Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Sun! One in a Billion Stacy McAnulty,2018-10-23 From the author of *Earth! My First 4.54 Billion Years* comes a new picture book about space—this time starring our Sun! Meet Sun: He's a star! And not just any star—he's one in a billion. He lights up our solar system and makes life possible. With characteristic humor and charm, Stacy McAnulty channels the voice of Sun in this next celestial autobiography. Rich with kid-friendly facts and beautifully illustrated, *Sun! One in a Billion* is an equally charming and irresistible companion to *Earth! My First 4.54 Billion Years*.

The Sun Is Kind of a Big Deal Nick Seluk,2018-10-09 A hilarious nonfiction picture book from the New York Times bestselling author and creator of *Awkward Yeti*. Oh hey, guess what? The Sun never stops working to keep things on Earth running smoothly. (That's why it's been Employee of the

Month for 4.5 billion years.) So why does the Sun get to be the center of attention? Because it's our solar system's very own star! This funny and factual picture book from Awkward Yeti creator Nick Seluk explains every part of the Sun's big job: keeping our solar system together, giving Earth day and night, keeping us warm, and more. In fact, the Sun does so much for us that we wouldn't be alive without it. That's kind of a big deal. Each spread features bite-sized text and comic-style art with sidebars sprinkled throughout. Anthropomorphized planets (and Pluto) chime in with commentary as readers learn about the Sun. For instance, Mars found someone's rover. Earth wants the Sun to do more stuff for it. And Jupiter just wants the Sun's autograph. Funny, smart, and accessible, *The Sun Is Kind of a Big Deal* is a must-have!

Making Silent Stones Speak Kathy D. Schick,Nicholas Patrick Toth,1994-02-03 In this dramatic reconstruction of the daily lives of the earliest tool-making humans, two leading anthropologists reveal how the first technologies-- stone, wood, and bone tools-- forever changed the course of human evolution. Drawing on two decades of fieldwork around the world, authors Kathy Schick and Nicholas Toth take readers on an eye-opening journey into humankind's distant past-- traveling from the savannahs of East Africa to the plains of northern China and the mountains of New Guinea-- offering a behind-the-scenes look at the discovery, excavation, and interpretation of early prehistoric sites. Based on the authors' unique mix of archaeology and practical experiments, ranging from making their own stone tools to theorizing about the origins of human intelligence, *Making Silent Stones Speak* brings the latest ideas about human evolution to life.

Girls in the Windows ,2013-11-12 Ormond Gigli had an illustrious career as a photojournalist over the course of some 40 years and took many magnificent photographs-but one photograph has eclipsed all the others. It was a photograph he conceived for himself, without an editorial

assignment. It is the incomparable *Girls in the Windows* of 1960. *Girls in the Windows: And Other Stories* is the first book to survey the work of Ormond Gigli and escorts the viewer behind the façade of that incredible photograph-to understand its genesis and to celebrate its remarkable achievement-in addition to creating a portal into the rest of Gigli's brilliant career. This beautifully illustrated volume showcases Gigli's celebrity and fashion photographs, and includes his innovative work in the worlds of theater, film, and dance, as well as his little-known travel photography and photojournalism. Gigli, a master of photo art direction, orchestrated his photo shoots like an accomplished film director, and his portraits are intimate and revealing as a result, his set work inventive and at times even playful. His engagement with his subjects was unparalleled, among whom are included Sophia Loren, Gina Lollobrigida, Anna Moffo, Anita Ekberg, Marcel Duchamp, Willem de Kooning, John F. Kennedy, Halston, Marlene Dietrich, Leslie Caron, Judy Garland, Liza Minnelli, Barbra Streisand, Laurence Olivier, Alan Bates, Richard Burton, Louis Armstrong, Miles Davis, and many more. Many of these images have not been widely seen since they were first published decades ago. In addition to the photographs, Gigli contributes his personal account of the making of many of the pictures, evoking long-ago encounters that resulted in such timeless images. This handsome volume highlights a significant body of work, captures a vital aspect of the great age of photojournalism, and places in context an iconic image of the postwar era at the height of its prosperity and on the verge of transformation.
