The Challenge of Slums United Nations Human Settlements Programme,2012-05-23 The Challenge of Slums presents the first global assessment of slums, emphasizing their problems and prospects. Using a newly formulated operational definition of slums, it presents estimates of the number of urban slum dwellers and examines the factors at all level, from local to global, that underlie the formation of slums as well as their social, spatial and economic characteristics and dynamics. It goes on to evaluate the principal policy responses to the slum challenge of the last few decades. From this assessment, the immensity of the challenges that slums pose is clear. Almost 1 billion people live in slums, the majority in the developing world where over 40 per cent of the urban population are slum dwellers. The number is growing and will continue to increase unless there is serious and concerted action by municipal authorities, governments, civil society and the international community. This report points the way forward and identifies the most promising approaches to achieving the United Nations Millennium Declaration targets for improving the lives of slum dwellers by scaling up participatory slum upgrading and poverty reduction programmes. The Global Report on Human Settlements is the most authoritative and up-to-date assessment of conditions and trends in the world's cities. Written in clear language and supported by informative graphics, case studies and extensive statistical data, it will be an essential tool and reference for researchers, academics, planners, public authorities and civil society organizations around the world.

The Roman Empire and the Indian Ocean Raoul McLaughlin,2014-09-11 This study of ancient Roman shipping and trade across continents reveals the Roman Empire’s far-reaching impact in the ancient world. In ancient times, large fleets of Roman merchant ships set sail from Egypt on voyages across the Indian Ocean. They sailed from Roman ports on the Red Sea to distant kingdoms on the east coast of Africa and southern Arabia. Many continued their voyages across the ocean to trade with the rich kingdoms of ancient India. Along these routes, the Roman Empire traded bullion for valuable goods, including exotic African products, Arabian incense, and eastern spices. This book examines Roman commerce with Indian kingdoms from the Indus region to the Tamil lands. It investigates contacts between the Roman Empire and powerful African kingdoms, including the Nilotic regime that ruled Meroe and the rising Axumite Realm. Further chapters explore Roman dealings with the Arab kingdoms of southern Arabia, including the Saba-Himyarites and the Hadramaut Regime, which sent caravans along the incense trail to the ancient rock-carved city of Petra. The first book to bring these subjects together in a single comprehensive study, The Roman Empire and the Indian Ocean reveals Rome’s impact on the ancient world and explains how international trade funded the legions that maintained imperial rule.

The complete contents also are available online through Veterinary Consult.

When She Woke Hillary Jordan,2011-10-04 In the mid-21st century, a young woman in Texas awakens to a nightmare: her skin has been genetically altered, turned bright red as punishment for the crime of having an abortion. A powerful reimagining of The Scarlet Letter, When She Woke is a timely fable about a stigmatized woman struggling to navigate an America of the not-too-distant future, where the line between church and state has been eradicated, and convicted felons are no longer imprisoned and rehabilitated but “chromed” and released back into the population to survive as best they can. In seeking a path northward to safety, through an alien and hostile world, Hannah unknowingly embarks on a journey of self-discovery that forces her to question the values she once held true and the righteousness of a country that politicizes faith and love.

Windsor Locks History Melvin Montemerlo,2017-11-06 This is the first of a series of four books on the history of Windsor Locks, Connecticut. It contains 38 chapters about important people, places and events in the history of Windsor Locks. Windsor Locks history goes from 1663, when the first settlers reached the Pine Meadow section of the town of Windsor, CT. In 1854, the Pine Meadow section of WIndsor was incorporated into the separate town of Windsor Locks. So the history of WIndsor Locks goes from 1663 to the current time (2022), which is about three and a half centuries. The first two books of this series present chapters on

important people, places and events in that history. Windsor Locks History: Volume III presents a number of sets of photo of the town taken from about 1880 to 1960, and as well as more descriptive chapters. The fourth book in the series is Understanding Windsor Locks History, which focusses on the overreall structure of that history, dividing the three and a half centuries into four distinct phases that the town's evolution that the tow has gone through. It presents chronological histories of the town by three different people, and ties together the stories of the first three books to the chronological history of the town. Descriptive histories give detailed accounts of the people, places and events, while the chronological histories list the events in the order in which they occurred. You can read either approach first, but tying the two together results in a deeper understanding of the town's history.

