The Challenge of Slums United Nations Human Settlements Programme, 2012-05-23 The Challenge of Slums presents the first global assessment of slums, emphasizing their problems and prospects. Using a newly formulated operational definition of slums, it presents estimates of the number of urban slum dwellers and examines the factors at all level, from local to global, that underlie the formation of slums as well as their social, spatial and economic characteristics and dynamics. It goes on to evaluate the principal policy responses to the slum challenge of the last few decades. From this assessment, the immensity of the challenges that slums pose is clear. Almost 1 billion people live in slums, the majority in the developing world where over 40 per cent of the urban population are slum dwellers. The number is growing and will continue to increase unless there is serious and concerted action by municipal authorities, governments, civil society and the international community. This report points the way forward and identifies the most promising approaches to achieving the United Nations Millennium Declaration targets for improving the lives of slum dwellers by scaling up participatory slum upgrading and poverty reduction programmes. The Global Report on Human Settlements is the most authoritative and up-to-date assessment of conditions and trends in the world's cities. Written in clear language and supported by informative graphics, case studies and extensive statistical data, it will be an essential tool and reference for researchers, academics, planners, public authorities and civil society organizations around the world.

**The Roman Empire and the Indian Ocean** Raoul McLaughlin, 2014-09-11 This study of ancient Roman shipping and trade across continents reveals the Roman Empire's far-reaching impact in the ancient world. In ancient times, large fleets of Roman merchant ships set sail from Egypt on voyages across the Indian Ocean. They sailed from Roman ports on the Red Sea to distant kingdoms on the east coast of Africa and southern Arabia. Many continued their voyages across the ocean to trade with the rich kingdoms of ancient India. Along these routes, the Roman Empire traded bullion for valuable goods, including exotic African products, Arabian incense, and eastern spices. This book examines Roman commerce with Indian kingdoms from the Indus region to the Tamil lands. It investigates contacts between the Roman Empire and powerful African kingdoms, including the Nilotic regime that ruled Meroe and the rising Axumite Realm. Further chapters explore Roman dealings with the Arab kingdoms of southern Arabia, including the Saba-Himyarites and the Hadramaut Regime, which sent caravans along the incense trail to the ancient rock-carved city of Petra. The first book to bring these subjects together in a single comprehensive study, The Roman Empire and the Indian Ocean reveals Rome's impact on the ancient world and explains how international trade funded the legions that maintained imperial rule.

**The History of the London Water Industry, 1580–1820** Leslie Tomory, 2017-04-25 How did pre-industrial London build the biggest water supply industry on earth? Beginning in 1580, a number of competing London companies sold water directly to consumers through a large network of wooden mains in the expanding metropolis. This new water industry flourished throughout the 1600s, eventually expanding to serve tens of thousands of homes. By the late eighteenth century, more than 80 percent of the city's houses had water connections—making London the best-served metropolis in the world while demonstrating that it was legally, commercially, and technologically possible to run an infrastructure network within the largest city on earth. In this richly detailed book, historian Leslie Tomory shows how new technologies imported from the Continent, including waterwheel-driven piston pumps, spurred the rapid growth of London's water industry. The business was further sustained by an explosion in consumer demand, particularly in the city's wealthy West End. Meanwhile, several key local innovations reshaped the industry by enlarging the size of the supply network. By 1800, the success of London's water industry made it a model for other cities in Europe and beyond as they began to build their own water networks. The city's water infrastructure even inspired builders of other large-scale urban projects, including gas and sewage supply networks. The History of the London Water Industry, 1580–1820 explores the technological, cultural, and mercantile factors that created and sustained this remarkable industry. Tomory examines how the joint-stock form became popular with water companies, providing a stable legal structure that allowed for expansion. He also explains how the roots of the London water industry's divergence from the Continent and even from other British cities was rooted both in the size of London as a market and in the late seventeenth-century consumer revolution. This fascinating and unique

study of essential utilities in the early modern period will interest business historians and historians of science and technology alike.

