**Shakespeare Cats** Susan Herbert,2004-03-02 For this book of cats in costume, Susan Herbert turns from masterpieces of fine art to masterpieces of theater. Painting in her familiar and highly popular style, this imaginative artist presents an irresistible array of well-known characters in the great Shakespearean plays, from the tragic Romeo and Juliet to the mischievous Titania, from the beautiful Cleopatra to the roguish Falstaff. In thirty-two entrancing paintings, Susan Herbert opens up an unsuspected world of Shakespeare interpreted by cats with all their winning ways. Her many devoted admirers will find this collection full of the charm and humor of her earlier books; and newcomers to her art will be surprised and enchanted by the finesse she brings to this portrait gallery of cats in unusual guises. 32 color illustrations.

**Music Scenes** Andy Bennett,Richard A. Peterson,2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hiphop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

**Audio Recorders to Zucchini Seeds** Mark Robison,Lindley Shedd,2017-05-30 This exploration of the range of options for a library of things collection demonstrates what has been implemented successfully and offers practical insights regarding these nontraditional projects, from the development of concepts to the everyday realities of maintaining these collections. What services libraries provide and how they function in their communities is constantly being reconsidered and redefined. One example of this is the trend of experimenting with building circulating collections of nonliterary things—such as tools, seeds, cooking equipment, bicycles, household machinery, and educational materials—by drawing on traditional library functions and strengths of acquisition, organization, and circulation. Audio Recorders to Zucchini Seeds: Building a Library of Things enables you to consider the feasibility of creating a specific type of thing collection in your library and get practical advice about the processes necessary to successfully launch and maintain it, from planning and funding to circulation, promotion, and upkeep. This contributed volume provides a survey of library of things projects within the United States, from both public and academic libraries, offering real-world lessons learned from these early experiments with nontraditional collections. The authors offer practical insights from their projects, from the development of their initial ideas to the everyday realities of maintaining and circulating these collections, including cataloging, space needs, safety concerns, staff training, circulation, marketing, and assessment. The contributed chapters are organized thematically, covering things collections that encompass a wide variety of objects first, followed by collections with a community-building focus (seeds, recreation, tools) and those that serve an educational purpose, such as curriculum centers, children's toys, or collections that support a university curriculum. The last section addresses collections that support media production.

**Original Grin** Ron English,2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations,

toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

**Achtung-Panzer!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
