**An A-Z of Pasta** Rachel Roddy, 2021-07-08 Guardian columnist and award-winning food writer Rachel Roddy condenses everything she has learned about Italy's favourite food in a practical, easy-to-use and mouth-watering collection of 100 essential pasta and pasta sauce recipes. Along with the recipes are short essays that weave together the history, culture and the everyday life of pasta shapes from the tip to the toe of Italy. There is pasta made with water, and pasta with egg; shapes made by hand and those rolled a by machine; the long and the short; the rolled and the stretched; the twisted and the stuffed; the fresh and the dried. The A-Z of Pasta tells you how to match pasta shapes with sauces, and how to serve them. The recipes range from the familiar - pesto, ragù and carbonara - to the unfamiliar (but thrilling). This is glorious celebration of pasta from one of the best food writers of our time. SHORTLISTED FOR THE ANDRE SIMONS FOOD & DRINK BOOK AWARDS

**Making Moving Toys and Automata** Robert Race, 2018-10-23 This beautiful book draws on Robert Race's extensive collection of traditional moving toys, looking at the ways the makers have

achieved remarkable and varied results, often with very limited resources. Each chapter begins by looking at the mechanisms and materials used in some of these traditional moving toys, goes on to consider possible variations, and describes how to make a related moving toy. It continues, from this basis, to develop a design for an automaton. The book shows that designing and making these simple but wonderfully satisfying mechanical devices is fun, and that good results can be achieved in many different ways, using a variety of materials, tools and equipment such as wood and wire, card and paper, bamboo, string, tin plate and feathers. It exploits, in a simple way, mechanisms such as levers, linkages, cranks and cams. It explores different ways of moving those mechanisms directly by hand, by springs or falling weights, and by the wind. Beautifully illustrated with 117 colour images.

**Syria's Secret Library** Mike Thomson, 2019-08-20 The remarkable story of a small, makeshift library in the town of Daraya, and the people who found hope and humanity in its books during a four-year siege. Daraya lies on the fringe of Damascus, just southwest of the Syrian capital. Yet for four

years it lived in another world. Besieged by government forces early in the Syrian Civil War, its people were deprived of food, bombarded by heavy artillery, and under the constant fire of snipers. But deep beneath this scene of frightening devastation lay a hidden library. While the streets above echoed with shelling and rifle fire, the secret world below was a haven of books. Long rows of well-thumbed volumes lined almost every wall: bloated editions with grand leather covers, pocket-sized guides to Syrian poetry, and no-nonsense reference books, all arranged in well-ordered lines. But this precious horde was not bought from publishers or loaned by other libraries--they were the books salvaged and scavenged at great personal risk from the doomed city above. The story of this extraordinary place and the people who found purpose and refuge in it is one of hope, human resilience, and above all, the timeless, universal love of literature and the compassion and wisdom it fosters.

Picturesque and Sublime Tim Barringer, T. J. Barringer, Gillian Forrester, Sophie Lynford, Jennifer Raab, Nicholas Robbins, 2018-01-01 Thomas Cole (1801-1848) is widely acknowledged as the founder of American landscape painting. Born in England, Cole emigrated in 1818 to the United States, where he transformed British and continental European traditions to create a distinctive American idiom. He embraced the picturesque, which emphasized touristic pleasures, and the sublime, an aesthetic category rooted in notions of fear and danger. Including striking paintings and a broad range of works on paper, from watercolors to etchings, mezzotints, aquatints, engravings, and lithographs, this book explores the trans-Atlantic context for Cole's oeuvre. These works chart a history of landscape

aesthetics and demonstrate the essential role of prints as agents of artistic transmission. The authors offer new interpretations of work by Cole and the British artists who influenced him, including J.M.W. Turner and John Constable, revealing Cole's debt to artistic traditions as he formulated a profound new category in art. the American sublime.

**Emancipation After Hegel** Todd McGowan, 2019-05-28 Hegel is making a comeback. After the decline of the Marxist Hegelianism that dominated the twentieth century, leading thinkers are rediscovering Hegel's thought as a resource for contemporary politics. What does a notoriously difficult nineteenth-century German philosopher have to offer the present? How should we understand Hegel, and what does understanding Hegel teach us about confronting our most urgent challenges? In this book, Todd McGowan offers us a Hegel for the twenty-first century. Simultaneously an introduction to Hegel and a fundamental reimagining of Hegel's project, *Emancipation After Hegel* presents a radical Hegel who speaks to a world overwhelmed by right-wing populism, authoritarianism, neoliberalism, and economic inequalities. McGowan argues that the revolutionary core of Hegel's thought is contradiction. He reveals that contradiction is inexorable and that we must attempt to sustain it rather than overcoming it or dismissing it as a logical failure. McGowan contends that Hegel's notion of contradiction, when applied to contemporary problems, challenges any assertion of unitary identity as every identity is in tension with itself and dependent on others. An accessible and compelling reinterpretation of an often-misunderstood thinker, this book shows us a way forward to a new politics of emancipation as we reconcile ourselves to the inevitability of contradiction and find solidarity in not belonging.
