Richard Porter

Films that Work Vinzenz Hediger, Patrick Vonderau, 2009

Industriële films worden gezien als een apart filmgenre van de twintigste eeuw. Ze werden geproduceerd en gesponsord door de overheid en grote bedrijven en moesten vooral aan de wensen van de sponsors voldoen, en niet zo zeer aan die van de filmmakers. In de hoogtijdagen werkten er duizenden mensen aan deze industriële films. Zo zijn er vakbladen en filmfestivals ontstaan door samenwerking met grote bedrijven als Shell en AT & T. Daarnaast hebben belangrijke regisseurs, zoals Buster Keaton, John Grierson en Alain Resnais, aan deze films meegewerkt. Toch lijkt de industriële film geen spoor te hebben achtergelaten in het filmische culturele discours. *Films that Work* is het eerste boek waarin de industriële film en zijn opmerkelijke geschiedenis worden onderzocht.

And On That Bombshell Richard Porter, 2015-10-22 I was Top Gear's script editor for 13 years and all 22 series. I basically used to check spelling and think of stupid gags about The Stig. I also got to hang around with Jeremy Clarkson, Richard Hammond and James May. It didn't feel like something you should get paid for. From the disastrous pilot show of 2002 to the sudden and unexpected ending in 2015, working on Top Gear was quite a rollercoaster ride. We crossed continents, we made space ships, we bobbed across the world's busiest shipping lane in a pick-up truck. We also got chased by an angry mob, repeatedly sparked fury in newspapers, and almost killed one of our presenters. I realised that I had quite a few stories to tell from behind the scenes on the show. I remembered whose daft idea it was to get a dog. I recalled the willfully stupid way in which we decorated our horrible office. I had a sudden flashback to the time a Bolivian drug lord threatened to kill us. I decided I should write down some of these stories. So I have. I hope you like them. And now, a quote from James May: 'Richard Porter has asked me to write a quote for his new book about the ancient history of Top Gear. But

this is a ridiculous request. How can one write a quote? Surely, by definition, a quote must be extracted from a greater body of writing, for the purpose of illustrating or supporting a point in an unrelated work. I cannot write a quote any more than I could film an out-take. 'Porter, like Athens, has lost his marbles.'

RDS, the Radio Data System Dietmar Kopitz, Bev Marks, 1999 Authored by two leading experts in Radio Data System (RDS) technology, this book provides easy access to information on RDS technology, specifications, and implementation in one authoritative reference. The authors, who are key figures in the development of RDS and RDS-TMC technology, use a step-by-step approach to overview the background, techniques, capabilities, and limits of these systems.

The World Encyclopedia of Serial Killers, Volume Four T-Z Susan Hall, 2021-01-05 The 4th volume of this comprehensive work features hundreds of serial killers from Sacramento to Soviet Russia—plus numerous unsolved cases. The World Encyclopedia of Serial Killers is the most complete reference guide on the subject, featuring more than 1,600 entries about the lives and crimes of serial killers from around the world. Defined by the FBI as a person who murders three or more people with a hiatus of weeks or months between murders, the serial killer has presented unique and terrifying challenges to have walked among us since the dawn of time—a fact this extensive record makes chillingly clear. The series concludes with Volume Four, T-Z. Entries include the Terminator Anatoly Yuriyovych Onoprienko; Trailside Killer David Joseph Carpenter; Vampire of Sacramento Richard Trenton Chase; and the Voroshilovgrad Maniac Zaven Almazyran; plus the unsolved cases of the Adelaide Child Murders; the Axeman of New Orleans; the Chillicothe Killer; the Dead Women of Juarez; the Korea Frog Boy Murders; and the Volga Maniac.

