Happiness 6 Shuzo Oshimi,2017-12-19 A supernatural story of sexual awakening, growing up, and suburban vampirism, Happiness follows a dorky boy who is attacked by a girl in an alley. She sucks his blood and gives him a choice: life or death. He chooses life, but finds himself nearly overwhelmed by a new thirst and a fascination with the necks of his classmates... Praise for Flowers of Evil: A shockingly readable story that vividly--one might even say queasily--evokes the fear and confusion of discovering one's own sexuality. Recommended. -The Manga Critic A page-turning tale of sordid middle school blackmail. -Otaku USA Magazine By loving this manga I recognize what a sick and twisted individual I have become. While I can still say that I am not truly deviant, Flowers of Evil is a great reminder of my own thirst for power and my own personal corruption. -Otaku Champloo

Forensic Investigator Esther McKay,2009-08-03 FORENSIC INVESTIGATOR Geoff Bernasconi had always been passionate about his job as a policeman in rural New South Wales and, from the earliest days of his career, went the extra mile, both for victims of crime and for their families. But one night in 1984, he was called to investigate the scene of an horrific car accident in which an entire family had been wiped out – and which it was impossible for him to forget. Geoff's day-to-day working life became a catalogue of tragedies, some of which involved people close to him, and he found himself spiralling downwards in the grip of post-traumatic stress disorder. When Esther McKay, fellow forensic investigator and author of the best-selling Crime Scene, heard that Geoff has been awarded maximum compensation for his suffering, she knew immediately this was a story that needed to be told. This is a harrowing account of what it is like to work on the front-line of crime and tragedy as a forensic investigator. But it is also the inspiring story of someone who has been exposed to sights and experiences many of us can hardly even imagine, yet has emerged from the darkness to begin his journey to recovery.

The Manga Guide to Databases Mana Takahashi,Shoko Azuma,Co Ltd Trend,2009-01-15 Want to learn about databases without the tedium? With its unique combination of Japanese-style comics and serious educational content, The Manga Guide to Databases is just the book for you. Princess Ruruna is stressed out. With the king and queen away, she has to manage the Kingdom of Kod's humongous fruit-selling empire. Overseas departments, scads of inventory, conflicting prices, and so many customers! It's all such a confusing mess. But a mysterious book and a helpful fairy promise to solve her organizational problems—with the practical magic of databases. In The Manga Guide to Databases, Tico the fairy teaches the Princess how to simplify her data management. We follow along as they design a relational database, understand the entity-relationship model, perform basic

database operations, and delve into more advanced topics. Once the Princess is familiar with transactions and basic SQL statements, she can keep her data timely and accurate for the entire kingdom. Finally, Tico explains ways to make the database more efficient and secure, and they discuss methods for concurrency and replication. Examples and exercises (with answer keys) help you learn, and an appendix of frequently used SQL statements gives the tools you need to create and maintain full-featured databases. (Of course, it wouldn't be a royal kingdom without some drama, so read on to find out who gets the girl—the arrogant prince or the humble servant.) This EduManga book is a translation of a bestselling series in Japan, co-published with Ohmsha, Ltd., of Tokyo, Japan.
