**Celestial Being** Noboru Kimura,Hajime

Yadate,Yoshiyuki Tomino,2010 The novelization of the hit anime series! The year is 2307 A.D. Although fossil fuels have been depleted, humanity has obtained a new source of energy to replace them in the form of a large-scale solar power generation system based on three huge orbital elevators. However, the benefits of this system are available only to a handful of major powers and their allies. The three orbital elevators belong to three superpower blocs. These are the Union, led by the United States of America; the Human Reform League, led by China, Russia, and India; and the AEU, led by Europe. These superpower blocs continue to play a grand zero-sum game for the sake of their own prestige and prosperity. In this world of never-ending conflict, a private armed organization appears, dedicated to the elimination of war through armed force. Its name is Celestial Being, and it is in possession of Gundam mobile suits. With these Gundams, it begins armed intervention into all acts of war.

**I Like Him, He Likes Her** Phyllis Reynolds

Naylor,2010-05-18 Find a Penny pick it up and all day long you'll have good luck...except, of course, if that Penny is charming and pretty and funny, and the person picking her up just happens to be your boyfriend. Alice McKinley's freshman year is not as "lucky" as she was hoping it would be. But she's is trying to look on the bright side. There are worse things than being single for a semester... for a school year...for the whole summer.... At least Alice can count on her best friends for support--in theory, anyway. Lately they haven't been all that there-for-her. In fact, it seems like Pam and Liz are suddenly involved in intense, secret conversations whenever Alice is around. Single is starting to feel a whole lot like solo.

**Mind Maps at Work** Tony Buzan, 2005-11-29 From the bestselling author of The Mind Map Book and Use Both Sides of Your Brain World-renowned expert on the brain, memory, speed reading, creativity, and innovation Tony Buzan has used his patented Mind Maps system to teach millions of people around the world how to unlock the infinite creativity of the human mind. With Mind Maps at Work, you'll find a practical guide to achieving workplace success and satisfaction. Mind Maps are a revolutionary thinking tool: a visual and colorful form of note-taking that unleashes our creative and logical sides simultaneously. Incorporating a number of high-profile success stories—including the impressive results that Buzan's system has yielded for companies like Boeing, Con Edison, and Apple—Mind Maps at Work guides individuals, work groups, and companies large and small to plan and strategize effectively, solve problems creatively, and recall facts easily, maximizing every individual's creativity and productivity.
