Voyage of the Sable Venus Robin Coste Lewis,2017-11-21 This

National Book Award-winning debut poetry collection is a powerfully evocative (The New York Review of Books) meditation on the black female figure through time. Robin Coste Lewis's electrifying collection is a triptych that begins and ends with lyric poems meditating on the roles desire and race play in the construction of the self. In the center of the collection is the title poem, *Voyage of the Sable Venus*, an amazing narrative made up entirely of titles of artworks from ancient times to the present—titles that feature or in some way comment on the black female figure in Western art. Bracketed by Lewis's own autobiographical poems, *Voyage* is a tender and shocking meditation on the fragmentary mysteries of stereotype, juxtaposing our names for things with what we actually see and know. A new understanding of biography and the self, this collection questions just where, historically, do ideas about the black female figure truly begin—five hundred years ago, five thousand, or even longer? And what role did art play in this ancient, often heinous story? Here we meet a poet who adores her culture and the beauty to be found within it. Yet she is also a cultural critic alert to the nuances of race and desire—how they define us all, including her own sometimes painful history. Lewis's book is a thrilling aesthetic anthem to the complexity of race—a full embrace of its pleasure and horror, in equal parts.

Thinking in Systems Donella Meadows, 2008-12-03 The classic book on systems thinking—with more than half a million copies sold worldwide! This is a fabulous book... This book opened my mind and reshaped the way I think about investing.—Forbes Thinking in Systems is required reading for anyone hoping to run a successful company, community, or country. Learning how to think in systems is now part of change-agent literacy. And this is the best book of its kind.—Hunter Lovins In the years following her role as the lead author of the international bestseller, *Limits to Growth*—the first book to show the consequences of unchecked growth on a finite planet—Donella Meadows remained a pioneer of environmental and social analysis until her untimely death in 2001. *Thinking in Systems* is a concise and crucial book offering insight for problem solving on scales ranging from the personal to the global. Edited by the Sustainability Institute's Diana Wright, this essential primer brings systems thinking out of the realm of computers and equations and into the tangible world, showing readers how to develop the systems-thinking skills that thought leaders across the globe consider critical for 21st-century life. Some of the biggest problems facing the world—war, hunger, poverty, and environmental degradation—are essentially system failures. They cannot be solved by fixing one piece in isolation from the others, because even seemingly minor details have enormous power to undermine the best efforts of too-narrow thinking. While readers will learn the conceptual tools and methods of systems thinking, the heart of the book is grander than methodology. Donella Meadows was known as much for nurturing positive outcomes as she was for delving into the science behind global dilemmas. She reminds readers to pay attention to what is important, not just what is quantifiable, to stay humble, and to stay a learner. In a

world growing ever more complicated, crowded, and interdependent, Thinking in Systems helps readers avoid confusion and helplessness, the first step toward finding proactive and effective solutions.

Wabi Sabi Mark Reibstein, 2009-05-27 Wabi Sabi, a little cat in Kyoto, Japan, had never thought much about her name until friends visiting from another land asked her owner what it meant. At last, the master Says, That's hard to explain. And That is all she says. This unsatisfying answer sets Wabi Sabi on a journey to uncover the meaning of her name, and on the way discovers what wabi sabi is: a Japanese philosophy of seeing beauty in simplicity, the ordinary, and the imperfect. Using spare text and haiku, Mark Reibstein weaves an extraordinary story about finding real beauty in unexpected places. Caldecott Medal-winning artist Ed Young complements the lyrical text with breathtaking collages. Together, they illustrate the unique world view that is wabi sabi. The Anthropology of Experience Victor Witter Turner, Edward M. Bruner, 1986 Fourteen authors, including many of the best-known scholars in the field, explore how people actually experience their culture and how those experiences are expressed in forms as varied as

narrative, literary work, theater, carnival, ritual, reminiscence, and life review. Their studies will be of special interest for anyone working in anthropological theory, symbolic anthropology, and contemporary social and cultural anthropology, and useful as well for other social scientists, folklorists, literary theorists, and philosophers.
