Howard Irving Chapelle

The Great Days of Sail Andrew Shewan,1927

Clipper Ships and the Golden Age of Sail Sam Jefferson,2014-10-09 In the era of commercial sail, clipper ships were the ultimate expression of speed and grace. Racing out to the gold fields of America and Australia, and breaking speed records carrying tea back from China, the ships combined beauty with breathtaking performance. With over 200 gorgeous paintings and illustrations, and thrilling descriptions of the adventures and races on the water, this beautiful book brings the era vividly to life. Chapters include: The origins of the clippers - from the gold rush to the tea trade A hell ship voyage with 'Bully' Waterman, one of the most successful and notorious captains of the era Marco Polo, the fastest ship in the world - her rise to prominence and subsequent decline Mary Patten's battle with Cape Horn - a lady captain takes charge in a very male world Mutiny aboard the 'wild boat of the Atlantic' The great China tea race of 1866 - an amazingly close race across the world, only decided in the final few miles The Sir Lancelot defies the odds - her eccentric captains and rivalry with the legendary Thermopylae The Cutty Sark's longest voyage First-hand accounts, newspaper reports and log entries add fascinating eyewitness detail, whilst the stunning images show how the designs of these thoroughbreds developed over the years. A wonderful read and worthy celebration of these racehorses of the sea.

China Tea Clippers George Frederick Campbell,1974-01-01 An intimately detailed description of the great sailing ships designed for fast passages. The drawings elucidate the architecture and handling. An International Marine book for sailors, modelers, and commercial and marine historians. Annotation copyrighted by Book News, Inc., Portland, OR

Cutty Sark Eric Kentley,2019-01-10 An updated and expanded edition to celebrate the 150th anniversary of this iconic ship. The narrative spans her construction at Dumbarton in 1869; her famous tea voyages as well as those with other cargoes; her career under a Portuguese flag; her subsequent return to the Thames, Greenwich; and the dramatic fire, painstaking restoration and glorious reopening in April 2012. The book has been developed from the outset with the Cutty Sark Trust and takes the form of a chronological career narrative but also presents detailed features on crew accounts, log entries, pieces on seamanship, ports and cargoes and broader tall ship culture as well as an opportunity to focus on artifacts and the fittings of the ship. This unique opportunity allows the first publication of specially commissioned photography created as part of, and subsequent to, the clipper's restoration as well as the findings of resulting research.

The American Clipper Ship, 1845–1920 Glenn A. Knoblock,2014-01-23 This work offers a new and comprehensive account of the fastest and most beautiful sailing ships ever built. It explores the quest for speed on the seas from the early 1800s through the fast-paced times of the 1850s spurred on by the California Gold Rush of 1849. Not only are the career details of such noted ships as the Flying Cloud and Challenge discussed in detail, but they are also put in context with the times in which they operated. Their builders in East Coast states from Maine to Florida are discussed in detail, as are the men, and a woman in one instance, who commanded and manned these ships. The book documents the roles that owners and shipping agents played, what kinds of cargo the ships carried worldwide and the unusual trades in which they participated.