**Windsor Locks History** Melvin Montemerlo,2017-11-06 This is the first of a series of four books on the history of Windsor Locks, Connecticut. It contains 38 chapters about important people, places and events in the history of Windsor Locks. Windsor Locks history goes from 1663, when the first settlers reached the Pine Meadow section of the town of Windsor, CT. In 1854, the Pine Meadow section of Windsor was incorporated into the separate town of Windsor Locks. So the history of Windsor Locks goes from 1663 to the current time (2022), which is about three and a half centuries. The first two books of this series present chapters on important people, places and events in that history. Windsor Locks History: Volume III presents a number of sets of photo of the town taken from about 1880 to 1960, and as well as more descriptive chapters. The fourth book in the series is Understanding Windsor Locks History, which focusses on the overreall structure of that history, dividing the three and a half centuries into four distinct phases that the town's evolution that the tow has gone through. It presents chronological historiies of the town by three different people, and ties together the stories of the first three books to the chronological history of the town. Descriptive histories give detailed accounts of the people, places and events, while the chronological histories list the events in the order in which they occurred. You can read either approach first, but tying the two together results in a deeper understanding of the town's history.

*When She Woke* Hillary Jordan,2011-10-04 In the mid-21st century, a young woman in Texas awakens to a nightmare: her skin has been genetically altered, turned bright red as punishment for the crime of having an abortion. A powerful reimagining of *The Scarlet Letter*, *When She Woke* is a timely fable about a stigmatized woman struggling to navigate an America of the not-too-distant future, where the line between church and state has been eradicated, and convicted felons are no longer imprisoned and rehabilitated but “chromed” and released back into the population to survive as best they can. In seeking a path northward to safety, through an alien and hostile world, Hannah unknowingly embarks on a journey of self-discovery that forces her to question the values she once held true and the righteousness of a country that politicizes faith and love.

**Cities in a Globalizing World** United Nations Centre for Human Settlements,2001 'The world has entered the urban millennium. Nearly half the world's people are now city dwellers and the rapid increase in urban population is expected to continue mainly in developing countries. This historic transition is being further propelled by the powerful forces of globalization. The central challenge for the international community is clear: to make both urbanization and globalization work for all people instead of leaving billions behind or on the margins ... Cities in a Globalizing World: Global Report on Human Settlements 2001 is a comprehensive review of conditions in the world's.

**Eric Drummond and his Legacies** David Macfadyen,Michael D. V. Davies,Marilyn Norah Carr,John Burley,2019-02-06 This book shows how the first institution of global governance was conceived and operated. It provides a new assessment of its architect, Eric Drummond, the first Secretary-General of the League of Nations, appointed a

century ago. The authors conclude that he stands in the front rank of the 12 men who have occupied the post of Secretary-General of the League or its successor, the UN. Part 1 describes his character and leadership. His influence in shaping the International Civil Service, the 'beating heart' of the League, is the subject of Part 2, which also shows how the young staff he appointed responded with imagination and creativity to the political, economic and social problems that followed World War I. Part 3 shows the influence of these early origins on today's global organizations and the large scale absorption of League policies, programmes, practices and staff into the UN and its Specialized Agencies.

**Cosmopolitanism** Dipesh Chakrabarty, Homi K. Bhabha, Sheldon Pollock, Carol A. Breckenridge, 2002-05-10 As the final installment of Public Culture's Millennial Quartet, Cosmopolitanism assesses the pasts and possible futures of cosmopolitanism—or ways of thinking, feeling, and acting beyond one's particular society. With contributions from distinguished scholars in disciplines such as literary studies, art history, South Asian studies, and anthropology, this volume recenters the history and theory of translocal political aspirations and cultural ideas from the usual Western vantage point to areas outside Europe, such as South Asia, China, and Africa. By examining new archives, proposing new theoretical formulations, and suggesting new possibilities of political practice, the contributors critically probe the concept of cosmopolitanism. On the one hand, cosmopolitanism may be taken to promise a form of supraregional political solidarity, but on the other, these essays argue, it may erode precisely those intimate cultural differences that derive their meaning from particular places and traditions. Given that most cosmopolitan political formations—from the Roman empire and European imperialism to contemporary globalization—have been coercive and unequal, can there be a noncoercive and egalitarian cosmopolitan politics? Finally, the volume asks whether cosmopolitanism can promise any universalism that is not the unwarranted generalization of some Western particular. Contributors. Ackbar Abbas, Arjun Appadurai, Homi K. Bhabha, T. K. Biaya, Carol A. Breckenridge, Dipesh Chakrabarty, Ousame Ndiaye Dago, Mamadou Diouf, Wu Hung, Walter D. Mignolo, Sheldon Pollock, Steven Randall

Let's delve into the realm of bestselling books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the

Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