Sonic Interaction Design Karmen Franinovic, Stefania Serafin, 2013-03-22 An overview of emerging topics, theories, methods, and practices in sonic interactive design, with a focus on the multisensory aspects of sonic experience. Sound is an integral part of every user experience but a neglected medium in design disciplines. Design of an artifact's sonic qualities is often limited to the shaping of functional, representational, and signaling roles of sound. The interdisciplinary field of sonic interaction design (SID) challenges these prevalent approaches by considering sound as an active medium that can enable novel sensory and social experiences through interactive technologies. This book offers an overview of the emerging SID research, discussing theories, methods, and practices, with a focus on the multisensory aspects of sonic experience. *Sonic Interaction Design* gathers contributions from scholars, artists, and designers working at the intersections of fields ranging from electronic music to cognitive science. They offer both theoretical considerations of key themes and case studies of products and systems created for such contexts as mobile music, sensorimotor learning, rehabilitation, and gaming. The goal is not only to extend the existing research and pedagogical approaches to SID but also to foster domains of practice for sound designers, architects, interaction designers, media artists, product designers, and urban planners. Taken together, the chapters provide a foundation for a still-emerging field, affording a new generation of designers a fresh perspective on interactive sound as a situated and multisensory experience. Contributors Federico Avanzini, Gerold Baier, Stephen Barrass, Olivier Bau, Karin Bijsterveld, Roberto Bresin, Stephen Brewster, Jeremy Coopersotck, Amalia De Gotzen, Stefano Delle Monache, Cumhur Erkut, George Essl, Karmen Franinović, Bruno L. Journalism Ethics at the Crossroads Roger Patching, Martin Hirst, 2021-09-30 This book provides journalism students with an easy-to-read yet theoretically rich guide to the dialectics, contradictions, problems, and promises encapsulated in the term 'journalism ethics'. Offering an overview of a series of crises that have shaken global journalism to its foundations in the last decade, including the coronavirus pandemic, the Black Lives Matter movement, and the 2020 US presidential election, the book explores the structural and ethical problems that shape the journalism industry today. The authors discuss the three principle existential crises that continue to plague the news industry: a failing business model, technological disruption, and growing public mistrust of journalism. Other topics covered include social media ethics, privacy concerns, chequebook journalism, as well as a new analysis of journalism theory that critiques the well-worn tropes of objectivity, the Fourth Estate, freedom of the press, and the marketplace of ideas to develop a sophisticated materialist reimagining of journalism ethics. This is a key text for students of journalism, mass communication, and media ethics, as well as for academics, researchers, and communications professionals interested in contemporary journalism ethics.

Car Suspension and Handling Donald Bastow, Geoffrey

Howard, John P. Whitehead, 2004 Through appendices and diagrams, *Car Suspension and Handling*, Fourth Edition, outlines the purpose and history of vehicle suspension systems, while defining the basic parameters of suspension geometry. In addition, the book delves into human sensitivity to vibration and offers data on durability, tyre background information, steering calculations and suspension calculations. While always recognizing that there are differences in suspension requirements for different classes of vehicles and in various markets of the world for a given vehicle, this book focuses on the suspension and handling of cars or automobiles, as opposed to those characteristics of other types of road vehicles. Engineers in the automotive industry who are involved with handling analysis and design, students seeking more thorough understanding of the fundamental concepts and potential problem areas, and university/college libraries.

Driver Behaviour and Training Dr Lisa Dorn, 2012-10-01 Research on driver behaviour over the past two decades has clearly demonstrated that the goals and motivations a driver brings to the driving task are important determinants for driver behaviour. The objective of the *Driver Behaviour and Training* volumes, and of the conference on which they are based, is to describe and discuss recent advances in the study of this important area. It bridges the gap between practitioners in road safety and theoreticians investigating driving behaviour, from a number of different perspectives and related disciplines. Educating drivers to be safe for life means a shift in focus from simply developing vehicle-handling skills towards ensuring that drivers are aware of how goals and motivations can influence decision-making throughout their driving career. A major focus within this fourth volume is to consider how driver training needs to be adapted in order to raise awareness of how human factors contribute to unsafe driving behaviour. From this it goes on to promote the development of driver education that considers all

the skills that are essential for road safety. The readership will include road safety researchers from a variety of different academic backgrounds, senior practitioners in the field of driver training from regulatory authorities and professional driver training organisations such as the police service, and private and public sector personnel.

Atlas of CT Angiography Gratian Dragoslav Miclaus, Horia Ples, 2014-06-26 This atlas presents normal and pathologic findings observed on CT angiography with 3D reconstruction in a diverse range of clinical applications, including the imaging of cerebral, carotid, thoracic, coronary, abdominal and peripheral vessels. The superb illustrations display the excellent anatomic detail obtained with CT angiography and depict the precise location of affected structures and lesion severity. Careful comparisons between normal imaging features and pathologic appearances will assist the reader in image interpretation and treatment planning and the described cases include some very rare pathologies. In addition, the technical principles of the modality are clearly explained and guidance provided on imaging protocols. This atlas will be of value both to those in training and to more experienced practitioners within not only radiology but also cardiovascular surgery, neurosurgery, cardiology and neurology.

