The Challenge Alan Drake,2023-12-28 God invites you to cast your cares on Him, because He

cares for you (1 Peter 5:7). It is natural to seek first to meet our own needs and the needs of our family members, but God invites us to make an exchange. He invites us to cast our concerns on Him, and He promises to care for us better than we could take care of ourselves. In exchange, He desires for us to take on His concerns, His priorities, and seek His Kingdom first.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Sun! One in a Billion Stacy McAnulty, 2018-10-23 From the author of *Earth! My First 4.54 Billion Years* comes a new picture book about space— this time starring our Sun! Meet Sun: He's a star! And not just any star—he's one in a billion. He lights up our solar system and makes life possible. With characteristic humor and charm, Stacy McAnulty channels the voice of Sun in this next celestial autobiography. Rich with kid-friendly facts and beautifully illustrated, *Sun! One in a Billion* is an equally charming and irresistible companion to *Earth! My First 4.54 Billion Years*.

The Sun Is Kind of a Big Deal Nick Seluk, 2018-10-09 A hilarious nonfiction picture book from the New York Times bestselling author and creator of *Awkward Yeti*. Oh hey, guess what? The Sun never stops working to keep things on Earth running smoothly. (That's why it's been Employee of the Month for 4.5 billion years.) So why does the Sun get to be the center of attention? Because it's our solar system's very own star! This funny and factual picture book from *Awkward Yeti* creator Nick Seluk explains every part of the Sun's big job: keeping our solar system together, giving Earth day and night, keeping us warm, and more. In fact, the Sun does so much for us that we wouldn't be alive without it. That's kind of a big deal. Each spread features bite-sized text and comic-style art with sidebars sprinkled throughout. Anthropomorphized planets (and Pluto) chime in with commentary as readers learn about the Sun. For instance, Mars found someone's rover. Earth wants the Sun to do more stuff for it. And Jupiter just wants the Sun's autograph. Funny, smart, and accessible, *The Sun Is Kind of a Big Deal* is a must-have!

A History of Cornell Morris Bishop, 2014-10-15 Cornell University is fortunate to have as its historian a man of Morris Bishop's talents and devotion. As an accurate record and a work of art possessing form and personality, his book at once conveys the unique character of the early university—reflected in its vigorous founder, its first scholarly president, a brilliant and eccentric faculty, the hardy student body, and, sometimes unfortunately, its early architecture—and establishes Cornell's wider significance as a case history in the development of higher education. Cornell began in rebellion against the obscurantism of college education a century ago. Its record, claims the author, makes a social and cultural history of modern America. This story will undoubtedly entrance Cornellians; it will also charm a wider public. Dr. Allan Nevins, historian, wrote: I anticipated that this book would meet the sternest tests of scholarship, insight, and literary finish. I find that it not only does this, but that it has other high merits. It shows grasp of ideas and forces. It is graphic in its presentation of character and idiosyncrasy. It lights up its story by a delightful play of humor, felicitously expressed. Its emphasis on fundamentals, without pomposity or platitude, is refreshing. Perhaps most important of all, it

achieves one goal that in the history of a living university is both extremely difficult and extremely valuable: it recreates the changing atmosphere of time and place. It is written, very plainly, by a man who has known and loved Cornell and Ithaca for a long time, who has steeped himself in the traditions and spirit of the institution, and who possesses the enthusiasm and skill to convey his understanding of these intangibles to the reader. The distinct personalities of Ezra Cornell and first president Andrew Dickson White dominate the early chapters. For a vignette of the founder, see Bishop's description of his first buildings (Cascadilla, Morrill, McGraw, White, Sibley): At best, he writes, they embody the character of Ezra Cornell, grim, gray, sturdy, and economical. To the English historian, James Anthony Froude, Mr. Cornell was the most surprising and venerable object I have seen in America. The first faculty, chosen by President White, reflected his character: his idealism, his faith in social emancipation by education, his dislike of dogmatism, confinement, and inherited orthodoxy; while the romantic upstate gothic architecture of such buildings as the President's house (now Andrew D. White Center for the Humanities), Sage Chapel, and Franklin Hall may be said to portray the taste and Soul of Andrew Dickson White. Other memorable characters are Louis Fuertes, the beloved naturalist; his student, Hugh Troy, who once borrowed Fuertes' rhinoceros-foot wastebasket for illicit if hilarious purposes; the more noteworthy and the more eccentric among the faculty of succeeding presidential eras; and of course Napoleon, the campus dog, whose talent for hailing streetcars brought him home safely—and alone—from the Penn game. The humor in *A History of Cornell* is at times kindly, at times caustic, and always illuminating.

Vocal Recall Neil Ross, 2018-06-17 How does a kid who survives the rain of V-2 rockets on London in the waning years of World War II, end up in Hollywood announcing the Diamond Jubilee of Oscar? Veteran Hollywood voice actor Neil Ross tells the amazing story of his life, and fifty-plus year career, in two exciting, highly competitive professions in his autobiography: *Vocal Recall; A Life in Radio and Voiceovers* Driving cross-country to New York at 17, Neil learns how to survive in the Big Apple on \$38.06 a week, and then lives the life of a radio gypsy: Arizona, Salt Lake City, Honolulu and Saigon, where, as a Navy Journalist, Neil reports on one of the major disasters of the Viet Nam War. Then on to San Diego, San Francisco and finally, Hollywood. Neil tells of his struggle breaking into voiceovers, one of the most competitive fields in the industry. Then describes in fascinating detail what it was like to work on iconic 80's and 90's TV cartoon shows including: Transformers, G.I. Joe, Voltron and Spider-Man. As well as a slew of popular video games including: Metal Gear Solid, Call of Duty, Command and Conquer, Doom 3 and Mass Effect. Neil spins the tale of his 30-plus years in

voiceovers including major motion pictures and television shows, and encounters with Robert Redford, Warren Beatty, Steven Spielberg and Jerry Seinfeld. In addition to announcing the Diamond Jubilee of Oscar, Neil also works on the Primetime Emmy Awards and seven AFI Life Achievement Award telecasts. He describes in vivid detail the adrenaline pumping experience of working on live, celebrity-studded events. As Neil's story unfolds, we meet an amazing cast of characters: from Gene Autry to Jim Morrison, Little Richard to Jonathan Winters. Neil also shares his experiences with the many colorful, talented voice actors and directors he's worked with over the years, and shares stories of hilarious in-studio hijinks. Readers curious about the life of a top 40 radio DJ in the heyday of that format, fans of the many cartoon shows and games Neil has worked on, and the many beloved characters he's voiced, and folks dying to know the inside scoop on the golden age of the voiceover business will want to read this fascinating story.

The Checkout Girl Susan Zettell, 2008 It's 1970, and the optimism of Trudeaumania is starting to give way to fears of wage and price controls. In Varnum, Ontario, where the smell of industry is the smell of money, a lot of that money's heading south, just like Bobby Orr. *The Checkout Girl* is the story of Kathy Rausch, whose life these days is something that just seems to happen to her. After sneaking out on her boyfriend in Vancouver, Kathy moves back to Varnum and hides out in the basement of her high school buddy, Penny Lehman, in a room she shares with Penny's skittish boa constrictor, Freddie. When Kathy isn't checking out groceries, she practices hockey drills. And when she isn't practicing, she's warding off advances from fellow basement dweller Little Barry Bender, ignoring her well-meaning mother Connie, hanging out with her best friend, champion baton twirler Darlyn Smola, and dealing a bit of marijuana for Penny's husband Pete. But when Kathy stumbles upon a brutal murder she is finally driven to put her hockey stick where her heart is: on the ice.
