The Father-Daughter Plot Rebecca L. Copeland, Esperanza Ramirez-Christensen, 2001-07-31 This provocative collection of essays is a comprehensive study of the father-daughter dynamic in Japanese female literary experience. Its contributors examine the ways in which women have been placed politically, ideologically, and symbolically as daughters in a culture that venerates the father. They weigh the impact that this daughterly position has had on both the performance and production of women's writing from the classical period to the present. Conjoining the classical and the modern with a unified theme reveals an important continuum in female authorship—a historical approach often ignored by scholars. The essays devoted to the literature of the classical period discuss canonical texts in a new light, offering important feminist readings that challenge existing scholarship, while those dedicated to modern writers introduce readers to little-known texts with translations and readings that are engaging and original. Contributors: Tomoko Aoyama, Sonja Arntzen, Janice Brown, Rebecca L. Copeland, Midori McKeon, Eileen Mikals-Adachi, Joshua S. Mostow, Sharalyn Orbaugh, Esperanza Ramirez-Christensen, Edith Sarra, Atsuko Sasaki, Ann Sherif.

Angels and Demons in Art Rosa Giorgi, 2005 This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical

attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

Happiness 6 Shuzo Oshimi, 2017-12-19 A supernatural story of sexual awakening, growing up, and suburban vampirism, *Happiness* follows a dorky boy who is attacked by a girl in an alley. She sucks his blood and gives him a choice: life or death. He chooses life, but finds himself nearly overwhelmed by a new thirst and a fascination with the necks of his classmates... Praise for *Flowers of Evil*: A shockingly readable story that vividly--one might even say queasily--evokes the fear and confusion of discovering one's own sexuality. Recommended. -The Manga Critic A page-turning tale of sordid middle school blackmail. -Otaku USA Magazine By loving this manga I recognize what a sick and twisted individual I have become. While I can still say that I am not truly deviant, *Flowers of Evil* is a great reminder of my own thirst for power and my own personal corruption. -Otaku Champloo

The Sarashina Diary Sugawara no Takasue no Musume, 2018-03-20 A thousand years ago, a young Japanese girl embarked on a journey from deep in the countryside of eastern Japan to the capital. Forty years later, with the long account of that journey as a foundation, the mature woman skillfully created an autobiography that incorporates many moments of heightened awareness from her long life. Married at age thirty-three, she identified herself as a reader and writer more than as a wife and mother; enthralled by fiction, she bore witness to the dangers of romantic fantasy as well as the enduring consolation of self-expression. This reader's edition streamlines Sonja Arntzen and Moriyuki Itō's acclaimed translation of the *Sarashina Diary* for general readers and classroom use. This translation captures the lyrical richness of the original text while revealing its subtle structure and ironic meaning, highlighting the author's deep concern for Buddhist belief and practice and the juxtaposition of poetic passages and narrative prose. The translators' commentary offers insight into the author's family and world, as well as the style, structure, and textual history of her work.

Refiguring the Father Patricia Yaeger, Elizabeth Kowaleski-Wallace, 1989 An

exciting investigation of the ways literary and cultural texts have not only shaped the difficult terms of the daughter-father relationship but also prescribed a role for fathers that is paradoxical and contradictory. These 15 essays seek to enter into a new dialogue with both the tenets of patriarchy and with the initiating symbolic gestures of feminist discourse that have helped to maintain the father's voracious and hierarchical position in western culture. The problem is not simply to change the focus of feminist inquiry from father-as-center to mother-as-center, but to reinvent the discourse of the father, to unsettle an oedipal dialectic that insists on revealing the father as the gaze, as bodilessness, or as the symbolic, and to develop a new dialectic that refuses to describe the father function as if it were univocal and ahistorical.

The Woman's Hand Paul Gordon Schalow, Janet A. Walker, 1996 This volume has a dual purpose. It aims to define the state of Japanese literary studies in the field of women's writing and to present cross-cultural interpretations of Japanese material of relevance to contemporary work in gender studies and comparative literature.

Daughters and Fathers Lynda E. Boose, Betty S. Flowers, 1989 It says something, write Lynda Boose and Betty Flowers, that of the possible structural permutations of parent-child relations inscribed in our literary, mythic, historical, and psychoanalytic texts, the father and son are the first and the mother and son the second pair most frequently in focus. *Daughters and Fathers* shifts this focus to offer a provocative contribution to current discourse about representations of the family. Among the contributors, Lynda Boose explores the structural implications of Western culture's central daughter-father kinship exchange stories; Leah S. Marcus examines the politics of daughter-father relations in a historical study of Mary I and Elizabeth I as daughters of Henry VIII; and Diane F. Sadoff treats good girl novelists George Eliot, Elizabeth Gaskell, and Anne Brontë. Hortense J. Spillers focuses on the incest theme in works by Ralph Ellison and Alice Walker, while David Willbern examines Sigmund Freud's strange alteration of testimonies by women describing seduction by their fathers. Representing a wide range of fields, the authors give special emphasis to daughter-father relationships in British and American literature. They discuss the lives and works of such authors as Richardson, Hawthorne, Christina Rossetti, Dickinson, Thackeray, Yeats, Woolf, and Plath. In an afterword, Carolyn G. Heilbrun widens the scope of discussion to suggest that questioning conventional parent-child relationships may lead to quite other concepts of the family, moving further and further from the oedipal or nuclear family and the system that family-construct inevitably produces.
