Starship Factory Stephen Fender,2016-10-07 Starship Factory was created as a quick reference for writers, gamers, or anyone else interested in creating spaceships for works of fiction. The work is divided into two sections, the first outlining the creation of a star vessel, with the second detailing crew requirements and generation. There are detailed descriptions of compartments, terminology and technology using past and present works of science fiction as reference points. You can use Starship Factory to help you craft anything from a small pleasure yacht to large, heavily armed warships or fighter carriers.

A Spaceship Named McGuire Randall Garrett,2016-01-21 No. Nobody ever deliberately named a spaceship that. The staid and stolid minds that run the companies which design and build spaceships rarely let their minds run to fancy. The only example I can think of is the unsung hero of the last century who had puckish imagination enough to name the first atomic-powered submarine Nautilus. Such minds are rare. Most minds equate dignity with dullness. This ship happened to have a magnetogravitic drive, which automatically put it into the MG class. It also happened to be the first successful model to be equipped with a Yale robotic brain, so it was given the designation MG-YR-7--the first six had had more bugs in them than a Leopoldville tenement. So somebody at Yale--another unsung hero--named the ship McGuire; it wasn't official, but it stuck. The next step was to get someone to test-hop McGuire. They needed just the right man--quick-minded, tough, imaginative, and a whole slew of complementary adjectives. They wanted a perfect superman to test pilot their baby, even if they knew they'd eventually have to take second best.

Starship Repo Patrick S. Tomlinson,2019-05-21 Starship Repo is a fast-paced romp through the galaxy from Patrick S. Tomlinson. Firstname Lastname is a no one with nowhere to go. With a name that is the result of an unfortunate clerical error and destined to be one of the only humans on an alien space station. That is until she sneaks aboard a ship and joins up with a crew of repomen (they are definitely not pirates). Now she's traveling the galaxy recovering ships. What could go wrong? There he discovers an advanced alien spacecraft that complicates his life further. The adventure begins... and with it new troubles for Jason. Lightyears away, a war for the control of Earth looms and humanity's freedom hangs in the balance. Fortunately, he's got a plucky, pop culture loving, nano-sized symbiote who's managed to roll back the damages of eighty years of hard living. Starship Alchemon Christopher Hinz,2019-11-12 From the the award-winning author of the cult-80s classic *Liege-Killer* and *The Paratwa Saga*, comes Starship Alchemon - a deep-space action opera combined with a threat to all humanity. Nine explorers aboard a powerful AI vessel, Alchemon, are sent to investigate an "anomalous biosignature" on a distant planet. But they soon realize their mission has gone to hell as deadly freakish incidents threaten their lives. Are these events caused by the tormented psychic mysteriously put aboard at the last minute? Has the crew been targeted by a vengeful corporate psychopath? Are they part of some cruel experiment by the ship's ruthless owners? Or do their troubles originate with the strange alien lifeform retrieved from the planet? A creature that might possess an intelligence beyond human understanding or may perhaps be the spawn of some terrifying supernatural force... only for their own survival, but for the fate of all humanity. File Under: Science Fiction [Deep Space Isolation | Monster on Spaceship | Psychic Powers | All-powerful Sentient AI]

Hidden beneath the old barn, Van's legacy is waiting: a starship, not of this world. With his combat AI, an android bird named Perry, Van takes his first steps into the wider galaxy. Hab 12 Mark Wayne McGinnis, 2014-04-19 Buckle up--this is another crazy ride! The Scrapyard Ship sci-fi cliff-hanger adventures continue with HAB 12, the second book in the series: Captain Jason Reynolds faces new challenges, not only on Earth but from the far side of the universe as well. The only way to stop the Craing this time will be to square off with them on their home turf. Jason's been informed that three powerful Craing warships, having similar technology as The Lilly, will soon be en route to Earth. The Alliance must destroy the Craing's wormhole means of distant space travel to avert Earth's total annihilation. Unfortunately, there's no way to reach the Craing worlds in time, at least not through conventional means. It's up to Jason and his hand-picked assault team to traverse, by advanced phase-shifting means, through the hazardous environment of HAB 12. This is an adventure fraught with carnivores of a Jurassic Age magnitude, and a terrain so deadly that turning back may be their only hope of survival. Note from the author: Don't be surprised by cliff-hanger endings. I'll do my best to keep Scrapyard Ship as well as the Tapped In series books coming so you won't have long to wait for the next book. Enjoy!

Sphere Michael Crichton, 2011-03-29 In the middle of the South Pacific, a thousand feet below the surface of the water, a huge vessel is discovered resting on the ocean floor. It is a spaceship of phenomenal dimensions, apparently undamaged by its fall from the sky. And, most startling, it appears to be at least three hundred years old. But even more fantastic—and frightening—is what waits inside . . .

Where's the Nearest Spaceship Repair Shop? Mary Wall, 2021-08-25 An ET's ship sustains damage to the navigational system. Thinking they can do without it, they speed on, and so wander off the main routes. Along the way, their communications antennae are damaged, so no wrecker call for them. Oh look! A populated planet! They land in the University of Louisville football field! They find isolated and paranoid folk although they offer NASA the advanced tech to make a spaceship repair facility. Even getting the Earthies to trust they would not spread any contamination or try to subjugate them is a great ordeal! It does not seem to matter that they're 'standard bipeds' that look just like the humans!

Meanwhile, the Nubl, a warring race of artificial 'hive' intelligence has heard of the planet and its biological sentience and prepares to eradicate them. Can Earth develop the technology to defend themselves before it's too late
