Blindsight Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish

to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Rainbows End Vernor Vinge, 2007-04-03 Four time Hugo Award winner Vernor Vinge has taken readers to the depths of space and into the far future in his bestselling novels *A Fire Upon the Deep* and *A Deepness in the Sky*. Now, he has written a science-fiction thriller set in a place and time as exciting and strange as any far-future world: San Diego, California, 2025. Robert Gu is a recovering Alzheimer's patient. The world that he remembers was much as we know it today. Now, as he regains his faculties through a cure developed during the years of his near-fatal decline, he discovers that the world has changed and so has his place in it. He was a world-renowned poet. Now he is seventy-five years old, though by a medical miracle he looks much younger, and he's starting over, for the first time unsure of his poetic gifts. Living with his son's family, he has no choice but to learn how to cope with a new information age in which the virtual and the real are a seamless continuum, layers of reality built on digital views seen by a single person or millions,

depending on your choice. But the consensus reality of the digital world is available only if, like his thirteen-year-old granddaughter Miri, you know how to wear your wireless access—through nodes designed into smart clothes—and to see the digital context—through smart contact lenses. With knowledge comes risk. When Robert begins to re-train at Fairmont High, learning with other older people what is second nature to Miri and other teens at school, he unwittingly becomes part of a wide-ranging conspiracy to use technology as a tool for world domination. In a world where every computer chip has Homeland Security built-in, this conspiracy is something that baffles even the most sophisticated security analysts, including Robert's son and daughter-in law, two top people in the U.S. military. And even Miri, in her attempts to protect her grandfather, may be entangled in the plot. As Robert becomes more deeply involved in conspiracy, he is shocked to learn of a radical change planned for the UCSD Geisel Library; all the books there, and worldwide, would cease to physically exist. He and his fellow re-trainees feel compelled to join protests against the change. With forces around the world converging on San Diego, both the conspiracy and the protest climax in a spectacular moment as unique and satisfying as it is unexpected. This is science fiction at its very best, by a master storyteller at his peak. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Last Space Ship Murray Leinster, 2019-08-29 Put yourself in the place of Kim Rendall, a handsome, idealistic young man living on a distant planet ruled by a super-efficient government. Here is industrialization carried to its illogical conclusion. Kim Rendall lives in the shadow of mechanized terror, for machines have taken over, and the disciplinary circuit keeps the

inhabitants in check . . .

Rules of Play Katie Salen Tekinbas, Eric Zimmerman, 2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In *Rules of Play* Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written *Rules of Play* as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, *Rules of Play* is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.

Mindjammer Sarah Newton, 2012-08-09 IT IS THE SECOND AGE OF SPACE... In the

seventeenth millennium, the New Commonality of Humankind is expanding, using newly-discovered faster-than-light travel to rediscover lost worlds colonised in the distant past. It's a time of turmoil, of clashing cultures, as civilisations shudder and collapse before the might of a benevolent empire ten millennia old. In the Solenine Cluster, things are going from bad to worse, as hyper-advanced technologies destabilise a world in chaos. Thaddeus Clay and his SCI Force special ops team are on the trail of the Transmigration Heresy. What they find is something beyond even their imagining - something which could tear the whole Commonality apart... Thrilling adventure and mystery wrapped up with an inventive, mind-bending look at mankind's future. - Howard Andrew Jones, author of The Desert of Souls Science fiction like this never dies. - Chris Helton, Dorkland Complex, gripping... the most original sci-fi you're likely to get... - G*M*S Magazine a very exciting and intelligently-written novel that should be on the reading list of every SF fan! - Stargazer's World William Gibson-like in the intensity of the ideas it introduces... a heady mixture of action, crunchy science fiction elements and that perennial cyberpunk or transhuman question: what does human mean? - Shores of Night

Vorpall Blade John Ringo, Travis S. Taylor, 2007-09-01 TO THE STARS^¾WITH GUNS AND DUCT TAPE LTC William Weaver, PhD. (Call me Bill...) and SEAL Chief Miller, the heroes who saved Earth from alien menace in Into the Looking Glass, are back and this time Bill's got hisself a ship! The former SSBN Nebraska has been converted, using mostly shade-tree mechanics and baling wire, into a warp ship, Naval Construction Contract 4144, ready to go where no Adar, SEAL or academic has gone before! Yay for the heroes! But who cares

for the poor Security guys, Force Recon Marines who are kept in the dark and fed manure all day That is until they land on an alien planet, get partially wiped out and then load back up again. It's a dog's life in the Space Marines but somebody's got to save the academics and the universe^¾at the cost of horrendous casualties. Ranging in topics from the best gun to kill armored space monsters to particle physics to cosmology, *Vorpall Blade* is a return to the good old days of SF when the science problems were fun, the women were smart, tough and beautiful, and the beasts were ugly. The monkeys are out in the space lanes and ready to rock. As soon as they find the duct tape. At the publisher's request, this title is sold without DRM (Digital Rights Management).

A Brother's Price Wen Spencer, 2005-07-05 In a world where male children are rare, a man is a valuable commodity—to be sold to the highest bidder... It isn't easy being the oldest boy in a house run by women—especially for Jerin Whistler. The grand-matriarchs of his clan are descended from soldiers, spies, and thieves. That's partly what's kept their family alive in the wilderness. But it also means Jerin's doomed to marry the girls next door—a fate he's convinced is worse than death. But Jerin gets in even worse trouble when, in the process of a daring rescue, he falls in love with a royal princess who's as high above his station as it's possible to be. Ren knows that Jerin is too far below her class to be an appropriate match for her and her royal sisters. But then she hears rumors of a long-held Whistler family

secret—one that might provide a way for them to finally be together. Unfortunately, she still has four sisters to convince. And that's before Jerin even comes to the capital—where simmering political tensions will threaten not just their love, but all their lives... “Don't plan on getting anything else done if you start a Wen Spencer novel; they are exceedingly hard to put down!”—Nebula Award-Winning Author Catherine Asaro

It is nothing less than a quest to find the Lightstone and give Men hope after ages of despair. It is a quest that none have seen the like of in ten generations. And most believe is doomed to fail. What hero is man enough, brave enough...or foolish enough to embark on such a mad quest? Valashu Elahad, the seventh and youngest Valeri prince of the royal house of Mesh is such a man. With his faithful companion Maram by his side Valashu will journey to the farthest reaches of Ea to try and reclaim this mystical object, to free the world of Morjin's evil and save his people from sure destruction.
