The Unbroken Thread Kathryn Klein,1997-01-01 Housed in the former 16th-century convent of Santo Domingo church, now the Regional Museum of Oaxaca, Mexico, is an important collection of textiles representing the area's indigenous cultures. The collection includes a wealth of exquisitely made traditional weavings, many that are now considered rare. The Unbroken Thread: Conserving the Textile Traditions of Oaxaca details a joint project of the Getty Conservation Institute and the National Institute of Anthropology and History (INAH) of Mexico to conserve the collection and to document current use of textile traditions in daily life and ceremony. The book contains 145 color photographs of the valuable textiles in the collection, as well as images of local weavers and project participants at work. Subjects include anthropological research, ancient and present-day weaving techniques, analyses of natural dyestuffs, and discussions of the ethical and practical considerations involved in working in Latin America to conserve the materials and practices of living cultures.

Paper Cadavers Kirsten Weld,2014-02-26 In Paper Cadavers, an inside account of the astonishing discovery and rescue of Guatemala's secret police archives, Kirsten Weld probes the politics of memory, the wages of the Cold War, and the stakes of historical knowledge production. After Guatemala's bloody thirty-six years of civil war (1960–1996), silence and impunity reigned. That is, until 2005, when human rights investigators stumbled on the archives of the country's National Police, which, at 75 million pages, proved to be the largest trove of secret state records ever found in Latin America. The unearthing of the archives renewed fierce debates about history, memory, and justice. In Paper Cadavers, Weld explores Guatemala's struggles to manage this avalanche of evidence of past war crimes, providing a firsthand look at how postwar justice activists worked to reconfigure terror archives into implements of social change. Tracing the history of the police files as they were transformed from weapons of counterinsurgency into tools for post-conflict reckoning, Weld sheds light on the country's fraught transition from war to an uneasy peace, reflecting on how societies forget and remember political violence.

Construction and Building Research Carmen Llinares-Millán,Igor Fernández-Plazaola,Francisco Hidalgo-Delgado,María Montserrat Martínez-Valenzuela,Francisco Javier Medina-Ramón,Inmaculada Oliver-Faubel,Isabel Rodríguez-Abad,Andrea Salandin,Rafael Sánchez-Grandia,Isabel Tort-Ausina,2014-01-31 Many areas of knowledge converge in the building industry and therefore research in this field necessarily involves an interdisciplinary approach. Effective research requires strong relation between a broad variety of scientific and technological domains and more conventional construction or craft processes, while also considering advanced management processes, where all the main actors permanently interact. This publication takes an interdisciplinary approach grouping various studies on the building industry chosen from among the works presented for the 2nd International Conference on Construction and Building Research. The papers examine aspects of materials and building systems; construction technology; energy and sustainability; construction management; heritage, refurbishment and conservation. The information contained within these pages may be of interest to researchers and practitioners in construction and building activities from the academic sphere, as well as public and private sectors.

The Mandaean Book of John Charles G. Häberl,James F. McGrath,2019-11-18 Given the degree of popular fascination with Gnostic religions, it is surprising how few pay attention to the one such religion that has survived from antiquity until the present day: Mandaism. Mandaeans, who esteem John the Baptist as the most famous adherent to their religion, have in our time found themselves driven from their historic homelands by war and oppression. Today, they are a community in crisis, but they provide us with unparalleled access to a library of ancient Gnostic scriptures, as part of the living tradition that has sustained them across the centuries. Gnostic texts such as these have caught popular interest in recent times, as traditional assumptions about the original forms and cultural contexts of related religious traditions, such as Judaism, Christianity, and Islam, have been called into question. However, we can learn only so much from texts in isolation from their own contexts. Mandaean literature uniquely allows us not only to increase our knowledge about Gnosticism, and by extension all these other religions, but also to observe the relationship between Gnostic texts, rituals, beliefs, and living practices, both historically and in the present day.

A devotional collect is provided in both Rite I and Rite II language and a set of indexing “tags” suggests how the entry fits into the broader scope of Christian history and delineates the Christian gifts and virtues that may have inspired the person’s ministries. This edition is printed on a special synthetic paper coated with a unique clay coating which combines the advantages of paper with the durability of plastic. This paper looks and feels like paper but stands up to water, weather, grease, chemicals and resists tearing in both directions.

Fresh Fruit, Broken Bodies Seth M. Holmes,2013-06-19 An intimate examination of the everyday lives and suffering of Mexican migrants and indigenous people in our contemporary food system. An anthropologist and MD in the mold of Paul Farmer and Didier Fassin, Seth Holmes shows how market forces, anti-immigrant sentiment, and racism undermine health and healthcare. Holmes’s material is visceral and powerful. He trekked with his companions illegally through the desert into Arizona and was jailed with them before they were deported. He lived with indigenous families in the mountains of Oaxaca and in farm labor camps in the U.S., planted and harvested corn, picked strawberries, and accompanied sick workers to clinics and hospitals. This “embodied anthropology” deepens our theoretical understanding of how health equity is undermined by a normalization of migrant suffering, the natural endpoint of systemic dehumanization, exploitation, and oppression that clouds any sense of empathy for “invisible workers.” Fresh Fruit, Broken Bodies is far more than an ethnography or supplementary labor studies text; Holmes tells the stories of food production workers from as close to the ground as possible, revealing often theoretically-discussed social inequalities as irreparable bodily damage done. This book substantiates the suffering of those facing the danger of crossing the border, threatened with deportation, or otherwise caught up in the structural violence of a system promising work but endangering or ignoring the human rights and health of its workers. All of the book award money and royalties from the sales of this book have been donated to farm worker unions, farm worker organizations and farm worker projects in consultation with farm workers who appear in the book.

Teresa of Avila Mirabai Starr,2008-07-08 Teresa of Ávila (1515–1582) is one of the most beloved of the Catholic saints. In 1562, during the era of the Spanish Inquisition, Teresa sat down to write an account of the mystical experiences for which she had become famous. The result was this book, one of the great classics of spiritual autobiography. With this fresh translation of The Book of My Life, Mirabai Starr brings the inimitable Spanish mystic to life for a new generation, with contemporary English that mirrors Teresa's own earthy, vernacular Spanish, and that presents us with—four centuries after Teresa's death—someone we feel we know: a woman intoxicated with God yet filled with an overflowing love for the world.