Ezra and Dorothy Pound Ezra Pound,Dorothy Pound,1999 More than 150 previously unpublished letters of poet Ezra Pound and his wife, Dorothy, are combined with military and FBI documents, previously unknown photographs, and an extensive Introduction to create the definitive work on Pound's postwar incarceration, his indictment for treason, and the writing of his greatest literary work, the Pisan Cantos.

Cities in a Globalizing World United Nations Centre for Human Settlements,2001 'The world has entered the urban millennium. Nearly half the world's people are now city dwellers and the rapid increase in urban population is expected to continue mainly in developing countries. This historic transition is being further propelled by the powerful forces of globalization. The central challenge for the international community is clear: to make both urbanization and globalization work for all people instead of leaving billions behind or on the margins ... Cities in a Globalizing World: Global Report on Human Settlements 2001 is a comprehensive review of conditions in the world's.

The History of the London Water Industry, 1580–1820 Leslie Tomory,2017-04-25 How did pre-industrial London build the biggest water supply industry on earth? Beginning in 1580, a number of competing London companies sold water directly to consumers through a large network of wooden mains in the expanding metropolis. This new water industry flourished throughout the 1600s, eventually expanding to serve tens of thousands of homes. By the late eighteenth century, more than 80 percent of the city's houses had water connections—making London the best-served metropolis in the world while demonstrating that it was legally, commercially, and technologically possible to run an infrastructure network within the largest city on earth. In this richly detailed book, historian Leslie Tomory shows how new technologies imported from the Continent, including waterwheel-driven piston pumps, spurred the rapid growth of London's water industry. The business was further sustained by an explosion in consumer demand, particularly in the city's wealthy West End. Meanwhile, several key local innovations reshaped the industry by enlarging the size of the supply network. By 1800, the success of London's water industry made it a model for other cities in Europe and beyond as they began to build their own water networks. The city's water infrastructure even inspired builders of other large-scale urban projects, including gas and sewage supply networks. The History of the London Water Industry, 1580–1820 explores the technological, cultural, and mercantile factors that created and sustained this remarkable industry. Tomory examines how the joint-stock form became popular with water companies, providing a stable legal structure that allowed for expansion. He also explains how the roots of the London water industry's divergence from the Continent and even from other British cities was rooted both in the size of London as a market and in the late seventeenth-century consumer revolution. This fascinating and unique study of essential utilities in the early modern period will interest business historians and historians of science and technology alike.

Eric Drummond and his Legacies David Macfadyen,Michael D. V. Davies,Marilyn Norah Carr,John Burley,2019-02-06 This book shows how the first institution of global governance was conceived and operated. It provides a new assessment of its architect, Eric Drummond, the first Secretary-General of the League of Nations, appointed a century ago. The authors conclude that he stands in the front rank of the 12 men who have occupied the post of Secretary-General of the League or its successor, the UN. Part 1 describes his character and leadership. His influence in shaping the International Civil Service, the 'beating heart' of the League, is the subject of Part 2, which also shows how the young staff he appointed responded with imagination and creativity to the political, economic and social problems that followed World War I. Part 3 shows the influence of these early origins on today's global organizations and the large scale absorption of League policies, programmes, practices and staff into the UN and its Specialized Agencies.

