The Cutty Sark Pocket Manual National Maritime Museum,Arron Hewett,Louise Macfarlane,2018-02-22 Constructed on the Clyde in 1869 for the Jock Willis Shipping Line, Cutty Sark was one of the last tea clippers to be built and one of the fastest. Cutty Sark spent just a few years on the tea routes before the opening of the Suez Canal and the increasing use of steamships made clippers unprofitable on shorter routes. It was turned to the trade in wool from Australia, where for ten years she held the record time for a journey to Britain. After finishing her time in service as cargo ship, and then a training and cadet ship, it was transferred to permanent dry dock at Greenwich, London, for public display. This handy and illuminating pocket manual collates original documents to tell the fascinating story of how the legendary Cutty Sark was commissioned, her design and building, life on board and her notable journeys.

**The Golden Age of Sail** Amy Handy,1996 With 90 illustrations, this tells the history and romance of these tall ships which conquered the seas and changed the face of the world.

**Sailing and Small Craft Down the Ages** ,1957

**Cutty Sark** Eric Kentley,2019-01-10 An updated and expanded edition to celebrate the 150th anniversary of this iconic ship. The narrative spans her construction at Dumbarton in 1869; her famous tea voyages as well as those with other cargoes; her career under a Portuguese flag; her subsequent return to the Thames, Greenwich; and the dramatic fire, painstaking restoration and glorious reopening in April 2012. The book has been developed from the outset with the Cutty Sark Trust and takes the form of a chronological career narrative but also presents detailed features on crew accounts, log entries, pieces on seamanship, ports and cargoes and broader tall ship culture as well as an opportunity to focus on artifacts and the fittings of the ship. This unique opportunity allows the first publication of specially commissioned photography created as part of, and subsequent to, the clipper's restoration

as well as the findings of resulting research.

A Short History of the Sailing Ship Romola Anderson,R. C. Anderson,2012-06-11 Amply illustrated book traces evolution of the sailing ship over the course of 6,000 years – from vessels of ancient Egypt to full-rigged clipper ships of the 19th century. 20 halftones and 134 figures.

**The Cutty Sark and Thermopylae Era of Sail** Cyril L. Hume,C. W. Hume,Malcolm C. Armstrong,1987 The Cutty Sark and Thermopylae are well known clipper ships and in this book the reader will become acquainted with equally important ships such as Marco Polo and Samuel Plimsoll and others. There is even the story of the Plimsoll Line and the dubious origin of that name.
