Extraterrestrial Contacts: the Roswell foil, UFOs, and how they alter our understanding of the modern world Jerry Kroth,2017-07-22

Sacred Corridors Irena Scott,2018-12-21 Dr. Scott has actually walked down the sacred corridors and hidden passageways where UFO studies took place, when she worked in several crucial UFO investigatory agencies. This inside information contains real documents, not the usual 'informants' stories and legends. It includes hidden studies showing that UFOs really exist, interviews with researchers, taking photographs, obtaining documents, leaked information, informants, and much else. Her smoking gun revelations have already attracted much attention including a possible new Roswell witness, accounts about possible Memory Metal and Elroy John Center, the Cordell Hull report, and many others. She has found many additional smoking guns that are reported here, some with even higher credibility, such as evidence that an alloy company had received a debris sample to analyze and its composition. Her exploration of Wright-Patterson AFB includes interviews of top researchers, photographs showing hidden views and possible tunnels and vaults, bodies in crypts, and a visit to its famous Blue Room. She obtained actual documents from Project Blue Book studies, showing what took place, interviews with those involved with the studies, opinions of those at the top about UFOs including Battelle Memorial Institute presidents, and other top researchers. She has handwritten documents of scientist and ufologist Dr. J. Allen Hynek that are spontaneous and let the reader get to know the actual person behind his outside veneer shown in his published works. These tell about his many investigations, his opinions, and even contain information about such people as Neil Armstrong and his possible interest in UFO phenomenon. Scott has delved deeply into the legendary roots of UFO study and often found confirmation. She has worked for the Defense Intelligence Agency, Battelle Memorial Institute, and attended conferences at Wright-Patterson AFB.

The Hynek UFO Report Joel Hynek,2020-01-13 The ultimate guide to Project Blue Book by one of the lead astronomers for the US Air Force program to investigate UFO sightings. Originally released in 1977, this new edition by the world's foremost authority on UFOs distills 12,000 sightings and 140,000 pages of Project Blue Book evidence into a coherent explanation. A US Air Force - sponsored UFO-basher for years, Hynek had completely changed his tune by the late 1960s. Whether you believe in little green men or an official government cover-up policy, The Hynek UFO Report is required reading. Have UFOs really been reported by every nation across the globe? Can all the eyewitness reports simply be fantasy? Are we victims of mass hallucination or just plain lies? Have close encounters actually occurred? Is the government concealing deep secrets at a hidden location? The Hynek UFO Report is rational, logical, and realistic. It is for anyone interested in UFOs, the possibility of extraterrestrial life, and the role of the US government in hiding the truth from the public.

Roswell Thomas J. Carey,Donald R. Schmitt,2020-06-20 “[The authors] have, like each whistleblower before them, paid a price for their . . . amplification of the truth. . . . The most profound event in human history.” —Joseph G. Buchman, Ph.D, moderator for the Citizen Hearing on Disclosure Two of the world's leading investigators declare definitively that the Roswell Incident happened and present their closing arguments. For more than seventy years, the crash at Roswell and its ensuing controversies and cover-ups have been investigated. Yet despite continually mounting evidence, there are still disbelievers. Roswell: The Ultimate Cold Case is Carey and Schmitt's final and commanding word on the case in which they declare victory once and for all. The government has changed their official story on Roswell more than a dozen times, but the witnesses have not recanted. The evidence has not gone away. And won't go away. The Roswell Incident is the most hotly debated and investigated UFO crash in history with seemingly endless evidence, and eyewitnesses coming forward even years later. Finally, late in life people feel safe enough or feel duty bound to reveal what they know, saw, and heard. Roswell: The Ultimate Cold Case will bring all new exclusive eye witness testimonies to light as well as cover the: Connection of astronauts Edgar Mitchell and Neil Armstrong to Roswell. Connection of Clinton, Carter, Goldwater, Schiff, and Richardson to Roswell. First time artist conception of impact site with craft and bodies based on firsthand testimony. First time full-size model of crash survivor based on eyewitness testimony. And more eyewitness corroboration. “There is no one on this planet who knows more about the Roswell incident than these two guys.” —Larry Landsman, director of special projects for the Syfy Channel

Alien Interview Lawrence R. Spencer,2008-01-01 The content of this book is the letter, Top Secret interview transcripts and personal notes received from the late Matilda O'Donnell MacElroy, an Army Air Force nurse who stationed at the Roswell Army Air Field 509th Bomb Group. Her letter asserts that this material is based on a series of interviews she conducted with an extraterrestrial being as part of her official duty as a nurse in the U.S. Army Air Force. During July and August she interviewed a saucer pilot who crashed near Roswell, New Mexico on July 8th, 1947. The being identified itself as an officer, pilot and engineer of The Domain Expeditionary Force, a race of beings who are using the asteroid belt in our solar system as a intergalactic base of operations.

