Fokker DR.1 Triplane Jarrod Cotter,2017-08-11 Undoubtedly the most famous Dr.1 pilot was Baron Manfred von Richthofen. Widely known as the “Red Baron”, von Richthofen was officially credited with 80 kills, 19 of them while flying a Dr.1. Richthofen became commander of the fighter squadron Jasta 11 in January 1917, where he flew the Albatross D.II and D.III. When he became a squadron commander, Richthofen took the flamboyant step of having his Albatros painted red. That would go on to be his iconic, red-painted aircraft, although not all of them were entirely red, nor was the “red” necessarily the brilliant scarlet that legend would suggest. Other pilots in Jasta 11 soon took to painting parts of their aircraft red, and their “official” was to make their leader less conspicuous, and to avoid him being singled out in a fight. In practice, red coloration became a unit identification. Richthofen continued to use red aircraft when he began to fly the Dr.1, hence the iconic “Red Baron” Fokker Triplane.

The Red Baron Nicolas Wright,1977 A biography of the World War I ace known as the Red Baron who shot down 80 Allied planes before he himself was killed, a month before his twenty-sixth birthday.

Report on Fokker Triplane, March 1918reports on German Aircraft 7 Ministry of Munition Aircraft Productio,2014-03 Undoubtedly the most famous fighter of World War 1, the Fokker Dr I was a revelation when it entered service on the western front in 1917. Manfred von Richthofen's JG 1 was the first Jasta to completely re-equip with the new fighter, and in the skilled hands of its numerous aces the Dr I proved a formidable opponent. The Dr I remained in service on the Western Front until replaced by the superior Fokker D VII in May 1918. Just weeks prior to that, however, Germany's leading ace, the great 'Red Baron', had been killed at the controls of a Dr I.

The Red Baron Andrea Press,2006-03 A fascinating historical profile of the German ace, Manfred von Richthofen. Coloured profiles of Red Baron's aircraft. Fokker Dr. I Tomasz J. Kowalski,Marek Rys,2012-01-01 Illustrated color reference guide to the Fokker Dr. IThe Fokker Dr. I was built by Fokker-Flugzeugwerke in 1917 and saw service during World War I. Manfred Von Richthofen, better known as the the Red Baron, is perhaps the most widely recognized Fokker pilot, gaining his final 19 victories in the aircraft before his death in April 1918.This new title in the Legends of Aviation series comes complete with numerous photographs, 3D images and profiles of the World War I fighter aircraft.

Fokker D VII Aces of World War 1 Norman Franks,Greg VanWyngarden,2003-03-25 Designed in a great rush at the end of 1917 just in time to take part in the German standard fighter competition held in January/February 1918, the D VII easily walked away with first prize. As Germanys premier fighter unit, von Richthofens JG I (led by Hermann Göring in the wake of the 'Red Baron's' recent death) received the first examples of the D VII to reach the frontline in late April. Built to oppose the new generation of French SPAD XIIs and British SE 5as and Camel fighters, the D VII was arguably the best all-round fighting scout of the Great War.

In the Footsteps of the Red Baron Michael O'Connor,2005-02-19 Manfred von Richthofen became a fighter pilot on the Western Front in August 1916. By January 1917, Richthofen had shot down fifteen aircraft had been appointed commander of his own unit. He painted the fuselage of his Albatros D-III a bright red and was nicknamed the Red Baron. In June 1917, Richthofen was appointed commander of the German Flying Circus. Made up of Germany's top fighter pilots, this new unit was highly mobile and could be quickly sent to any part of the Western Front where it was most needed. Richthofen and his pilots achieved immediate success during the air war over Ypres during August and September. Manfred von Richthofen was killed on 21st April 1918. Richthofen had destroyed 80 allied aircraft, the highest score of any fighter pilot during the First World War. This book is divided into three sectors of the WWI front line in which von Richthofen operated. Each area is conveniently reached within hours. Airfield sites, memorials and the graves of Manfred's famous victims are described and directions for the battlefield walker are included with information on related museums and historic sites with special association with this most famous of fighter pilots.

The Red Battle Flyer [Illustrated Edition] Freiherr Manfred von Richthofen,2015-11-06 Includes Aerial Warfare During World War I Illustrations Pack with 115 maps, plans, and photos. The famous battle memoirs of the Red Baron. The Red Battle-Flyer, or Red Fighter Pilot, (German: Der Rote Kampfflieger) is a book written by Manfred von Richthofen, the most famous German fighter pilot ace. During his time over the Western Front he achieved eighty air combat victories, making him the top-scoring fighter pilot of the First World War. The book details some of Richthofen’s experiences during World War I. He finished the book in 1917 during a convalescence from wounds, and as it was written during the World War I, it was subjected to war-time censorship. He would fight on wreaking havoc among Allied airmen until 1918 when he was finally downed, the final vanquisher of the famous Red Baron is still disputed but seems that he met his end from ground fire.

Fokker Dr. 1 Mark C. Wilkins,2020-06-28 This book presents the evolution and development of perhaps the most iconic German fighter of WWI--the Fokker Dr. 1 triplane or Dreidecker. The Dr. 1 was born from experiments in cantilever monoplanes and the excellent combat record of the Sopwith triplane, which appeared at the western front at the end of 1916. Only 320 Fokker Dr.1s were built, yet their imprint on aviation history was and is far reaching and enduring--perhaps due to those who flew them. Baron Manfred von Richthofen and his brother Lothar, as well as Werner Voss, Ernst Udet, and many others, all flew the triplane, helping burnish their image in collective memory. This book highlights the design and construction of the legendary Dr. 1, as well as showcasing many flying replicas and where they can be found. Also included are selected museums from around the world where Dr. 1s can currently be seen.
