Fairytale Blankets to Crochet Lynne Rowe,2020-05-01 “Explode[s] with cuddle-factor! It doesn’t matter what they’re into—unicorns, wolves, dragons or princesses, one of these hooded blankets will surely suit.” —Inspirations Newsletter Bedtime bookworms will love snuggling up and listening to their favorite story in a cozy hooded blanket. Bring storytime to life as they act out the characters—will they be a goodie or a baddie, Little Red Riding Hood or the wolf? Lynne Rowe’s latest new book has ten fun, fairytale projects to crochet, including a deer, a dragon, a lion and a unicorn. Each blanket can be made in two sizes: for toddlers (age 2 to 4) and for young children (age 5 to 7). Along with crochet techniques, there are suggestions for varying the yarn color to create a different character (changing a polar bear into a brown bear, for example) and you can choose between a rounded or a pointed hood. Lynne has also designed a strip of matching bunting to accompany each project. Every blanket tells a story, with pockets on the sides for snuggly paws and different tails. Perfect for unwinding for a bedtime story and animating the oral

tradition of storytelling—little listeners, as well as their parents, will find themselves enchanted. “There’s nothing quite like wrapping up someone you love in a homemade blanket, and this collection is certain to be loved by little ones and big ones alike!” —Inside Crochet “Bright, colorful and whimsical.” —The Loopy Lamb “We love everything the Lynne designs and this book is no exception to that rule if you ask us, this is probably her most exciting and enjoyable book to date.” —Crochet Now

Maker Camp Delanie Holton-Fessler, 2021-02-23 Classic and innovative hands-on projects for kids ages 3 and up designed to teach both heritage skills and how to think creatively. Handcraft is part of human nature: we build, we create, we innovate. The 20+ projects in this book from an experienced art educator weave a story of human innovation and creativity, from the very beginnings of building shelters in the woods to tinkering with recycled materials. Heritage skills teach children how to be independent and capable makers; fiber and wood projects offer rewarding crafts that also teach planning, preparation, and safe risk taking; and tinkering activities connect the low-tech process of making and doing with innovation. From soap carving and knot tying to building toy cars and junk robots, this book brings the fun of making things with your hands to young kids and links skills of the past with the present. The book also explores how to set up a maker space and teaches foundational workshop practices that can easily be applied to the home studio. Each project offers extensions for different ages and abilities and provides guiding questions to enrich the experience for both the maker (teacher/parent) and the apprentice (child) to encourage and celebrate creative, practical play.

Featured techniques include everything from Coptic to concertina binding, as well as experimental page treatments such as sumi-e ink marbling and wheat paste. Great Pirate Stories Joseph Lewis French, 1922 *Great Pirate Stories* is a collection of extracts of tales of pirates (whether fictional or not - there is no clear indication which are and aren't, you would have to look up each original book for that!). The tales range in dates from as early as 1621 to the 19th Century, which results in the use of a great range of styles of English language (the 1621 account might be a little difficult to read for some due to the more arbitrary use of grammar and spelling of the time). Each extract gives a snippet of a particular encounter with pirates, whether from the pirate's perspective and standpoint or that of their victims or onlookers to the events. Each account is short and whets the appetite for more story before suddenly ending - I'm in half a mind to track down each of the original books for more details. Some accounts are quite intriguing and bring to mind a number of questions about the content (anything from the realism to the accuracy could be questioned down to the motives and what exactly did happen next)... This book does not confine itself to European-based pirates (wherever they then roamed), but also brings out accounts of Chinese, Malay and various other less well-known pirate groups (at least less well-known to me, having done little studies of the topic). Some pirate names are quite familiar though, such as Barbarossa or Morgan. If you have an interest in pirates and pirate stories, this book is a good little gem that'll unearth other gems for you.