The Chinese Roswell Hartwig Hausdorf,1998 Like his predecessor, Heinrich Harrer, who spent seven years in Tibet, Hartwig Hausdorf has ventured, virtually on foot, over many of the sacred places of the Far East. But his aim has been not to discover his own soul, but to uncover tell tale signs of an Alien Mind which may have passed that way millennia ago, and may be passing by again. He has sought out the fabled, forbidden 1000-foot White Pyramid of Xian. In so doing, he has stumbled upon the key to the ancient Chinese dream of material immortality, a dream inspired by Alien Mind, and a key hidden in the fabulous, mercury-filled tomb chamber of the first emperor of China, Shi Huangdi. A tomb chamber the excavation of which the Chinese government has kept secret from the West. He has unearthed new facts about the mysterious stone disks of Bayan Kara Ula, which some believe tell the story of a forced alien landing 12,000 years ago.

Inside the Real Area 51 Thomas J. Carey,Donald R. Schmitt,2013-08-20 The true nature of what actually crashed in Roswell, New Mexico, in 1947 remains classified. Only a select few have ever had access to the truth about what became known as Area 51. But what happened to the remnants of that crash is shrouded in even greater mystery. What began in the high desert of New Mexico ended at Wright-Patterson, an ultra top-secret Air Force base in Dayton, Ohio. The physical evidence of extraterrestrial visitation was buried deep within this nuclear stronghold. How tragic that such seismic news should be kept from the people of the world...pieces of history, now quickly dwindling into oblivion as the last of the secret-keepers passes on. In spite of its rich history of military service to our nation, Wright-Patterson also stands as the secret tomb of one of the greatest occurrences in recorded history. But be prepared...the real Area 51--Wright-Patterson's vault--is about to be opened.

The Resonance of Unseen Things Susan Lepselter,2016-03-03 The Resonance of Unseen Things offers an ethnographic meditation on the “uncanny” persistence and cultural freight of conspiracy theory. The project is a reading of conspiracy theory as an index of a certain strain of late 20th-century American despondency and malaise, especially as understood by people experiencing downward social mobility. Written by a cultural anthropologist with a literary background, this deeply interdisciplinary book focuses on the enduring American preoccupation with captivity in a rapidly transforming world. Captivity is a trope that appears in both ordinary and fantastic iterations here, and Susan Lepselter shows how multiple troubled histories—of race, class, gender, and power—become compressed into stories of uncanny memory. “We really don’t have anything like this in terms of a focused, sympathetic, open-minded ethnographic study of UFO experiencers. . . . The author’s semiotic approach to the paranormal is immensely productive, positive, and, above all, resonant with what actually happens in history.” —Jeffrey J. Kripal, J. Newton Rayzor Professor of Religion, Rice University “Lepselter relates a weave of intimate alien sensibilities in out-of-the-way places which are surprisingly, profoundly, close to home. Readers can expect to share her experience of contact with complex logics of feeling, and to do so in a contemporary America they may have thought they understood.” —Debbora Battaglia, Mount Holyoke College “An original and beautifully written study of contemporary American cultural poetics. . . . The book convincingly brings into relief the anxieties of those at the margins of American economic and civic life, their perceptions of state power, and the narrative continuities that bond them to histories of violence and expansion in the American West.” —Deirdre de la Cruz, University of Michigan

Alien Interview - Readers Edition Lawrence R. Spencer,2010-04-07 The Readers Edition is a simplified version of the book, ALIEN INTERVIEW. It does NOT include FOOTNOTES, INDEX or TABLE OF CONTENTS. Only the letters, personal notes and copies of top secret government interview transcripts from Roswell, N.M.. The interviews were conducted with the pilot of a crashed UFO at the US Army Air Force Base in July and August of 1947 under government direction by Flight Nurse Matilda O'Donnell MacElroy. (deceased)

Encounter in Rendlesham Forest Nick Pope,John Burroughs,Jim Penniston,2014-04-15 An in-depth look at the Rendlesham Forest UFO Incident includes coverage of its 1980 tracking by military radar and the experiences of witnesses who came in contact with the landed object's hull. 40,000 first printing.

