Toot & Puddle: You Are My Sunshine Holly Hobbie,2010-02-27 It's a glorious day in Woodcock Pocket. The sun is shining, the birds are singing . . . and Toot is moping. So, Puddle makes Toot's favorite dessert at dinnertime, takes him out for a little adventure, and even throws a party, but nothing seems to cheer up his friend. Then a big thunderstorm with lots of mud rocks Woodcock Pocket and changes everything. With light-hearted humor and exquisitely detailed watercolor paintings, Holly Hobbie tells the story of two pigs and their enduring friendship.

**Terms and Conditions** R. Sikoryak,2017-03-07 Master satirist tackles the contract everyone agrees to but no one reads “Mischievous, pastiche-heavy artist Robert Sikoryak...upped the difficulty level for his long-term conceptual project: Instead of abridging a book, he lifted the complete text of Apple’s mind-numbing corporate boilerplate, which users must agree to before accessing iTunes, and mashed it up with art invoking more than a century of comics.”—New York Times For his newest project, R.

Sikoryak tackles the monstrously and infamously dense legal document, iTunes Terms and Conditions, the contract everyone agrees to but no one reads. In a word for word 94-page adaptation, Sikoryak hilariously turns the agreement on its head—each page features an avatar of Apple cofounder and legendary visionary Steve Jobs juxtaposed with a different classic strip such as Mort Walker’s Beetle Bailey, or a contemporary graphic novel such as Craig Thompson’s Blankets or Marjane Satrapi’s Persepolis. Adapting the legalese of the iTunes Terms and Conditions into another medium seems like an unfathomable undertaking, yet Sikoryak creates a surprisingly readable document, far different from its original, purely textual incarnation and thus proving the accessibility and flexibility of comics. When Sikoryak parodies Kate Beaton’s Hark A Vagrant peasant comics with Steve Jobs discussing objectionable material or Homer Simpson as Steve Jobs warning of the penalties of copyright infringement, Terms and Conditions serves as a surreal record of our modern digital age where technology competes with enduringly ironclad mediums.

**Interactive Art and Embodiment** Nathaniel Stern, 2013-08-05 What is interactive art? Is this a genre? A medium? An art movement? Must a work be physically active to be classified as such, or do we interact when we sense and make sense? Is a switch-throw or link-click enough - I do this, and that happens - or must subjects and objects be confused over time? Is interaction multiple in its engagements (relational), or a one-to-one reaction (programmed)? Are interactive designs somehow more democratic and individualized than others, or is that merely a commercial strategy to sell products and ideas? This book argues that interactive art frames moving-thinking-feeling as embodiment; the body is addressed as it is formed, and in relation. Interactive installations amplify how the body's inscriptions, meanings, and matters unfold out, while the world's sensations, concepts, and matters enfold in. Interactive artwork creates situations that enhance, disrupt, and alter experience and

action in ways that call attention to our varied relationships with and as both structure and matter. Nathaniel Stern's inspirational book, *Interactive Art and Embodiment*, outlines how new media has the ability to intervene in, and challenge, not only the construction of bodies and identities, but also the ongoing and emergent processes of embodiment, as they happen. It includes immersive descriptions of a significant number of interactive artworks and over 40 colour images. The theorists, artists, practitioners and curators discussed in this text include Brian Massumi, Christiane Paul, Sarah Cook, Beryl Graham, Kelli Fuery, Theodore Watson, William Kentridge, Char Davies, Stelarc, Janet Cardiff, Carlo Zanni, Tero Saarinen, Karen Barad, Daniel Rozin, Richard Schechner, Nicole Ridgway, Rebecca Schneider, Annie Sprinkle, Karen Finley, VALIE EXPORT, The Guerrilla Girls, Tegan Bristow, Brian Knap, Anna Munster, Zach Lieberman, Golan Levin, Simon Penny, Camille Utterback, Jean-Luc Nancy, The Millefiore Effect, Nick Crossley, Mathieu Briand, Scott Snibbe, David Rokeby, José Gil, Erin Manning, Rafael Lozano-Hemmer, and Norah Zuniga Shaw

