

Loaded marquis de Sade,1991-07-04 The 120 Days of Sodom is the Marquis de Sade's masterpiece. A still unsurpassed catalogue of sexual perversions and the first systematic exploration of the psychopathology of sex, it was written during Sade's lengthy imprisonment for sexual deviancy and blasphemy and then lost after the storming of the Bastille during the French Revolution in 1789. Later rediscovered, the manuscript remained unpublished until 1936 and is now introduced by Simone de Beauvoir's landmark essay, 'Must We Burn Sade?' Unique in its enduring capacity to shock and provoke, The 120 Days of Sodom must stand as one of the most controversial books ever written, and a fine example of the Libertine novel, a genre inspired by eroticism and anti-establishmentarianism, that effectively ended with the French Revolution.

The Art of Detection Laurie R. King, 2007-05-29 In this thrilling new crime novel that ingeniously bridges Laurie R. King's Edgar and Creasey Awards-winning Kate Martinelli series and her bestselling series starring Mary Russell, San Francisco homicide detective Kate Martinelli crosses paths with Sherlock Holmes—in a spellbinding dual mystery that could come only from the “intelligent, witty, and complex” mind of New York Times bestselling author Laurie R. King... Kate Martinelli has seen her share of peculiar things as a San Francisco cop, but never anything quite like this: an ornate Victorian sitting room straight out of a Sherlock Holmes story—complete with violin, tobacco-filled Persian slipper, and gunshots in the wallpaper that spell out the initials of the late queen. Philip Gilbert was a true Holmes fanatic, from his antiquated décor to his vintage wardrobe. And no mere fan of fiction's great detective, but a leading expert with a collection of priceless memorabilia—a collection some would kill for. And perhaps someone did: In his collection is a century-old manuscript purportedly written by Holmes himself—a manuscript that eerily echoes details of Gilbert's own murder. Now, with the help of her partner, Al Hawkin, Kate must follow the convoluted trail of a killer—one who may have trained at the feet of the greatest mind of all times.

Philipp Mueller: 120 Bpm , 2021-12 The dawn of Zurich's 1990s techno scene, in photographs, ephemera and testimonials Titled after the number of beats

per minute on a club track, 120 bpm tracks techno's meteoric rise in Switzerland, where it became one of the country's last great youth movements, leaving a massive imprint on the nightlife, clubs and ongoing innovation in electronic dance music to this day. Swiss photographer Philipp Mueller, who has shot for Vogue, GQ and Playboy, covered the dawn of the Swiss techno scene in the early 1990s, in raw photographs of Zurich's first street parades, underground raves and parties--whether backstage in clubs or in the intimacy of private venues--for various magazines. Mueller's photographs are interleaved here with facsimile clippings from rave magazines and fanzines, as well as firsthand accounts from some of the ravers who made the nascent scene.

Underland: A Deep Time Journey Robert Macfarlane,2019-06-04 National Bestseller • New York Times "100 Notable Books of the Year" • NPR "Favorite Books of 2019" • Guardian "100 Best Books of the 21st Century" • Winner of the National Outdoor Book Award From the best-selling, award-winning author of *Landmarks* and *The Old Ways*, a haunting voyage into the planet's past and future. Hailed as the great nature writer of this generation (*Wall Street Journal*), Robert Macfarlane is the celebrated author of books about the intersections of the human and the natural realms. In *Underland*, he delivers his masterpiece: an epic exploration of the Earth's underworlds as they exist in myth, literature, memory, and the land itself. In this highly anticipated sequel to his international bestseller *The Old Ways*, Macfarlane takes us on an extraordinary journey into our relationship with darkness, burial, and what lies beneath the surface of both place and mind. Traveling through "deep time"--the dizzying expanses of geologic time that stretch away from the present--he moves from the birth of the universe to a post-human future, from the prehistoric art of Norwegian sea caves to the blue depths of the Greenland ice cap, from Bronze Age funeral chambers to the catacomb labyrinth below Paris, and from the underground fungal networks through which trees communicate to a deep-sunk "hiding place" where nuclear waste will be stored for 100,000 years to come. Woven through Macfarlane's own travels are the unforgettable stories of descents into the underland made across history by explorers, artists, cavers, divers, mourners, dreamers, and murderers, all of whom have been drawn for different reasons to seek what Cormac McCarthy calls "the awful darkness within the world." Global in its geography and written with great lyricism and power, *Underland* speaks powerfully to our present moment. Taking a deep-time view of our planet, Macfarlane here asks a vital and unsettling question: "Are we being good ancestors to the future Earth?" *Underland* marks a new turn in Macfarlane's long-term mapping of the relations of landscape and the human heart. From its remarkable opening pages to its deeply moving conclusion, it is a journey into wonder, loss, fear, and hope. At once ancient and urgent, this is a book that will change the way you see the world.