The Day After Roswell Philip Corso,2012-12-11 Since 1947, the mysterious crash of an unidentified aircraft at Roswell, New Mexico, has fueled a firestorm of speculation and controversy with no conclusive evidence of its extraterrestrial origin -- until now. Colonel Philip J. Corso (Ret.), a member of President Eisenhower's National Security Council and former head of the Foreign Technology Desk at the U.S. Army's Research & Development department, has come forward to tell the whole explosive story. Backed by documents newly declassified through the Freedom of Information Act, Colonel Corso reveals for the first time his personal stewardship of alien artifacts from the crash, and discloses the U.S. government's astonishing role in the Roswell incident: what was found, the cover-up, and how these alien artifacts changed the course of 20th century history.

Project Beta Greg Bishop,2005-02-08 The shocking true story of the United States government's quest to hide the reality of extraterrestrial contact, even at the cost of its citizens. In 1978, Paul Bennewitz, an electrical physicist living in Albuquerque, New Mexico, became convinced that the strange lights he saw hovering in the night sky were extraterrestrial. He reached out to newspapers, senators, and even the president before anyone responded. Air Force investigators listened to his story, as did Bill Moore, the author of the first book on the infamous Roswell UFO incident. Unbeknownst to Bennewitz, Moore was hired by a group of intelligence agents to keep tabs on Bennewitz while the Air Force ran a psychological profile and disinformation campaign on the unsuspecting physicist. In return, Air Force Intelligence would let Moore in on classified UFO material. What follows is a scandalous true tale of disinformation, corruption, and exploitation, all at the hands of the United States intelligence community.

Roswell Incident Charles Berlitz,William L. Moore,1997 What are the facts regarding what may have been the biggest cover-up of all time? What really happened at Roswell-- and who saw it? What is the official government story on it? What does it look like to you? Judge for yourself, after reading the witness accounts and censored documents.

Alien Intrusion Gary Bates,2004 Most people at one time or another have probably been curious to know, What could account for all of those strange objects in the sky that many credible witnesses see? Or, what about the modern mystery of alien abductions and stories of visitations by beings claiming to be from other planets or star systems? Are aliens really making contact with human beings? Is it important anyway? At last, an easy-to-understand book traces the history of this strange phenomenon utilizing the research of many of the heavyweights of UFOlogy -- and it's been making sense to a lot of people. This is a book for everyone. The author's research and conclusions will surprise you and challenge your thinking, not just about UFOs, but about the nature of life itself. This is a landmark volume that brings together the most important evidences, coming to conclusions far more sinister -- yet profound -- than most could imagine. - Publisher.

The Myth and Mystery of UFOs Thomas E. Bullard,2016-10-17 When United Airlines workers reported a UFO at O'Hare Airport in November 2006, it was met with the typical denials and hush-up that usually accompany such sightings. But when a related story broke the record for hits at the Chicago Tribune's website, it was clear that such unexplained objects continued to occupy the minds of fascinated readers. Why, wonders Thomas Bullard, don't such persistent sightings command more urgent attention from scientists, scholars, and mainstream journalists? The answer, in part, lies in Bullard's wide-ranging magisterial survey of the mysterious, frustrating, and ever-evolving phenomenon that refuses to go away and our collective efforts to understand it. In his trailblazing book, Bullard views those efforts through the lens of mythmaking, discovering what UFO accounts tell us about ourselves, our beliefs, and the possibility of visitors from beyond. Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien-and how it views relentless official denial as a part of conspiracy to hide the truth. He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos. Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions, magically advanced technologies, governmental conspiracies, varieties of religious salvation, apocalyptic fears, and other paranormal experiences. Along the way, Bullard investigates how UFOs have inspired books, movies, and television series; blurred the boundaries between science, science fiction, and religion; and crowded the Internet with websites and discussion groups. From the patches of this crazy quilt, he posits evidence that a genuine phenomenon seems to exist outside the myth. Enormously erudite and endlessly engaging, Bullard's study is a sky watcher's guide to the studies, stories, and debates that this elusive subject has inspired. It shows that, despite all the competing interests and errors clouding the subject, there is substance beneath the clutter, a genuinely mysterious phenomenon that deserves attention as more than a myth.