Strategic Management Gregory G. Dess, G. T. Tom Lumpkin, Alan Eisner, 2005 Strategic Management: Text and Cases, 2nd Edition, by Dess/Lumpkin/Eisner is both readable and rigorous - written for today's student. A rocket-ship in its first edition, the revision continues to provide solid treatment of traditional topics in strategic management, as well as contemporary topics like entrepreneurship, knowledge management, and internet strategies. The prestigious author team understands the importance of thorough, modern concepts illustrated by rich, relevant and teachable cases. The new case selections emphasize variety, currency, and familiar company

names. The cases are up-to-date in terms of both financial data and strategic issues. This group of cases gives both instructors and students unparalleled quality and variety. Based on consistent reviewer feedback, these selections combine comprehensive and shorter length cases about well known companies.

Leadership in Europe Heller, Johnny, 1998-02 Although leadership is obviously a topic with global significance, this special issue has a distinctive European flavor. This is partly due to the fact that the contributors and editors hail from five European countries, but even the two chapters that describe major cross-national research covering up to 60 countries, concentrate attention on European issues including eastern countries that only moved into the center of Europe six or seven years ago. The justification for inclusion in this special issue is that each report makes a potentially practical contribution to work and organizational psychologists and those working in organizations in the area of Human Resource Management or Consultancy. European psychology has not yet given leadership anything like the attention it deserves and consequently the contrast with the United States, where this subject is extensively researched, is very noticeable. This special edition may lead to a reassessment of the opportunities and perhaps also act as a stimulus for more applied research to be carried out to engage with the prevalent conditions in Europe. The growth of the European Union and its various harmonization provisions seeks to establish what is often called a 'level playing field' for organizations and this will give leaders in competing enterprises new challenges and new opportunities. Several contributions in the present special issue begin to relate to these developing areas.

International Management: Culture, Strategy and Behavior W/ OLC Card MP Richard M. Hodgetts, Fred Luthans, Jonathan Doh, Jonathan P. Doh, 2005-02-16 As a discipline

of academy inquiry, International Management applies management concepts and techniques to their contexts in firms working in multinational, multicultural environments. Hodgetts' Luthans: International Management was the first mainstream International Management text in the market. Its 6th edition continues to set the standard for International Management texts with its research-based content and its balance between culture, strategy, and behavior. International Management stresses the balanced approach and the synergy/connection between the text's four parts: Environment (3 chapters): Culture (4 chapters), Strategy and Functions (4 chapters) and Organizational Behavior /Human Resource Management (4 chapters).

Online Courtship I. Alev Degim, James Johnson, Tao Fu, 2015-08-18 Computer mediated interpersonal interactions are defining our daily lives as we know it. Studying this phenomenon with various methodologies, across different cultures and traditions is a crucial component in understanding social ties. This book brings together articles that approach online dating from a range of cultural and critical perspectives. The research decodes the level of engagement and manner of approaching online dating in various countries such as France, India, China, Turkey, Cuba, USA and Portugal. Mapping the history of dating and courtship shows the evolution of these practices even before the introduction of the online medium and traces parallels and differences between old and new traditions.

Ask Dr. Mueller Cookie Mueller, 1997 Ask Dr. Mueller captures the glamour and grittiness of Cookie Mueller's life and times. Here are previously unpublished stories - wacky as they are enlightening - along with favorites from Walking Through Clear Water in a Pool Painted Black and other publications. Also the best of Cookie's art columns from Details magazine, and the funniest of her advice columns from the East Village Eye, on everything from homeopathic medicine to how to cut your cocaine

with a healthy substance. This collection is as much an autobiography as it is a map of downtown New York in the early '80s - that moment before Bright Lights, Big City, before the art world exploded, before New York changed into a yuppie metropolis, while it still had a glimmer of bohemian life.

40 Sonnets Don Paterson, 2017-05-02 Originally published in 2015 by Faber and Faber in Great Britain.

Deterritorialisations ... Mark Dorrian, Gillian Rose, 2003 In recent years, landscape has become increasingly recognised as a topic of central importance to a wide variety of disciplines. To a large degree this recognition has been based upon an expanding appreciation of the political aspects of landscape, its ideological character and effects. *Landscapes and Politics* is an innovative cross-disciplinary volume of new writing which brings together, in a strategic and productive encounter, a broad variety of critical work currently being done in this field. With 28 papers and five photo essays. *Landscapes and Politics* presents material by scholars and practitioners from anthropology, archaeology, architecture, art history, cultural studies, English and American literature, film studies, fine art, geography, history, landscape architecture, philosophy, political science, and religious studies. As an important marker of current methodologies, research and practice across these different disciplinary areas *Landscapes and Politics* is an invaluable resource. It will be of interest to all those concerned with current discourses and debates on landscape and its representation.
