*Achtung-Panzer!* Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**A HUNDRED VERSES FROM OLD JAPAN** Various,2009-11 The Hyaku-nin-isshiu, or 'Single Verses by a Hundred People', were collected together in A.D. 1235. They are placed in approximate chronological order, and range from about the year AD 670. Perhaps what strikes one most in connection with the Hyaku-nin-isshiu is the date when the verses were written; most of them were produced before the time of the Norman Conquest (AD 1066), and one cannot but be struck with the

advanced state of art and culture in Japan at a time when Europe was still in a very elementary stage of civilization. The Collection consists almost entirely of love-poems and what the editor calls picture-poems, intended to bring before the mind's eye some well-known scene in nature; and it is marvellous what effect little thumbnail sketches are compressed within thirty-one syllables. Some show the cherry blossoms which are doomed to fall, the dewdrops scattered by the wind, the mournful cry of the wild deer on the mountains, the dying crimson of the fallen maple leaves, the weird sadness of the cuckoo singing in the moonlight, and the loneliness of the recluse in the mountain wilds; while those verses which appear to be of a more cheerful type are rather of the nature of the 'Japanese smile', described by Lafcadio Hearn as a mask to hide the real feelings. Japanese poetry differs very largely from anything we are used to in the West. It has no rhyme or alliteration, and little, if any, rhythm, as we understand it. The verses in this Collection are all what are called Tanka which has five lines and thirty-one syllables, arranged thus: 5-7-5-7-7 which is an unusual metre for Western ears. For this translation the editor has adopted a five-lined verse of 8-6-8-6-6 metre, with the second, fourth, and

fifth lines rhyming, in the hope of retaining at least some resemblance to the original form, while at the same time making the sound more familiar to English readers. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist?