**Ecological Aesthetics** Nathaniel Stern, 2018-07-03 With this poetic and scholarly collection of stories about art, artists, and their materials, Nathaniel Stern argues that ecology, aesthetics, and ethics are inherently entwined, and together act as the cornerstone for all contemporary arts practices. An ecological approach, says Stern, takes account of agents, processes, thoughts, and relations. Humans, matter, concepts, things, not-yet-things, politics, economics, and industry are all actively shaped in, and as, their interrelation. And aesthetics are a style of, and orientation toward, thought - and thus action. Including dozens of color images, this book narrativizes artists and artworks - ranging from print to installation, bio art to community activism - contextualizing and amplifying our experiences and practices of complex systems and forces, our experiences and practices of thought. Stern, an artist himself, writes with an eco-aesthetic that continually unfurls artful tactics that can also be used in

everyday existence.

*Net.art generator* Cornelia Sollfrank, 2004 The German artist, hacker and cyberfeminist Cornelia Sollfrank gained notoriety with her Net.Art Generator ([www.obn.org/generator](http://www.obn.org/generator)), which allows users to enter a few keystrokes and create a work of art. Sollfrank's real goal is to challenge the concept of authorship in an age where appropriation is as common as the click of a mouse, and this monograph provides a detailed discussion of one of the Net's pioneering artist/theorists.

**Writing About Architecture** Alexandra Lange, 2012-02-29 Extraordinary architecture addresses so much more than mere practical considerations. It inspires and provokes while creating a seamless experience of the physical world for its users. It is the rare writer that can frame the discussion of a building in a way that allows the reader to see it with new eyes. *Writing About Architecture* is a handbook on writing effectively and critically about buildings and cities. Each chapter opens with a reprint of a significant essay written by a renowned architecture critic, followed by a close reading and

discussion of the writer's strategies. Lange offers her own analysis using contemporary examples as well as a checklist of questions at the end of each chapter to help guide the writer. This important addition to the Architecture Briefs series is based on the author's design writing courses at New York University and the School of Visual Arts. Lange also writes a popular online column for Design Observer and has written for Dwell, Metropolis, New York magazine, and The New York Times. Writing About Architecture includes analysis of critical writings by Ada Louise Huxtable, Lewis Mumford, Herbert Muschamp, Michael Sorkin, Charles Moore, Frederick Law Olmsted, and Jane Jacobs. Architects covered include Marcel Breuer, Diller Scofidio + Renfro, Field Operations, Norman Foster, Frank Gehry, Frederick Law Olmsted, SOM, Louis Sullivan, and Frank Lloyd Wright.

**I Like Him, He Likes Her** Phyllis Reynolds Naylor, 2010-05-18 Find a Penny pick it up and all day long you'll have good luck...except, of course, if that Penny is charming and pretty and funny, and the person picking her up just happens to be your boyfriend. Alice McKinley's freshman year is not as "lucky" as she was hoping it would be. But she's is trying to look on the bright side. There are worse

things than being single for a semester... for a school year...for the whole summer.... At least Alice can count on her best friends for support—in theory, anyway. Lately they haven't been all that there-for-her. In fact, it seems like Pam and Liz are suddenly involved in intense, secret conversations whenever Alice is around. Single is starting to feel a whole lot like solo.

*SQM, the Quantified Home* Space Caviar, 2014 The way in which we live is changing under the influence of different factors - be they financial, environment of respective, technological or geopolitical nature, quickly. What was equated with home has change, the home has turned into a Handeslware whose value is measured in Quatdratmetern. 'SQM: The Quantified Home' is less concerned with the house as a physical , protective shell, it presents it as a complex universe of overlapping cultural references, daily rituals, practical needs, unexpressed wishes and aspirations which develop steadily and flow together in an architectural space. The book presents the fundamental changes in the perception of the home, evaluates relevant data, makes assumptions and shows a selection of houses and interiors - from Osama bin Laden's fortress to examples of living in the era of Airbnb. In essays by

architects, designers, artists and theorists will examine how the space in which we live, has become recognisable and yet so foreign. 140 illustrations
