology in order to confront the realities of institutional power, racism, and other forms of oppression and exploitation in the news industry. *The View from Somewhere* is a compelling rallying cry against journalist neutrality and for the validity of news told from distinctly subjective voices.

Last Farmer Shaun Belcher, 2010 The division between country and city is fading fast and these poems document the ragged edge of our contemporary ideas of the rural and the sublime. Ever since the initial enthusiasm of early Green movement there has been a stark choice for modern farming. Factory methods or die. In *Last Farmer* Shaun Belcher documents this fading agricultural golden age that never was and shows the human side of over zealous pesticide salesmen and downtrodden rural labourers. The golden pastures that never were here fade into golf-courses and all night shopping malls. Growing up in what used to be Berkshire before a line on the map was rewritten, these poems excavate the tragic spoiling of not just the soil itself but of those that depended upon it. Gone are the happy country swains and in their place come the refugees herded into white vans at midnight and lost at the station at daybreak. Belcher has been described as vituperative. Certainly there is an anger in these words about what has and is still being lost. Alongside these stark tombstones to the countryside are some explorations of what growing up in the middle of England in the mid 20th century really meant. Belcher draws on rural myth and folktale as well as American popular culture so there is a keen sense of how all of this impacts on the sense of ‘Englishness’. Raised but a stones throw from the glittering prizes and towers of Oxford this is the other side of the fence writing drawing on a deep sense of working-class roots that is still looking for a common tongue.

Take the Stairs Rory Vaden, 2012-02-07 Do you ride the escalator-or take the stairs? No matter how you define success, it always requires one thing: self-discipline. But as popular speaker and strategist Rory Vaden explains, we live in an escalator world—one that's filled with shortcuts, quick fixes, and distractions that make it all too easy to slide into procrastination, compromise, and mediocrity. What seems like an easier path is really much harder in the end—and, most important, it won't take you where you want to go. How do successful people stay focused and achieve results? This lively and insightful guide presents a simple program for taking the stairs—that is, for overcoming the temptations of quick fixes and procrastination, conquering creative avoidance, and transcending personal setbacks in order to tackle the work that leads to real success. Whatever your goals are, Rory Vaden's proven approach will get you there—one stair at a time.

He describes the range of legal and policy choices that confront.

[Handbook on Battery Energy Storage System](#) Asian Development Bank, 2018-12-01 This handbook serves as a guide to deploying battery energy storage technologies, specifically for distributed energy resources and flexibility resources. Battery energy storage technology is the most promising, rapidly developed technology as it provides higher efficiency and ease of control. With energy transition through decarbonization and decentralization, energy storage plays a significant role to enhance grid efficiency by alleviating volatility from demand and supply. Energy storage also contributes to the grid integration of renewable energy and promotion of microgrid.

Competitive Authoritarianism Steven Levitsky, Lucan A. Way, 2010-08-16 Based on a detailed study of 35 cases in Africa, Asia, Latin America, and post-communist Eurasia, this book explores the fate of competitive authoritarian regimes between 1990 and 2008. It finds that where social, economic, and technocratic ties to the West were extensive, as in Eastern Europe and the Americas, the external cost of abuse led incumbents to cede power rather than crack down, which led to democratization. Where ties to the West were limited, external democratizing pressure was weaker and countries rarely democratized. In these cases, regime outcomes hinged on the character of state and ruling party organizations. Where incumbents possessed developed and cohesive coercive party structures, they could thwart opposition challenges, and competitive authoritarian regimes survived; where incumbents lacked such organizational tools, regimes were unstable but rarely democratized.