Hugh Maaskant Michelle Provoost,Hugh Maaskant,2014-02-28 Today considered the godfather and forerunner of a generation that includes Adriaan Geuze, Rem Koolhaas, Winy Maas and Willem Jan Neutelings, Hugh Maaskant (1907-1977) was underappreciated for many years. Maaskant led the postwar reconstruction of Rotterdam, designing revolutionary, complex, large-scale buildings, such as the Groothandelsgebouw and Euromast, as well as the Amsterdam Hilton Hotel and the Scheveningen Pier in The Hague. In Hugh Maaskant: Architect of Progress, historian and Maaskant scholar Michelle Provoost orients the architect in an international as well as historical perspective, recounting his work in the context of the optimistic reconstruction of the postwar period as well as the exciting developments of the 1960s and Holland's increasing prosperity throughout that decade. The book features both historical and recent photographs, including a series taken especially for this edition by internationally renowned architectural photographer Iwan Baan.

Cosmopolitanism Dipesh Chakrabarty,Homi K. Bhabha,Sheldon Pollock,Carol A. Breckenridge,2002-05-10 As the final installment of Public Culture's Millennial Quartet, Cosmopolitanism assesses the pasts and possible futures of cosmopolitanism—or ways of thinking, feeling, and acting beyond one's particular society. With contributions from distinguished scholars in disciplines such as literary studies, art history, South Asian studies, and anthropology, this volume recenters the history and theory of translocal political aspirations and cultural ideas from the usual Western vantage point to areas outside Europe, such as South Asia, China, and Africa. By examining new archives, proposing new theoretical formulations, and suggesting new possibilities of political practice, the contributors critically probe the concept of cosmopolitanism. On the one hand, cosmopolitanism may be taken to promise a form of supraregional political solidarity, but on the other, these essays argue, it may erode precisely those intimate cultural differences that derive their meaning from particular places and traditions. Given that most cosmopolitan political formations—from the Roman empire and European imperialism to contemporary globalization—have been coercive and unequal, can there be a noncoercive and egalitarian cosmopolitan politics? Finally, the volume asks whether cosmopolitanism can promise any universalism that is not the unwarranted generalization of some Western particular. Contributors. Ackbar Abbas, Arjun Appadurai, Homi K. Bhabha, T. K. Biaya, Carol A. Breckenridge, Dipesh Chakrabarty, Ousame Ndiaye Dago, Mamadou Diouf, Wu Hung, Walter D. Mignolo, Sheldon Pollock, Steven Randall

Encyclopedia of Ancient and Forbidden Secrets Robert Nye,2019-09-04 Encyclopedia of Ancient and Forbidden Secretscolorings, the S.S. has its own rites, festivals, rituals and burial customs. The spiritual center of the S.S. - dedicated entirely to the development of these and other public rituals, is the Ancestral Heritage Office.Reichsfuhrer S.S., Himmler, is an avid student of the occult. An SS occult research department, the Ahnernerbe (Ancestral Heritage) was established in 1935 with SS Colonel Wolfram von Sievers at its head. Occult research took SS researchers as far afield as Tibet.As soon as the Nazi movement had sufficient

funds, it began to organize a number of expeditions to Tibet and these succeeded one another practically without interruption through the present day. It is conjectured that the Nazis wish to find Shambala, an ancient center of power which is said to be accessible through hidden tunnels in Tibet.The strongest influence on Hitler in this regard was Dietrich Eckart (1868-1923). Most biographers have underestimated the influence that Eckart exerted on Hitler. He was the wealthy publisher and editor-in-chief of an anti-semitic journal which he called In Plain German. Eckart was also a committed occultist and a master of magic. As an initiate, Eckart belonged to the inner circle of the Thule Society as well as other esoteric orders.There can be no doubt that Eckart - who had been alerted to Hitler by other Thulists - trained Hitler in techniques of self confidence, self projection, persuasive oratory, body language and discursive sophistry. With these tools, in a short period of time he was able to move the obscure workers party from the club and beer hall atmosphere to a mass movement. The emotion charged lay speaker became an expert orator, capable of mesmerizing a vast audience.
