**From Cave Man to Cave Martian** Manfred "Dutch" von Ehrenfried,2019-04-05 This book explores the practicality of using the existing subsurface geology on the Moon and Mars for protection against radiation, thermal extremes, micrometeorites and dust storms rather than building surface habitats at great expense at least for those first few missions. It encourages NASA to plan a precursor mission using this concept and employ a "Short Stay" Opposition Class mission to Mars as the first mission rather than the "Long Stay" concept requiring a mission that is too long, too dangerous and too costly for man's first missions to Mars. Included in these pages is a short history on the uses of caves by early humans over great periods of time. It then describes the ongoing efforts to research caves, pits, tunnels, lava tubes, skylights and the associated technologies that pertain to potential lunar and Mars exploration and habitation. It describes evidence for existing caves and lava tubes on both the Moon and Mars. The work of noted scientists, technologists and roboticists are referenced and described. This ongoing work is more extensive than one would think and is directly applicable to longer term habitation and exploration of the Moon and Mars. Emphasis is also given to the operational aspects of working and living in lunar and Martian caves and lava tubes.

**Devils on the Deep Blue Sea** Kristoffer A. Garin,2006-06-27 In this terrifically entertaining history, journalist Kristoffer A. Garin chronicles the cruise-ship industry, from its rise in the early sixties, to its explosion in the seventies with the hit show The Love Boat, to the current vicious consolidation wars and brazen tax dodges. Entrepreneurial genius and bare-knuckle capitalism mate with cultural kitsch as the cruise lines dodge U.S. tax, labor, and environmental laws to make unimaginable profits while bringing the world a new form of leisure. A colorful and compelling behind-the-scenes narrative, Devils on the Deep Blue Sea is a definitive look at the industry and its robber barons who created floating empires.

**Cruise Sector Growth** Alexis Papathanassis,2009-10-21 Despite representing a fairly small fraction of global tourism activity, the cruise sector has been experiencing a steady growth rate over the last years. The 1st International Cruise Conference (ICC) and its proceedings documented here face the changes which accompany this process of growth. The corresponding refereed papers are organized under the following themes: New trends and innovations, human resource management, information technology and standardization. The underlying motivation behind this collection of works is to bridge the gap between cruise theory and practice, by providing a 'living research agenda' aligned with the cruise sector's realities and needs.

*Zora neale Hurston* Henry L. Gates,2000-02-11 Zora Neale Hurston(1891 -- 1960) Of the various signs that the study of literature in America has been transformed, none is more salient than is the resurrection and canonization of Zora Neale Hurston. Twenty years ago, Hurston's work was largely out-of-print, her literary legacy alive only to a tiny, devoted band of readers who were often forced to photocopy her works if they were to be taught ... Today her works are central to the canon of African-American, American, and Women's literatures ... The author of four novels, *Jonah's Gourd Vine* (1934), *Their Eyes Were Watching God* (1937),*Moses, Man of the Mountain* (1939), and *Seraph on the Suwanee* (1948); two books of folklore -- *Mules and Men* (1935) and *Tell My Horse* (1938); an autobiography, *Dust Tracks On a Road* (1942); and over 50 short stories, essays, and plays, Hurston was one of the most widely acclaimed Black authors for the two decades between 1925 and 1945. -- from the Preface by Henry Louis Gates, Jr.
